Orthodox Churches And The Secular State:

The Orthodox Churches and the Secular State Steven Runciman, 1971 Russian Orthodoxy and Secularism Kristina Stoeckl, 2020-07-20 Russian Orthodoxy and Secularism surveys the ways in which the Russian Orthodox Church has negotiated its relationship with the secular state with other religions and with Western modernity from its beginnings until the present. It applies multiple theoretical perspectives and draws on different disciplinary approaches to explain the varied and at times contradictory facets of Russian Orthodoxy as a state church or as a critic of the state as a lived religion or as a civil religion controlled by the state as a source of dissidence during Communism or as a reservoir of anti-Western anti-modernist ideas that celebrate the uniqueness and superiority of the Russian nation. Kristina Stoeckl argues that three decades after the fall of Communism the period of post-Soviet transition is over for Russian Orthodoxy and that the Moscow Patriarchate has settled on its role as national church and provider of a new civil religion of traditional values. **From Religious Empires to Secular States** Birol Bařkan, 2014-03-26 In the 1920s and the 1930s Turkey, Iran, and Russia vehemently pursued state secularizing reforms but adopted different strategies in doing so. But why do states follow different secularizing strategies? The literature has already shattered the illusion that secularization of the state has been a unilinear, homogeneous, and universal process and has convincingly shown that secularization of the state has unfolded along different paths. Much, however, remains to be uncovered. This book provides an in-depth comparative historical analysis of state secularization in three major Eurasian countries: Turkey, Iran, and Russia. To capture the aforementioned variation in state secularization across three countries that have been hitherto analyzed as separate studies, Birol Bařkan adopts three modes of state secularization: accommodationism, separationism, and eradicationism. Focusing thematically on the changing relations between the state and religious institutions, Bařkan brings together a host of factors: historical, strategic, and structural, to account for why Turkey adopted accommodationism, Iran separationism, and Russia eradicationism. In doing so, he expertly demonstrates that each secularization strategy was a rational response to the strategic context the reformers found themselves in. The Secular State Under Siege Christian Joppke, 2015-04-22 Throughout human history, religion and politics have entertained the most intimate of connections as systems of authority regulating individuals and society. While the two have come apart through the process of secularization, secularism is challenged today by the return of public religion. This cogent analysis unravels the nature of the connection, disconnection, and attempted reconnection between religion and politics in the West. In a comparison of Western Europe and North America, Christianity and Islam, Joppke advances far-reaching theoretical, historical, and comparative political arguments. With respect to theory, it is argued that only a substantive concept of religion as pertaining to the existence of supra-human powers opens up the possibility of a historical comparative perspective on religion. At the level of history, secularization is shown to be the distinct outcome of Latin Christianity itself. And at the level of comparative politics, the Christian Right in America, which has attacked the wall of separation between

religion and state and Islam in Europe with the controversial insistence on sharia law and other illiberal claims from some quarters are taken to be counterpart incarnations of public religion and challenges to the secular state This clearly argued sweeping book will provide an invaluable framework for approaching an array of critical issues at the intersection of religion law and politics for advanced students and researchers across the social sciences and legal studies as well as for the interested public

Christians in Secular India Abraham Vazhayil Thomas, 1974 Seeks to explore the role of the Christian community in the Indian secular state Although the Indian Christian community forms only 2.4 percent of the population it has played an important part in the social educational political and religious spheres of the recent life of India

Religion and Secular Modernity in Russian Christianity, Judaism, and Atheism Ana Siljak, 2024-11-15 Religion and Secular Modernity in Russian Christianity Judaism and Atheism is a multifaceted account of the engagement between religion and the secular in Russia's Christian Jewish and atheist traditions Ana Siljak brings together an interdisciplinary group of leading scholars to present unique perspectives on the secularization dynamic in Russia and the Soviet Union telling stories about theologians sects churches poets and artists From the Jewish Christian priest Alexander Men to the cross dressing poet Zinaida Gippius to the Soviet promoter of Yiddish theater Solomon Mikhoels Religion and Secular Modernity in Russian Christianity Judaism and Atheism gives a voice to a variety of actors who have grappled with the possibilities of faith and unbelief in an industrialized modern and seemingly secular world Now more than ever as one narrative of Russia's religious history dominates official Russian accounts alternative perspectives of the relationship between Russian religion and secularism should be highlighted and emphasized

Secular States and Religious Diversity Bruce J. Berman, 2013-10-25 Contemporary nation states have seen the rise of religious pluralism within their borders brought about by global migration and the challenge of radical religious movements Secular States and Religious Diversity explores the meaning of secularism and religious freedom in these new contexts The contributors chart the impact of globalization the varying forms of secularism in Western states and the different kinds of relations between states and religious institutions in the historical traditions and contemporary politics of Islamic Indic and Chinese societies They also examine the limitations and dilemmas of governmental responses to religious diversity and grapple with the question of how secular states deal and should deal with such pluralism This volume brings in perspectives from the non Western world and engages with viewpoints that might increase states capacities to accommodate religious diversity positively

Religion, Violence, and the Secular State John C. Caiazza, 2017-09-07 Religion Violence and the Secular State assesses contemporary religious violence in the context of tensions between state secularism and religious ethics and ultimately concludes that the West must reemphasize its own religious tradition in order to successfully combat the rise of a violent fundamentalism The book presents an argument in three parts first an examination of the nature of religious violence second the effects of the present secularism of the American state on our ineffective ethical framework and third an advocacy for both the reasonableness of religious belief and

the value of religiously based ethics i.e Jewish Christian and Muslim as an influence within the modern state The conclusion is that with the arrival of violent Islam in the West the presence of traditional religious influence in the United States needs to be reemphasized to combat religious terrorism Islam represents a challenge to America and the West as a religious ideal that can only be successfully met by an energetic renewal of our own religious resources **Between Kyiv and**

