C. Gwynne,2004 The 1991 collapse of the Bank of Credit and Commerce International BCCI was one of the biggest financial scandals of all time Based upon an 18 month long series of articles in Time magazine this text describes the international corruption that allowed this criminal enterprise to flourish for two decades with effective immunity from the law The Hidden in Plain Sight Peter J. Wallison,2016-03-29 The 2008 financial crisis like the Great Depression was a world historical event What caused it will be debated for years if not generations The conventional narrative is that the financial crisis was caused by Wall Street greed and insufficient regulation of the financial system That narrative produced the Dodd Frank Act the most comprehensive

financial system regulation since the New Deal There is evidence however that the Dodd Frank Act has slowed the recovery from the recession If insufficient regulation caused the financial crisis then the Dodd Frank Act will never be modified or repealed proponents will argue that doing so will cause another crisis A competing narrative about what caused the financial crisis has received little attention This view which is accepted by almost all Republicans in Congress and most conservatives contends that the crisis was caused by government housing policies This book extensively documents this view For example it shows that in June 2008 before the crisis 58 percent of all US mortgages were subprime or other low quality mortgages Of these 76 percent were on the books of government agencies such as Fannie Mae and Freddie Mac When these mortgages defaulted in 2007 and 2008 they drove down housing prices and weakened banks and other mortgage holders causing the crisis After this book is published no one will be able to claim that the financial crisis was caused by insufficient regulation or defend Dodd Frank without coming to terms with the data this book contains [Great Pretenders](#) Neal Shover,2018-02-20
