Losing The Plot:

Losing the Plot Annaleise Byrd, 2025-05-06 A tremendous whooshing noise started up It sounded like a million pages being riffled at once I caught a strong whiff of gingerbread Then The Complete Fairytales of the Brothers Grimm flew open and a human shaped blur came shooting out Basil Beedon and Terry Clegg are neighbors and that s all they have in common Terry loves sport and Basil loves books but to Basil s absolute dismay he s been roped into helping Terry with his reading Every Single Saturday However that s the least of his worries when Gretel comes shooting out of The Complete Fairytales of the Brothers Grimm The boys are plunged into a dangerous world run by the Fairytale Alliance Network of Character Y unions FANCY where not everyone is what they seem Hansel has been kidnapped and a plot hole threatens to destroy everything Witty clever with adventure at every turn this is a fractured fairytale in a very surprising Grimm world

Finding the Plot Loïc Artiago, Diana Holmes, David Platten, 2014-08-11 Plot writes Peter Brooks is so basic to our very experience of reading and indeed to our articulation of experience in general that criticism has often passed it over in silence Reading for the Plot xi Finding the Plot both explores and helps to redress this critical neglect The book brings together an international group of scholars to address the nature effects and specific pleasures of consuming stories If the central focus is on France and popular literary fiction the book s scope like contemporary fiction itself observes no national frontiers and extends across a variety of media The book addresses both the empirical question of which genres and types of text have been and are most popular and the theoretical questions of how plots work what pleasures they offer to readers and why it matters that the plot should not be lost , **Losing the Golden Hour** James Stephenson, 2007-10-31 In emergency

medicine the golden hour is the first hour after injury during which treatment greatly increases survivability In post conflict transition terminology it is the first year after hostilities end Without steadily improving conditions then popular support declines and chances for economic political and social transformation begin to evaporate James Stephenson believes we have lost Iraq s golden hour A veteran of postconflict reconstruction on three continents he ran the Iraq mission of the Agency for International Development in 2004 05 with more than a thousand employees and expatriate contractors The Coalition Provisional Authority which oversaw the largest reconstruction and nation building exercise ever was a dysfunctional organization the Department of Defense cobbled together with temporary employees and a few experienced professionals from the State Department and other agencies Iraqis soon became disillusioned and the insurgency grew Losing the Golden Hour tells of hubris incompetence courage fear and duty It is about foreign assistance professionals trying to overcome the mistakes of an ill conceived occupation and help Iraqis create a nation after decades of despair Neither criticizing nor defending U S foreign policy Stephenson offers an informed assessment of Iraq s future Selected for the Diplomats and Diplomacy Book Series of the Association for Diplomatic Studies and Training and Diplomatic and Consular Officers Retired

Handbook of Constructionist Research James A. Holstein, Jaber F. Gubrium, 2008-01-01 Constructionism has become one