Constantinople Andre Partykevich,1998 **Orthodoxy and Islam** Archimandrite Nikodemos Anagnostopoulos,2017-04-28

This book analyses contemporary Christian Muslim relations in the traditional lands of Orthodoxy and Islam In particular it examines the development of Eastern Orthodox ecclesiological thinking on Muslim Christian relations and religious minorities in Greece and Turkey It suggests ways of overcoming the difficulties that Muslim and Christian communities are still facing with the Turkish and Greek States It proposes that the positive aspects of the coexistence between Muslims and Christians in Western Thrace and Istanbul might constitute an original model that should be adopted in other countries where challenges and obstacles between Muslim and Christian communities still persist **The Secular and the Sacred**

William Safran,2004-08-02 What is the place of religion in modern political systems This volume addresses that question by focusing on ten countries across several geographic areas Western and East Central Europe North America the Middle East and South Asia These countries are comparable in the sense that they are committed to constitutional rule have embraced a more or less secular culture and have formal guarantees of freedom of religion Yet in all the cases examined here religion impinges on the political system in the form of legal establishment semi legitimation subvention and or selective institutional arrangements and its role is reflected in cultural norms electoral behaviour and public policies The relationship between religion and politics comes in many varieties in differing countries yet all are faced with three major challenges modernity democracy and the increasingly multi ethnic and multi religious nature of their societies **Encyclopedia of Greece and**

the Hellenic Tradition Graham Speake,2021-01-31 Hellenism is the living culture of the Greek speaking peoples and has a continuing history of more than 3 500 years The Encyclopedia of Greece and the Hellenic Tradition contains approximately 900 entries devoted to people places periods events and themes examining every aspect of that culture from the Bronze Age to the present day The focus throughout is on the Greeks themselves and the continuities within their own cultural tradition Language and religion are perhaps the most obvious vehicles of continuity but there have been many others law taxation gardens music magic education shipping and countless other elements have all played their part in maintaining this unique culture Today Greek arts have blossomed again Greece has taken its place in the European Union Greeks control a substantial proportion of the world s merchant marine and Greek communities in the United States Australia and South Africa have carried the Hellenic tradition throughout the world This is the first reference work to embrace all aspects of that tradition in every period of its existence **Church and State** Cristian Romocea,2011-04-21 Twenty years have passed since the fall of the Iron Curtain yet emerging democracies continue to struggle with a secular state which does not give

preference to churches as major political players This book explores the nationalist inclinations of an Eastern Orthodox Church as it interacts with a politically immature yet decisively democratic Eastern European state Discussing the birth pangs of extreme nationalist movements of the twentieth century it offers a creative retelling of the ideological idiosyncrasies which have characterized Marxist Communism and Nazism Cristian Romocea provides a constant juxtaposition of the ideological movements as they interacted and affected organized religion at times seeking to remove it assimilate it or even imitate it Of interest to historians theologians and politicians this book introduces the reader through a case study of Romania to relevant and contemporary challenges churches worldwide are facing in a context characterized by increased secularization of the state and radicalization of religion

Constitutionalism, Democracy and Religious Freedom

Hans-Martien ten Napel, 2017-05-18 In both Europe and North America it can be argued that the associational and institutional dimensions of the right to freedom of religion or belief are increasingly coming under pressure This book demonstrates why a more classical understanding of the idea of a liberal democracy can allow for greater respect for the right to freedom of religion or belief The book examines the major direction in which liberal democracy has developed over the last fifty years and contends that this is not the most legitimate type of liberal democracy for religiously divided societies Drawing on theoretical developments in the field of transnational constitutionalism Hans Martien ten Napel argues that redirecting the concept and practice of liberal democracy toward the more classical notion of limited constitutional government with a considerable degree of autonomy for civil society organizations would allow greater religious pluralism The book shows how in a postsecular and multicultural context modern sources of constitutionalism and democracy supplemented by premodern transcendental legitimation continue to provide the best means of legitimating Western constitutional and political orders

Secularism and State Policies toward Religion

Ahmet T. Kuru, 2009-04-20 Why do secular states pursue different policies toward religion This book provides a generalizable argument about the impact of ideological struggles on the public policy making process as well as a state religion regimes index of 197 countries More specifically it analyzes why American state policies are largely tolerant of religion whereas French and Turkish policies generally prohibit its public visibility as seen in their bans on Muslim headscarves In the United States the dominant ideology is passive secularism which requires the state to play a passive role by allowing public visibility of religion Dominant ideology in France and Turkey is assertive secularism which demands that the state play an assertive role in excluding religion from the public sphere Passive and assertive secularism became dominant in these cases through certain historical processes particularly the presence or absence of an ancien r gime based on the marriage between monarchy and hegemonic religion during state building periods

Law and Religion in the Liberal State Md Jahid Hossain Bhuiyan, Darryn Jensen, 2020-05-28 The relationship between law and religion is evident throughout history They have never been completely independent from each

other There is no doubt that religion has played an important role in providing the underlying values of modern laws in setting the terms of the relationship between the individual and the state and in demanding a space for the variety of intermediate institutions which stand between individuals and the state However the relationships between law and religion and the state and religious institutions differ significantly from one modern state to another There is not one liberalism but many This work brings together reflections upon the relationship between religion and the law from the perspectives of different sub traditions within the broader liberal project and in light of some contemporary problems in the accommodation of religious and secular authority **Constitutions and Religion** Susanna Mancini, 2020-11-27 **Constitutions and Religion** is the first major reference work in the emerging field of comparative constitutional law and religion It offers a nuanced array of perspectives on various models for the treatment of religion in domestic and supranational legal orders
