The Flexible Lyric Ellen Bryant Voigt, 1999 The author contends that the traditional form of writing lyric has been deprecated as a genre in favor of modern narrative and drama She presents her views that lyrics are as powerful and poignant an artform as they have ever been by examining structure and meaning in the verse form

Lyric Poetry Mutlu Konuk Blasing, 2006-12-24 Lyric poetry has long been regarded as the intensely private emotional expression of individuals powerful precisely because it draws readers into personal worlds But who exactly is the I in a lyric poem and how is it created In *Lyric Poetry* Mutlu Blasing argues that the individual in a lyric is only a virtual entity and that lyric poetry takes its power from the public emotional power of language itself In the first major new theory of the lyric to be put forward in decades Blasing proposes that lyric poetry is a public discourse deeply rooted in the mother tongue She looks to poetic

linguistic and psychoanalytic theory to help unravel the intricate historical processes that generate speaking subjects and concludes that lyric forms convey both personal and communal emotional histories in language Focusing on the work of such diverse twentieth century American poets as T S Eliot Ezra Pound Wallace Stevens and Anne Sexton Blasing demonstrates the ways that the lyric I speaks from first to last as a creation of poetic language *The Collected Lyric Poems of Luís de Camões* Luís de Camões, 2016-07-08 Lu s de Cam es is world famous as the author of the great Renaissance epic The Lus ads but his large and equally great body of lyric poetry is still almost completely unknown outside his native Portugal In The Collected Lyric Poems of Lu s de Cam es the award winning translator of The Lus ads gives English readers the first comprehensive collection of Cam es s sonnets songs elegies hymns odes eclogues and other poems more than 280 lyrics altogether all rendered in engaging verse Cam es 1524 1580 was the first great European artist to cross into the Southern Hemisphere and his poetry bears the marks of nearly two decades spent in north and east Africa the Persian Gulf India and Macau From an elegy set in Morocco to a hymn written at Cape Guardafui on the northern tip of Somalia to the first modern European love poems for a non European woman these lyrics reflect Cam es s encounters with radically unfamiliar peoples and places Translator Landeg White has arranged the poems to follow the order of Cam es s travels making the book read like a journey The work of one of the first European cosmopolitans these poems demonstrate that Cam es would deserve his place among the great poets even if he had never written his epic **Dante's Lyric Poetry** Teodolinda Barolini, 2014-01-01 The first comprehensive English translation and commentary on Dante s early verse to be published in almost fifty years Dante s Lyric Poetry includes all the poems written by the young Dante Aligheri between c 1283 and c 1292 Essays by Teodolinda Barolini guide the reader through the new verse translations by Richard Lansing illuminating Dante s transformation from a young courtly poet into the writer of the vast and visionary Commedia Barolini s commentary exposes Dante s lyric poems as early articulations of many of the ideas in the Commedia including the philosophy and psychology of desire and its role as motor of all human activity the quest for vision and transcendence the frustrating search for justice on earth and the transgression of boundaries in society and poetry A wide ranging and intelligent examination of one of the most important poets in the Western tradition this book will be of interest to scholars and poetry lovers alike *Lyric Powers (16pt Large Print Edition)* Robert Von Hallberg, 2011-08-22 The authority of poetry varies from one period to another from one culture to another For Robert von Hallberg the authority of lyric poetry has three sources religious affirmation the social institutions of those who speak the idioms from which particular poems are made and the extraordinary cognition generated by the formal and musical resources of poems Lyric Powers helps students poets and general readers to recognize the pleasures and understand the ambitions of lyric poetry To explain why a reader might prefer one kind of poem to another von Hallberg analyzes beyond the political and intellectual significance of poems the musicality of both lyric poetry and popular song including that of Tin Pan Alley and doo wop He shows that poets have distinctive intellectual resources not just

