Field Man Julian D. Hayden, 2016-10-01 Field Man is the captivating memoir of renowned southwestern archaeologist Julian Dodge Hayden a man who held no professional degree or faculty position but who camped and argued with a who s who of the discipline including Emil Haury Malcolm Rogers Paul Ezell and Norman Tindale This is the personal story of a blue collar scholar who bucked the conventional thinking on the antiquity of man in the New World who brought a formidable pragmatism and hand sense to the identification of stone tools and who is remembered as the leading authority on the prehistory of the Sierra Pinacate in northwestern Mexico But Field Man is also an evocative recollection of a bygone time and place a time when archaeological trips to the Southwest were expeditions when a man might run a Civilian Conservation Corps crew by day and study the artifacts of ancient peoples by night when one could honeymoon by a still full Gila River and when a Model T pickup needed extra transmissions to tackle the back roads of Arizona To say that Julian Hayden led an eventful life would be an understatement He accompanied his father a Harvard trained archaeologist on influential excavations became a crew chief in his own right taught himself silversmithing married a city girl helped build the Yuma Air

Field worked as a civilian safety officer and was a friend and mentor to countless students. He also crossed paths with leading figures in other fields: Barry Goldwater and even Frank Lloyd Wright turn up in this wide-ranging narrative of a desert rat who was at once a throwback and as he only half-jokingly suggests ahead of his time. Field Man is the product of years of interviews with Hayden conducted by his colleagues and friends: Bill Broyles and Diane Boyer. It is introduced by noted southwestern anthropologist J. Jefferson Reid and contains an epilogue by Steve Hayden, one of Julian's sons.

Last Water on the Devil's Highway Bill Broyles, Gayle Harrison Hartmann, Thomas E. Sheridan, Gary Paul Nabhan, Mary Charlotte Thurtle, 2014-02-06. The Devil's Highway, El Camino del Diablo, crosses hundreds of miles and thousands of years of Arizona and Southwest history. This heritage trail follows a torturous route along the U.S.-Mexico border through a lonely landscape of cactus, desert flats, drifting sand dunes, ancient lava flows, and searing summer heat. The most famous waterhole along the way is Tinajas Altas, or High Tanks, a series of natural rock basins that are among the few reliable sources of water in this notoriously parched region. Now an expert cast of authors describes, narrates, and explains the human and natural history of this special place in a thorough and readable account. Addressing the latest archaeological and historical findings, they reveal why Tinajas Altas was so important and how it related to other waterholes in the arid borderlands. Readers can feel like pioneers following in the footsteps of early Native Americans, Spanish priests and soldiers, gold seekers, and borderland explorers, tourists, and scholars. Combining authoritative writing with a rich array of more than 180 illustrations and maps, as well as detailed appendixes providing up-to-date information on the wildlife and plants that live in the area, Last Water on the Devil's Highway allows readers to uncover the secrets of this fascinating place, revealing why it still attracts intrepid tourists and campers today.

The Nature of Desert Nature Gary Paul Nabhan, 2020-11-10. In this refreshing collection, one of our best writers on desert places, Gary Paul Nabhan, challenges traditional notions of the desert. Beautiful, reflective, and at times humorous, Nabhan's extended essay, also called The Nature of Desert Nature, reveals the complexity of what a desert is and can be. He passionately writes about what it is like to visit a desert and what living in a desert looks like when viewed through a new frame, turning age-old notions of the desert on their heads. Nabhan invites a prism of voices: friends, colleagues, and advisors from his more than four decades of study of deserts, to bring their own perspectives. Scientists, artists, desert contemplatives, poets, and writers bring the desert into view and investigate why these places compel us to walk through their sands and beneath their cacti and acacia. We observe the spines and spears, stings and songs of the desert anew. Unexpected. Surprising. Enchanting. Like the desert itself, each essay offers renewed vocabulary and thoughtful perceptions. The desert inspires wonder. Attending to history, culture, science, and spirit, The Nature of Desert Nature celebrates the bounty and the significance of desert places.
