**Come After** Stephen Frosh, 2019-04-10 This book explores the legacies of suffering in relation to those who come after the descendants of victims survivors and perpetrators of traumatic events It draws on recent discussions of postmemory and haunting that are concerned mainly with the transgenerational impact of personal and social trauma It examines how we are connected to past events for which we have no direct responsibility yet in which we might in some way be implicated and it asks how we might attain a position of active witnessing that helps resolve the suffering of others Those Who Come After includes vivid accounts of witnessing from a variety of perspectives ranging from Biblical and Jewish stories to contemporary art and music The book draws on psychosocial studies and psychoanalysis to help make sense of this material and to develop an understanding of acknowledgment and responsibility that is both ethical and emancipatory Those Who Come After will be of great interest to readers in psychosocial studies and psychoanalysis and to all who are concerned with the question of how to put past suffering to rest

Beyond Sex and Gender Wendy Cealey Harrison, John Hood-Williams, 2002-07-24 The central argument of this book is that the sex gender distinction is invalid and must be transcended To this end the work of Foucault Connell Goffman Garfinkel Butler Freud Derrida Saussure Lacquer and Kessler and McKenna is woven into a rich and compelling set of arguments The sex gender distinction is attacked for producing a series of irresolvable traps However much one tries to think one's way out of the dichotomy one ends up being suckered back into its imponderables and blind alleys The book attempts to comprehensively reorientate the field and redefine the terrain

*Psychoanalysis in Social Research* Claudia Lapping,2011-03-24 The use of psychoanalytic ideas to explore social and political questions is not new Freud began this work himself and social research has consistently drawn on his ideas This makes perfect sense Social and political theory must find ways to conceptualise the relation between human subjects and our social environment and the distinctive and intense observation of individual psychical structuring afforded within clinical psychoanalysis has given rise to rich theoretical and methodological resources for doing just this However psychoanalytic concepts do not remain the same when they are rearticulated in the context of research This book traces the reiteration and transformation of concepts in the psychoanalytic theory of Freud Klein and Lacan the social theory of Butler Derrida Foucault Laclau and Žižek and case studies of empirical research ranging from the classic Tavistock Institute studies to contemporary work in politics gender studies cultural studies and education Each chapter explores one cluster of concepts Melancholia loss and subjectivity Overdetermination and free association Resistance reflexivity and the compulsion to repeat Repression disavowal and foreclosure Psychic defenses and social defenses Arguing against the reification of psychoanalytic concepts Claudia Lapping suggests the need for a reflexive understanding of the play of attachments and substitutions as concepts are reframed in the contrasting activities of psychoanalysis and research      *The Conquest of Istanbul and the Manipulation of Architecture* Berin F.
