what sex means in the modern public sphere she also folds in consideration of the pleasures and dangers of exhibiting marginalized sexual subjects women nonwhite races LGBT individuals and the like last she explores the paradox of asserting as she does that all museums are sex museums bodies move around and toward objects on display they reshape the typical dances of museum goers along with their preconscious motivations in visiting a museum She proposes that explicit display or restagings of sexual artifacts provides new ways for approaching and understanding issues of desire sexual identity and sexual practices as they intersect with the history of the modern museum and with sexual history during the past two centuries Her fieldwork sites are the Leather Archives Museum in Chicago the Museum of Sex in New York the World Erotic Art Museum in Miami Beach and El Museo del Sexo in Mexico City Such institutions allow Tyburczy to show how alternative sexuality inclusive of kink fetish and sadomasochistic cultures and slavery dangerously crisscross on the surface of objects There are plenty of cases here in short to keep the casual reader titillated and the erudite reader surprised

Dialectic of Pop Agnes Gayraud, 2020-01-28 A philosophical exploration of pop music that reveals a rich self reflexive art form with unsuspected depths In the first major philosophical treatise on the subject Agn s Gayraud explores all the paradoxes of pop its inauthentic authenticity its mass production of emotion and personal resonance its repetitive novelty its precision engineering of seduction and calls for pop in its broadest sense encompassing all genres of popular recorded music to be recognized as a modern technologically mediated art form to rank alongside cinema and photography In a thoroughgoing engagement with Adorno s fierce critique of standardized light popular music *Dialectic of Pop* tracks the transformations of the pop form and its audience over the course of the twentieth century from Hillbilly to Beyonc from Lead Belly to Drake Inseparable from the materiality of its technical media indifferent and intractable to the perspectives of high culture pop subverts notions of authenticity and inauthenticity original and copy aura and commodity medium and message

Gayraud demonstrates that far from being the artless and trivial mass produced pabulum denigrated by Adorno pop is a rich self reflexive artform that recognises its own contradictions incorporates its own productive negativity and often flourishes by thinking against itself Dialectic of Pop sings the praises of pop as a constitutively impure form resulting from the encounter between industrial production and the human predilection for song and diagnoses the prospects for twenty first century pop as it continues to adapt to ever changing technological mediations **Cultus Arborum** o.A.,1890 *Lost Animals, Disappearing Worlds* Barbara Allen,2025-06-12 A moving and motivating collection of portraits of extinct species revealing the profound implications of their disappearance This book presents thirty one extinct species through personal portraits The intimate approach not only highlights each particular species but also explores the broader implications of losing a species forever How do we honor such a loss Can we grieve for species we never knew These animals range from the well known passenger pigeon thylacine and great auk to lesser known creatures like the Arabian ostrich Saint Helena earwig and Bramble Cay melomys Through her poignant portraits Barbara Allen not only tugs on the heartstrings but also aims to inspire readers to protect vulnerable and endangered species today motivating us to play a positive role in conserving our planet s biodiversity The Electronic Media and the Transformation of Law M. Ethan Katsh,1989 This is the first book to explore the broad influence of computers and television on the evolution of the US legal process The New Politics of Pornography Donald Alexander Downs,1989 Fresh empirical evidence of pornography s negative effects and the resurgence of feminist and conservative critiques have caused local state and federal officials to reassess the pornography issue In *The New Politics of Pornography* Donald Alexander Downs explores the contemporary antipornography movement and addresses difficult questions about the limits of free speech Drawing on official transcripts and extensive interviews Downs recreates and analyzes landmark cases in Minneapolis and Indianapolis He argues persuasively that both conservative and liberal camps are often characterized by extreme intolerance which hampers open policy debate and may ultimately threaten our modern doctrine of free speech Downs concludes with a balanced and nuanced discussion of what First Amendment protections pornography should be afforded This provocative and interdisciplinary work will interest students of political science women s studies civil liberties and constitutional law *New York Supreme Court Appellate Division-First Department* , Diversity, Intercultural Encounters, and Education Susana Gonçalves,Markus A. Carpenter,2013-01-04 This book concerns the challenges and tensions rising from mass migration flows unbalanced north south and east west relations and the increasing multicultural nature of society The scope of the book s theme is global addressing diversity and identity intercultural encounters and conflict and the interrogations of a new socio political order or paradigm Thus it highlights some of the most poignant and challenging outcomes of cultural diversity faced more or less palpably by everyone everywhere in today s societies The book s theme of multi and pluriculturality is of particular current interest in the academic socio political economic and entrepreneurial spheres It covers Western and non Western perspectives representing

a valuable resource in terms of international dialogue and experimentation The chapters are complimentary completing a rigorous theoretical framework offering detailed presentation and analysis of the phenomenon of diversity as encountered in society and the educational setting and at large viewed in a multidisciplinary multiperspective fashion Among the theories and concepts represented are those intrinsic to sociology psychology political science economics history literature pedagogy communication and linguistics

The senses in interior design John Potvin,Marie-Ève Marchand,Benoit Beaulieu,2023-09-05 The senses in interior design examines how sight touch smell hearing and taste have been mobilised within various forms of interiors The chapters explore how the body navigates and negotiates the realities of designed interiors and challenge the traditional focus on star designers or ideal interiors that have left sensorial agency at the margins of design history From the sensually gendered role of the fireplace in late sixteenth century Italy to the synaesthetic d cors of Comte Robert de Montesquiou and the sensorial stimuli of Aesop stores each chapter brings a new perspective on the central role that the senses have played in the conception experiences and uses of interiors