rhetorical resources for examining their subjects and that the power of poetic language to generalize not particularize is what justly deserves a critic's attention. The first book in more than a decade from this respected critic, *Lyric Powers*, will be celebrated as a genuine event by readers of poetry and literary criticism. [Lyric](#) Scott Brewster, 2009-06-02. The term lyric has evolved, been revised, redefined, and contested over the centuries. In this fascinating introduction, Scott Brewster traces the history of the term from its classical origins through the early modern, Romantic, and Victorian periods and up to the twenty-first century, demonstrating the influence of lyric on poetic practice, literature, music, and other popular cultural forms. It uses three aspects: the lyric self, love and desire, and the relationship between lyric poetry and performance as focal points for further discussion. Not only does it chart the history of lyric theory and practice but it re-examines assumptions about the lyric form in the context of recent theoretical accounts of poetic discourse. Offering clarity and structure to this often intense and emotive field, *Lyric* offers essential insights for students of literature, performance, music, and cultural studies. Songbook Marisa Galvez, 2020-03-04. How medieval songbooks were composed in collaboration with the community and across languages and societies. Eloquent, clearly argued. *Times Literary Supplement*. Today we usually think of a book of poems as composed by a poet rather than assembled or adapted by a network of poets and readers. But the earliest European vernacular poetries challenge these assumptions. Medieval songbooks remind us how lyric poetry was once communally produced and received, a collaboration of artists, performers, live audiences, and readers stretching across languages and societies. The only comparative study of its kind, *Songbook* treats what poetry was before the emergence of the modern category of poetry: that is, how vernacular songbooks of the thirteenth to fifteenth centuries shaped our modern understanding of poetry by establishing expectations of what is a poem, what is a poet, and what is lyric poetry itself. Marisa Galvez analyzes the seminal songbooks representing the vernacular traditions of Occitan, Middle High German, and Castilian and tracks the process by which the songbook emerged from the original performance contexts of oral publication into a medium for preservation and finally into an established literary object. Galvez reveals that songbooks in ways that resonate with our modern practice of curated archives and playlists: they contain lyric music, images, and other nonlyric texts selected and ordered to reflect the local values and preferences of their readers. At a time when medievalists are reassessing the historical foundations of their field and especially the national literary canons established in the nineteenth century, a new examination of the songbook's role in several vernacular traditions is more relevant than ever.

The Advantage of Lyric Barbara Hardy, 2014-01-13. In the title essay, Professor Hardy argues for the special advantage of lyric over other literary genres in conveying intense private feelings publicly. She then gives detailed consideration to the lyric poetry of John Donne, Arthur Hugh Clough, and a group of poets central to the modernist canon: Hopkins, Yeats, Aden, Dylan, Thomas, and Sylvia Plath. Those interested in W. H. Auden will find the book of particular value since Auden occupies a central place in it. W. H. Auden has frequently been held up as the modern example par excellence of a public poet whose works betray relatively little in the way

of personal emotion In the chapters entitled The Reticence of W H Auden Thirties to Sixties A Face and a Map Barbara Hardy shows the inadequacy of that characterization and opens the way for a fresh appreciation of Auden's achievement as a poet Readers interested in modern poetry generally and all readers acquainted with Barbara Hardy's previous books will find the book of importance

The Lyric Now James Longenbach, 2020-12-07 For more than a century American poets have heeded the siren song of Ezra Pound's make it new staking a claim for the next poem on the supposed obsolescence of the last But great poems are forever rehearsing their own present inviting readers into a newness that makes itself new each time we read or reread them They create the present moment as we enter it their language relying on the long history of lyric poetry while at the same time creating a feeling of unprecedented experience In poet and critic James Longenbach's title the word now does double duty evoking both a lyric sense of the present and twentieth century writers' assertion of newness as they crafted their poetry in the wake of Modernism Longenbach examines the fruitfulness of poetic repetition and indecision of naming and renaming and of the evolving search for newness in the construction history and life of lyrics Looking to the work of thirteen poets from Marianne Moore and T S Eliot through George Oppen and Jorie Graham to Carl Phillips and Sally Keith and several musicians including Virgil Thomson and Patti Smith he shows how immediacy is constructed through language Longenbach also considers the life and times of these poets taking a close look at the syntax and diction of poetry and offers an original look at the newness of lyrics
