Campbell, 2022-03-14 Movies and television series are excellent tools for teaching political science and international relations Understanding how stories in various film and television genres illustrate political ideas can better assist students and fans understand and appreciate the political subtext of these media products This book examines politics through five film genres and their variants Gangster movies focus on American and other organized crime They reached their zenith in the films of Francis Ford Coppola and Martin Scorsese Political thrillers express paranoia about secrecy and political conspiracies while action movies channel anger at foreign and domestic threats to order Superhero films and TV present modern characters who seek to serve society as they face personal struggles about their individual identities War movies promote positive images of wars when conflicts are perceived as successful but often include antiwar messages when wars turn out badly Western movies fell out of favor in the 1970s and 1980s but have undergone a renaissance since the 1990s Westerns can be taken as either political parables or as meditations on policing anarchy community organization The author argues that while these genres all offer escape they also offer important political lessons

Politicians, Diplomacy and War in Modern British History Keith Robbins, 1994-07-01 The aspirations of democracy and the requirements of diplomacy have always coexisted uneasily The politicians discussed in this book in particular the appreciation of the careers of John Bright and James Bryce reflect obliquely or directly on the problems of politicians who seek the high moral ground either in domestic or international politics There is also a discussion of the relationship between politicians and the press as well as of the difficult link between cultural and political assumptions on the one hand and the facts of economic performance on the other

### **The Politics of War Memory in Japan** Kamila

Szczepanska,2014-05-09 Since the 1990s questions of Japanese wartime conduct apologies for aggression and compensation to former victims of the country s imperial policies have been brought to the fore of national and regional politics The state is undoubtedly the most important actor in the process of memory production and along with conservative legislators and the grass root revisionist movement there has been a consistent trend towards denying or undermining the existing acknowledgments of responsibility for Japan s wartime past However to fully comprehend war memory in Japan due attention must be paid to competing discourses that demand an alternative view and only then can the complexity of Japanese war memory and attitudes towards the legacies of the Asia Pacific war be understood The Politics of War Memory in Japan examines the involvement of five civil society actors in the struggle over remembering and addressing the wartime past in Japan today In studying progressive war memory activists it quickly becomes clear that the apology by conservative politicians cannot be treated as representative of the opinion of the majority of the Japanese public Indeed this book seeks to remedy the disparity between studies devoted to the official level of addressing the history issue and the grass root historical revisionist movement on the one side and progressive activism on the other Furthermore it contributes to scholarly debates on the state of civil society in Japan challenging the characterisation of Japanese civil society as a depoliticised space by demonstrating a more contentious side of civil society activism Drawing important new empirical research this book will be of huge interest to students and scholars of Japanese civil society Japanese politics Japanese history and memory in Japan

hopes generated by the Spanish Civil War. Caste then explores the god that failed: pessimism that overtook the Western political novel in the 1940s. The writers under scrutiny include Hemingway, Dos Passos, Orwell, Koestler, Malraux, Serge, Greene, de Beauvoir, and Sartre. Strikingly different approaches to the burning issues of the time are found among orthodox Soviet novelists such as Sholokhov, Fadeyev, Kochetov, and Pavlenko. Soviet official culture continued to choke on modernism, formalism, satire, and allegory. In Russia and Eastern Europe, dissident novelists offered contesting voices as they engaged in the fraught re-telling of life under Stalinism. The emergence of the New Left in the 1960s generated a new wave of fiction challenging America's global stance. Mailer, Doctorow, and Coover brought fresh literary sensibilities to bear on such iconic events as the 1967 siege of the Pentagon and the execution of the Rosenbergs.

**War, Memory, and the Politics of Humor** Allen Douglas, 2002-05-31 War, Memory, and the Politics of Humor features carnage and cannibalism, gender and cross-dressing, drunks and heroes, militarism, and memory, all set against the background of World War I. France. Allen Douglas shows how a new satiric weekly, the *Canard Enchaîné*, exploited these topics and others to become one of France's most influential voices of reaction to the Great War. The *Canard* still published today is France's leading satiric newspaper and the most successful periodical of the twentieth century, and Douglas colorfully illuminates the mechanisms of its unique style. Following the *Canard* from its birth in 1915 to the eve of the Great Depression, the narrative reveals a heady mix of word play, word games, and cartoons. Over the years, the journal generally leftist, specifically antimilitarist, and anti-imperialist, aimed its shots in all directions, using some stereotypes the twenty-first century might find unacceptable. But Douglas calls its humor an affirmation of life, and as such, the most effective antidote to war.

**Power, Politics, and Change** Osho, 2011-04-12 Power, Politics, and Change takes on the conventional wisdom that power corrupts and proposes instead that those who seek power are already corrupt. Once they attain their goal, their corruption simply has the opportunity to express itself.
