**Understanding Loss** Judith Murray, 2015-09-16 Loss and consequent grief permeates nearly every life changing event from death to health concerns to dislocation to relationship breakdown to betrayal to natural disaster to faith issues Yet while we know about particular events of loss independently we know very little about a psychology of loss that draws many adversities together This universal experience of loss as a concept in its own right sheds light on so much of the work we do in the care of others This book develops a new overarching framework to understand loss and grief taking into account both pathological and wellbeing approaches to the subject Drawing on international and cross disciplinary research Judith Murray highlights nine common themes of loss helping us to understand how it is experienced These themes are then used to develop a practice framework for structuring assessment and intervention systematically Throughout the book this generic approach is highlighted through discussing its use in different loss events such as bereavement trauma chronic illness and with children or older people Having been used in areas as diverse as child protection palliative care and refugee care the framework can be tailored to a range of needs and levels of care Caring for people experiencing loss is an integral part of the work of helping professions whether it is explicitly part of their work such as in counselling or implicit as in social work nursing teaching medicine and community work This text is an important guide for anyone working in these areas

of the 1 515 million due compared with its target of 96 per cent This caused significant hardship to farmers and taxpayers will have to pay extra implementation costs Defra has had to secure an extra 300 million to meet the potential cost of disallowance of expenditure by the European Commission arising on the problems in administering the scheme Following on from a NAO report on this topic HCP 1631 session 2005 06 ISBN 9780102943399 published in October 2006 as well as a report from the Environment Food and Rural Affairs Select Committee HCP 107 I session 2006 07 ISBN 9780215033383 published in March 2007 this report by the Public Accounts Committee examines the impact of the payment delays on the farming sector why implementation failed the role of Defra and the changes being put in place to rectify the mistakes made Lessons highlighted include the Department made the scheme unnecessarily complex by choosing to adopt the most demanding implementation option the Rural Payments Agency shed too many experienced staff at a key time implementation of the project started before the scheme specification was finalised and the IT system was introduced without adequate testing a failure often seen with government IT projects
