FBI Law Enforcement Bulletin United States. Federal Bureau of Investigation, 1983 *Women in Charge* Marisa Silvestri, 2013-05-13 This book is concerned with the gendered world of police leadership at a time when calls are being made for a different kind of police leader to guide the organisation through the twenty first century Drawing on in depth interviews carried out with senior policewomen across a range of police forces in England and Wales *Women in Charge* is the first book to provide a detailed study of women in police leadership The work challenges existing conceptualisations and theorisations of police culture for the study of police leaders demonstrating the various ways in which police cultures are shaped by both rank and gender Women in police leadership face a different kind of gendered environment than their non managerial

counterparts one in which a smart macho culture of police management dominates At the same time this book investigates the extent to which senior policewomen are involved in developing new styles and conceptualisations of leadership It argues that women are involved in promoting a different kind of police leadership using more consultative and holistic styles styles not traditionally associated with the police organisation *Global Criminal and Sovereign Free Economies and the Demise of the Western Democracies* Robert J. Bunker,Pamela Ligouri Bunker,2014-09-15 Much has been written about the many economic benefits of globalization and the triumph and spread of democratic liberalism with the end of the Cold War following the demise of the Soviet Union This work takes issue with such wine and roses perspectives about the future of the Western democracies and their faith based views on the moral purity of a globalized marketplace It also questions many of the assumptions found in the status quo reinforcing discipline of international political economy IPE a discipline that focuses on the formal and legitimate economies and the fa ade they present that international relations and commerce is still dominated and dictated solely by the old Westphalian state centric system Having highlighted these concerns this book looks at two major themes The first theme focuses on the theoretical perception that a Dark Renaissance is taking place globally one in which the Western liberal democracies and its citizens are ill prepared to respond because it exists at the trans civilization level bridging the modern to the post modern world The second theme focuses on the actual process of state deconstruction that is taking place This process is leading to what may become the very undoing of the democracies Drawing together experts from a variety of backgrounds this work explores the increasing shift away from formal based capitalism and evaluates through case studies how different states are responding to the challenges they face This work will be of great interest to students and scholars of international political economy **Criminal Justice Research, Prevention and**