of the most popular research approaches in the social sciences But until now little attention has been given to the conceptual and methodological underpinnings of the constructionist stance and the remarkable diversity within the field This cutting edge handbook brings together a dazzling array of scholars to review the foundations of constructionist research how it is put into practice in multiple disciplines and where it may be headed in the future The volume critically examines the analytic frameworks strategies of inquiry and methodological choices that together form the mosaic of contemporary constructionism making it an authoritative reference for anyone interested in conducting research in a constructionist vein *The Circuit* Rowan Ricardo Phillips, 2025-06-25 Winner of the 2019 PEN ESPN Award for Literary Sports Writing The Circuit is the best sports book I've read in years maybe ever Rich Cohen author of *The Chicago Cubs and Monsters* As sports writing goes The Circuit is unusual in the very best way Rowan Ricardo Phillips writes with such fluidity and packs the book with bursts of brilliance This is a compulsively readable guide to one truly Homeric year of professional tennis John Green author of *The Fault in Our Stars* An energetic lyrical genre defying account of the 2017 tennis season In *The Circuit A Tennis Odyssey* the award winning poet and Paris Review sports columnist Rowan Ricardo Phillips chronicles 2017 as seen through the unique prism of its pivotal revelatory and historic tennis season The annual tennis schedule is a rarity in professional sports in that it encapsulates the calendar year And like the year it's divided into four seasons each marked by a final tournament the Grand Slams Phillips charts the year from winter's Australian Open where Roger Federer and Rafael Nadal renewed their rivalry in a match for the ages to fall's U.S. Open Along the way Phillips paints a new vibrant portrait of tennis one that captures not only the emotions nerves and ruthless tactics of the point by point game but also the quicksilver movement of victory and defeat on the tour placing that sense of upheaval within a broader cultural and social context Tennis has long been thought of as an escapist spectacle a bucolic separate bauble of life The Circuit will convince you that you don't leave the world behind as you watch tennis you bring it with you **Acting with Power** Deborah H. Gruenfeld, 2020 There is so much we get wrong about power This eye opening look at the true nature of power explores who has it what it looks like and the role it plays in our lives Grounded in over two decades worth of scientific research and inspired by the popular class of the same name at Stanford's Graduate School of Business *Acting with Power* offers a new and eye opening paradigm that overturns everything we thought we knew about the nature of power Although we all feel powerless sometimes we have more power than we tend to believe That's because power exists in every relationship by virtue of the roles we play in others' lives But it isn't a function of status or hierarchy Rather it's about how much we are needed and the degree to which we fulfill our responsibilities Power isn't a tool for self enhancement or a resource for personal consumption It's a part you play in someone else's story We often assume that power flows to those with the loudest voice or the most commanding presence in the room But in fact true power is often much quieter and more deferential than we realize Moreover it's not just how much power we have but how we use it that determines how powerful we actually are Actors aren't the only ones who play roles for a living We all make

choices about how to use the power that comes with our given circumstances We aren't always cast in the roles we desire or the ones we feel prepared to play Some of us struggle to step up and be taken more seriously while others have trouble standing back and ceding the spotlight Some of us are used to hearing we are too aggressive while others are constantly being told we are too nice Gruenfeld shows how we can all get more comfortable with power by adopting an actor's mindset We all know what it looks like to use power badly This book is about how to use power well *Losing the Way* Richie Savage, 2010 Richie a forty year old languages teacher is lying on a beach in Lanzarote recovering from a traumatic accident He recalls the events which have brought him here as he reconstructs the latter part of his home and working life from marriage to the neurotic Matty and job success in a secondary school to a painful divorce and professional burn out He takes us on a rollercoaster ride as we travel with him from the Canaries to Japan meeting along the way the new woman new women new toys and new places he travels to We watch him slowly piece himself back together as he begins to accept his mid life transition This is not a mid life crisis It is a story which reveals the darker side of our fallen hero whose story is told with humour and understanding as he pokes fun at himself those around him and life in general For anyone entering the teaching profession or for any teacher currently serving or contemplating escape this is a book which will make you laugh out loud and nod in agreement And for anyone stuck in a rut either professionally or on a personal level Richie might well be the one to help you find your way out Diplomatic Para-citations Sam Okoth Opondo, 2022-02-09 Taking seriously the critical conception of diplomacy as the mediation of estrangement Diplomatic Para citations turns to the politics and laws that tie modern diplomacy to colonial cultures and the genres of Man that they privilege In an attempt to read the diplomatic from the African postcolony the book probes the injunction at the center of the law of genre that states that genres are not to be mixed This enables it to investigate the citational recitational forms of knowledge and practices of recognition that reproduce the diplomatic and colonial order of things in the African context Through a reading of literature philosophy and a multiplicity of everyday practices in Africa and its diasporas Sam Okoth Opondo explores amateur diplomatic practices that provide a counterforce to laws that prescribe faithfulness to a norm form while proscribing the mixing of genres
