Cherlin, 2007-06-07 No composer was more responsible for changes in the landscape of twentieth century music than Arnold Schoenberg 1874 1951 and no other composer's music inspired a commensurate quantity and quality of technical description in the second half of the twentieth century Yet there is still little understanding of the correlations between Schoenberg's musical thought and larger questions of cultural significance in and since his time the formalistic descriptions of music theory do not generally engage larger questions in the history of ideas and scholars without understanding of the formidable musical technique are ill equipped to understand the music with any profundity of thought Schoenberg's Musical Imagination

is intended to connect Schoenberg's music and critical writings to a larger world of ideas. While most technical studies of Schoenberg's music are limited to a single compositional period, this book traces changes in his attitudes as a composer and their impact on his ever-changing compositional style over the course of his remarkable career. **Lost Innocence** Roxanne Marie Brodeur, 2009

Kierkegaard Sylvia Walsh, 2009 Kierkegaard was a Christian thinker perhaps best known for his devastating attack upon Christendom or the established order of his time. Sylvia Walsh explores his understanding of Christianity and the existential mode of thinking theologically appropriate to it in the context of the intellectual, cultural, and socio-political milieu of his time. **Lost Innocence** Jose Gomez, 2011

Scented Visions Christina Bradstreet, 2022-06-29 Smell loomed large in cultural discourse in the late nineteenth century thanks to the midcentury fear of miasma, the drive for sanitation reform, and the rise in artificial perfumery. Meanwhile, the science of olfaction remained largely mysterious, prompting an impulse to see smell and inspiring some artists to picture scent in order to better know and control it. This book recovers the substantive role of the olfactory in Pre-Raphaelite art and Aestheticism. Christina Bradstreet examines the iconography and

symbolism of scent in nineteenth century art and visual culture Fragrant imagery in the work of John Everett Millais Dante Gabriel Rossetti Simeon Solomon George Frederic Watts Edward Burne Jones and others set the trend for the preoccupation with scent that informed swaths of British European and American art and design Bradstreet's rich analyses of paintings perfume posters and other works of visual culture demonstrate how artworks mirrored the period nose and intersected with the most clamorous debates of the day including evolution civilization race urban morality mental health faith and the woman question Beautifully illustrated and grounded in current practices in sensory history Scented Visions presents both fresh readings of major works of art and a deeper understanding of the cultural history of nineteenth century scent **Holding**

Britten Paul Kildea, 2013-01-28 Published to mark the beginning of the Britten centenary year in 2013 Paul Kildea's Benjamin Britten A Life in the Twentieth Century is the definitive biography of Britain's greatest modern composer In the eyes of many Benjamin Britten was our finest composer since Purcell a figure who often inspired him three hundred years earlier He broke decisively with the romantic nationalist school of figures such as Parry Elgar and Vaughan Williams and recreated English music in a fresh modern European form With Peter Grimes 1945 Billy Budd 1951 and The Turn of the Screw 1954 he arguably composed the last operas from any composer in any country which have entered both the popular consciousness and the musical canon He did all this while carrying two disadvantages to worldly success his passionately held pacifism which made him suspect to the authorities during and immediately after the Second World War and his homosexuality specifically his forty year relationship with Peter Pears for whom many of his greatest operatic roles and vocal works were

created The atmosphere and personalities of Aldeburgh in his native Suffolk also form another wonderful dimension to the book Kildea shows clearly how Britten made this creative community notably with the foundation of the Aldeburgh Festival and the building of Snape Maltings but also how costly the determination that this required was Above all this book helps us understand the relationship of Britten's music to his life and takes us as far into his creative process as we are ever likely to go Kildea reads dozens of Britten's works with enormous intelligence and sensitivity in a way which those without formal musical training can understand It is one of the most moving and enjoyable biographies of a creative artist of any kind to have appeared for years Paul Kildea is a writer and conductor who has performed many of the Britten works he writes about in opera houses and concert halls from Sydney to Hamburg His previous books include *Selling Britten* 2002 and as editor *Britten on Music* 2003 He was Head of Music at the Aldeburgh Festival between 1999 and 2002 and subsequently Artistic Director of the Wigmore Hall in London

Nostalgia Anthony Esolen,2018-10-30 Alone among the creatures of the world man suffers a pang both bitter and sweet It is an ache for the homecoming The Greeks called it nostalgia Post modern man homeless almost by definition cannot understand nostalgia If he is a progressive dreaming of a utopia to come he dismisses it contemptuously eager to bury a past he despises If he is a reactionary he sentimentalizes it dreaming of a lost golden age In this profound reflection Anthony Esolen explores the true meaning of nostalgia and its place in the human heart Drawing on the great works of Western literature from the Odyssey to Flannery O Connor he traces the development of this fundamental longing from the pagan s desire for his earthly home which most famously inspired Odysseys heroic return to Ithaca to its transformation under Christianity The doctrine of the fall of man forestalls sentimental traditionalism by insisting that there has been no Eden since Eden And the revelation of heaven as our true and final home directing man s longing to the next world paradoxically strengthens and ennobles the pilgrim s devotion to his home in this world In our own day Christian nostalgia stands in frank opposition to the secular usurpation of this longing Looking for a city that does not exist the progressive treats original sin which afflicts everyone as mere political error which afflicts only his opponents To him history is a long tale of misery with nothing to teach us Despising his fathers he lives in a world without piety Only the future which no one can know is real to him It is an idol that justifies all manner of evil and folly Nostalgia rightly understood is not an invitation to repeat the sins of the past or to repudiate what experience and reflection have taught us but to hear the call of sanity and sweetness again Perhaps we will shake our heads as if awaking from a bad and feverish dream and coming to ourselves resolve like the Prodigal to arise and go to my father s house

Volume 6, Tome I: Kierkegaard and His German Contemporaries - Philosophy Jon Stewart,2017-05-15 This volume explores in detail Kierkegaard s various relations to his German contemporaries Kierkegaard read German fluently and made extensive use of the writings of German speaking authors Apart from his contemporary Danish sources the German sources were probably the

most important in the development of his thought generally This volume represents source work research dedicated to tracing Kierkegaard's readings and use of the various German speaking authors in the different fields in a way that is as clearly documented as possible The volume has been divided into three tomes reflecting Kierkegaard's main areas of interest with regard to the German speaking sources namely philosophy theology and a more loosely conceived category which has here been designated literature and aesthetics This first tome treats the German philosophical influences on Kierkegaard The dependence of Danish philosophy on German philosophy is beyond question In a book review in his Hegelian journal *Perseus* the poet playwright and critic Johan Ludvig Heiberg laments the sad state of philosophy in Denmark while lauding German speculative philosophy Moreover Kierkegaard's lifelong enemy the theologian Hans Lassen Martensen claims without exaggeration that the Danish systems of philosophy can be regarded as the disjecta membra of earlier German systems All of the major German idealist philosophers made an impact in Denmark Kant Fichte Schelling and most significantly Hegel Kierkegaard was widely read in the German philosophical literature which he made use of in countless ways throughout his authorship
