Disturbing the Universe Roberta S. Trites, 1998-04-01 The Young Adult novel is ordinarily characterized as a coming of age story in which the narrative revolves around the individual growth and maturation of a character but Roberta Trites expands this notion by chronicling the dynamics of power and repression that weave their way through YA books Characters in these novels must learn to negotiate the levels of power that exist in the myriad social institutions within which they function including family church government and school Trites argues that the development of the genre over the past thirty years is an outgrowth of postmodernism since YA novels are by definition texts that interrogate the social construction of individuals Drawing on such nineteenth century precursors as Little Women and Adventures of Huckleberry Finn Disturbing the Universe demonstrates how important it is to employ poststructuralist methodologies in analyzing adolescent literature both in critical studies and in the classroom Among the twentieth century authors discussed are Blume Hamilton Hinton Le Guin L. Engle and Zindel Trites work has applications for a broad range of readers including scholars of children's literature and theorists of post modernity as well as librarians and secondary school teachers Disturbing the Universe Power and Repression in Adolescent Literature

by Roberta Seelinger Trites is the winner of the 2002 Children's Literature Association's Book Award. The award is given annually in order to promote and recognize outstanding contributions to children's literature history scholarship and criticism. It is one of the highest academic honors that can accrue to an author of children's literary criticism.

Victorian Narratives of the Recent Past Helen Kingstone, 2017-03-30 This book explains why narrating the recent past is always challenging and shows how it was particularly fraught in the nineteenth century. The legacy of Romantic historicism, the professionalization of the historical discipline and even the growth of social history all heightened the stakes. This book brings together Victorian histories and novels to show how these parallel genres responded to the challenges of contemporary history writing in divergent ways. Many historians shrank from engaging with controversial recent events. This study showcases the work of those rare historians who defied convention, including the polymath Harriet Martineau, English nationalist J. R. Green and liberal enthusiast Spencer Walpole. A striking number of popular Victorian novels are retrospective. This book argues that Charlotte Brontë, Elizabeth Gaskell and George Eliot's novels of the recent past are long overdue recognition as genuinely historical novels. By focusing on provincial communities, these novelists reveal undercurrents invisible to national narratives and intervene in debates about women's contribution to history.

The Crossover Novel Rachel Falconer, 2008-10-21 Highly recommended by Choice. While crossover books such as Rowling's Harry Potter series have enjoyed enormous sales and media attention, critical analysis of crossover fiction has not kept pace with the growing popularity of this new category of writing and reading. Falconer remedies this lack with close readings of six major British works of crossover fiction and a wide-ranging analysis of the social and cultural implications of the global crossover phenomenon. A uniquely in-depth study of the crossover novel, Falconer engages with a ground-breaking range of sources from primary texts to child and adult reader responses to cultural and critical theory.

Onomastics between Sacred and Profane Oliviu Felecan, 2019-06-28 Religiously, God is the creator of everything seen and unseen; thus, one can ascribe to Him the names of His creation as well, at least in their primordial form. In the mentality of ancient Semitic peoples, naming a place or a person meant determining the role or fate of the named entity, as names were considered to be mysteriously connected with the reality they designated. Subsequently, God gave people the freedom to name persons, objects and places. However, people carried out this act precisely in relation to the divinity, either by remaining devoted to the sacred or by growing estranged from it, an attitude that generated profane names. The sacred/profane dichotomy occurs in all the branches of onomastics, such as anthroponymy, toponymy and ergonymy. It is circumscribed to complex and interdisciplinary analysis, which does not rely on language sciences exclusively but also on theology, ethnology, sociology, psychology, philosophy, anthropology, geography, history and other connected fields, as well as culture in general. Despite the contributors' cultural diversity, 29 researchers from 16 countries (England, Finland, Germany, Hungary, Italy, Japan, Jordan, Kenya, Nigeria, Poland, Romania, Russia, South Africa, Spain, U.S.A. and Zimbabwe) on four continents and their adherence to different religions and

faiths the studies in Onomastics between Sacred and Profane share a common goal that consist of the analysis of names that reveal a person s identity and behavior or the existence configuration and symbolic nature of a place or an object One can state that names are tightly connected to the surrounding reality be it profane or religious in every geographical area and every historical period and this phenomenon can still be observed today The particularity of this book lies in the multicultural and multidisciplinary approach in theory and praxis

Negotiating Translation and Transcreation of Children's Literature Joanna Dybiec-Gajer,Riitta Oittinen,Małgorzata Kodura,2020-05-04 This book offers fresh critical insights to the field of children s literature translation studies by applying the concept of transcreation established in the creative industries of the globalized world to bring to the fore the transformative transgressional and creative aspects of rewriting for children and young audiences This socially situated and culturally dependent practice involves ongoing complex negotiations between creativity and normativity balancing text related problems and genre conventions with readers expectations constraints imposed by established canonical translations and publishers demands Focussing on the translator s strategies and decision making

process the book investigates phenomena where transcreation is especially at play in children's literature such as dual address ambiguity nonsense humour play on words and other creative language use these also involve genre specific requirements for example rhyme and rhythm in poetry The book draws on a wide range of mostly Anglophone texts for children and their translations into languages of limited diffusion to demonstrate the numerous ways in which information meaning and emotions are transferred to new linguistic and cultural contexts While focussing mostly on interlingual transfer the volume analyses a variety of translation types from established canonical renditions by celebrity translators to non professional translations and intralingual rewritings It also examines iconotextual dynamics of text and image The book employs a number of innovative methodologies from cognitive linguistics and ethnolinguistics to semiotics and autoethnographic approaches going beyond text analysis to include empirical research on children's reactions to translation strategies Highlighting the complex dynamics at work in the process of transcreating for children this volume is essential reading for students and researchers in translation studies children's fiction and adaptation studies

Rethinking Misogyny Anna Arrowsmith, 2016-03-03 In this path breaking book Anna Arrowsmith analyses gendered dating behaviour and shows how men's behaviour is both defined and illustrated by societal norms that require a particular masculine performance including those desired by potential female performers Using the case study of pick up artistry which is compared to interviews with other men who date women this book analyses how the men deal with conflicting ideas borne out of living in an age when both hegemonic harder historic and inclusive softer modern masculinities co exist It asks whether men acknowledge their own insecurities or whether they focus on perceived external triggers such as female culpability as a means of ignoring their own concerns or whether men respond to insecurities by focusing on an active process of overcoming them Through exploring male experiences of female beauty emotions fertility strength female violence and sexual assault Arrowsmith's findings encourage a new path of enquiry in gender studies which explores and includes men's words as central to interpreting their behaviour and how it is understood This book has political worth as it differentiates and delineates between emotive and often misogynistic demands for an entire rethink of the gender order by some men's rights activists and a genuine need to incorporate male insecurities and psychological experiences in how we understand gender to be structured and performed as a means to increase equality

Translation and Interpreting as Social Interaction Claire Y. Shih, Caiwen Wang, 2024-01-11 Adopting the tripartite theory of social psychology as its theoretical framework this book advocates that the three components of social interaction affect behaviour and cognition underpin the daily activities of translators and interpreters In particular it argues that the affect or emotion of translators and interpreters should not be overlooked or treated as a separate entity but as a crucial link between their mental process cognition and physical process behaviour This central theme of the intertwining nature of the affect behaviour and cognition of translators and interpreters is examined theoretically empirically and methodologically with contributions from around the world featuring literary
