Modern Alchemy Mark Morrisson,2007-04-19 Alchemists are generally held to be the quirky forefathers of science blending occultism with metaphysical pursuits Although many were intelligent and well intentioned thinkers the oft cited goals of alchemy paint these antiquated experiments as

wizardry not scientific investigation Whether seeking to produce a miraculous panacea or struggling to transmute lead into gold the alchemists radical goals held little relevance to consequent scientific pursuits Thus the temptation is to view the transition from alchemy to modern science as one that discarded fantastic ideas about philosophers stones and magic potions in exchange for modest yet steady results It has been less noted however that the birth of atomic science actually coincided with an efflorescence of occultism and esoteric religion that attached deep significance to questions about the nature of matter and energy Mark Morrisson challenges the widespread dismissal of alchemy as a largely insignificant historical footnote to science by prying into the revival of alchemy and its influence on the emerging subatomic sciences of the late 19th and early 20th centuries Morrisson demonstrates its surprising influence on the emerging subatomic sciences of the late 19th and early 20th centuries Specifically Morrisson examines the resurfacing of occult circles during this time period and how their interest in alchemical tropes had a substantial and traceable impact upon the science of the day Modern Alchemy chronicles several encounters between occult conceptions of alchemy and the new science describing how academic chemists inspired by the alchemy revival attempted to transmute the elements to make gold Examining scientists publications correspondence talks and laboratory notebooks as well as the writings of occultists alchemical tomes and science fiction stories he argues that during the birth of modern nuclear physics the trajectories of science and occultism so often considered antithetical briefly merged

Of Auras and Shadows Jennifer Karter, 2024-01-16 Eryn is the greatest hero the Community has ever trained When a priest foresees that she and her guardian will save the Community it seems like Eryn's future is assured But when she loses her guardian on their first mission to gather the ichor that maintains the life preserving dome over the Community Eryn is stuck with Rina the worst ranked guardian Things get harder as Eryn's resentment turns to love Heroes don't fall in love with their guardians It's supposed to be the other way around Rina has spent her entire life trying to prove that shadows don't always lie She fights her unconditional love for her hero rather than accepting it as she is supposed to When Rina discovers that the corruption of the Dark Lands may not just be outside the dome but also in the Community's system itself Eryn is the only person who might listen But will Eryn accept that the Community she loves so dearly is causing the destruction Eryn was prophesied to fix
