Mechanical Properties Performance And Failure Modes Of Coatings:

Mechanical Properties, Performance, and Failure Modes of Coatings Mechanical Failures Prevention Group. Meeting, 1984-08-31 The use of coatings in industry is growing and will continue to grow because of the economic and technical advantages they offer over uncoated materials Although a wide variety of materials and application of techniques are available much less is known about the properties of specific coatings and their measurement This 1984 volume contains some 26 papers that were presented at a 1983 symposium organized to explore these questions The symposium was divided into five sessions dealing with coating technologies measurement of coating properties marine coatings field applied coatings for corrosion control and tribological coatings

Encyclopedia of Tribology C. Kaidas, E. Wilusz, S. Harvey, 1990-10-09 The multidisciplinary nature of tribology the conflicting theories and approaches to it found in the literature plus the fact that definitions of the same phenomenon often differ widely prompted the authors to compile this work The aim of this encyclopedia is to provide information on specific tribological terms The entire field of tribology encompassing lubrication friction and wear i e the science and technology of interacting surfaces in relative motion is covered An extensive description of the chemical and biological aspects of tribology is given including a wide range of

current references and authors The reader is also referred to relevant literature for most of the terms listed The information presented has been made as up to date as possible taking into account both the theoretical and practical nature of the subject The encyclopedia will be an indispensable reference source in the work of engineers chemists physicists metallurgists materials and surface scientists biotechnologists as well as research workers in these fields **Scientific and Technical Aerospace Reports** ,1995 Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database
