Corneau, 2018-03-27 A Jungian analyst examines masculine identity and the psychological repercussions of fatherlessness whether literal spiritual or emotional in the baby boom generation An experience of the fragility of conventional images of masculinity is something many modern men share Psychoanalyst Guy Corneau traces this experience to an even deeper feeling men have of their fathers silence or absence sometimes literal but especially emotional and spiritual Why is this feeling so profound in the lives of the postwar baby boom generation men who are now approaching middle age Because he says this generation marks a critical phase in the loss of the masculine initiation rituals that in the past ensured a boy s passage into manhood In his engaging examination of the many different ways this missing link manifests in men s lives Corneau shows that for men today regaining the essential second birth into manhood lies in gaining the ability to be a father to themselves not only as a means of healing psychological pain but as a necessary step in the process of becoming whole

Small Screen, Big Feels Melissa Ames, 2020-12-02 While television has always played a role in recording and curating history shaping cultural memory and influencing public sentiment the changing nature of the medium in the post network era finds viewers experiencing and participating in this process in new ways They skim through commercials live tweet press conferences and award shows and tune into reality shows to escape reality This new era defined by the heightened anxiety and fear ushered in by 9 11 has been documented by our media consumption production and reaction In *Small Screen Big Feels* Melissa Ames asserts that TV has been instrumental in cultivating a shared memory of emotionally charged events unfolding in the United States since September 11 2001 She analyzes specific shows and genres to illustrate the ways in

which cultural fears are embedded into our entertainment in series such as *The Walking Dead* and *Lost* or critiqued through programs like *The Daily Show* In the final section of the book Ames provides three audience studies that showcase how viewers consume and circulate emotions in the post network era analyses of live tweets from Shonda Rhimes's drama *How to Get Away with Murder* 2010 2020 ABC's reality franchises *The Bachelor* 2002 present and *The Bachelorette* 2003 present and political coverage of the 2016 Presidential Debates Though film has been closely studied through the lens of affect theory little research has been done to apply the same methods to television Engaging an impressively wide range of texts genres media and formats Ames offers a trenchant analysis of how televisual programming in the United States responded to and reinforced a cultural climate grounded in fear and anxiety

Fathers, Families, and the State in France, 1914-1945 Kristen Stromberg Childers, 2018-07-05 The state's policy with regard to fathers and fatherhood had a great impact on concepts of citizenship and gender in France in the era of the two World Wars Drawing on new material that has only recently become available from the archives of the Vichy regime Kristen Stromberg Childers analyzes the ways fathers were promoted as saviors of the nation after France's humiliating defeat by the Germans in June 1940 Childers argues that concern for the family and for the status of fathers in modern France was not merely a response to falling birthrates and German aggression but was fundamental to the very notion of citizenship and political participation The debate on men as gendered beings Childers demonstrates is central to the political social and cultural history of France in the modern age The father figure became a focus as participants from all classes and across the political spectrum debated what was wrong with the French family and what policies were needed to remedy the problem Childers examines how these policies were implemented what they reveal about the development of the welfare state in France and how they help explain the importance of Vichy in twentieth century French history Twenty eight illustrations including fifteen photographs many never previously published complement her argument
