Kearney, 1975 Anthology of essays on politics and modernization in South Asia and South East Asia includes case studies on India Pakistan and Bangladesh Malaysia Thailand and Indonesia and discusses the economy historical aspects demographic aspects sociological aspects interethnic relations etc Map references and statistical tables **Politics and Modernization in South and Southeast Asia, Edited by Robert N. Kearney** Robert N. Kearney, 1975 **Modernization in South-East Asia** Hans-Dieter Evers, 1973 Largely the outcome of a conference on Modernization in South East Asia held under the auspices of the Institute of Southeast Asian Studies Singapore in 1971 **Public Administration, Sixth Edition, A Comparative Perspective.** Ferrel Heady, 2001-02-13 Continuing in the standard of excellence set by previous editions this sixth edition assesses the bureaucracies and development of governments around the world providing helpful and revealing analyses of the relationships between bureaucracies and political regimes With over 1000 literature references tables and drawings the book has been updated to reflect changes in the political systems of the former Soviet Union Eastern Europe and the developing world The editor clearly articulates recent developments in the shifting global political landscape and discusses how conditions in development administration and comparative public policy affect nation states **Asian Power and Politics** Lucian W. Pye, Mary W. Pye, Lucian W Pye, 2009-06-30 In a major new book Lucian W Pye reconceptualizes Asian political development as a product of cultural attitudes about power and authority He contrasts the great traditions of Confucian East Asia with the Southeast Asian cultures and the South Asian traditions of Hinduism and Islam and explores the national differences within these larger civilizations Breaking with modern political theory Pye believes that power differs profoundly from one culture to another In Asia the masses of the people are group oriented and respectful of authority while their leaders are more concerned with dignity and upholding collective pride than with problem solving As culture decides the course of political development Pye shows how Asian societies confronted with the task of setting up modern nation states respond by fashioning paternalistic forms of power that satisfy their deep psychological craving for security This new paternalism may appear essentially authoritarian to Western eyes but Pye maintains that it is a valid response to the people's needs and will ensure community solidarity and strong group loyalties He predicts that we are certain to see emerging from Asia's accelerating transformation some new version of modern society that may avoid many of the forms of tension common to Western civilization but may also produce a whole new set of problems This book revitalizes Asian political studies on a plane that comprehends the large differences between Asia and the West and at the same time is sensitive to the subtle variations among the many Asian cultures Its comparative perspective will provide indispensable insights to anyone who wishes to think more deeply about the modern Asian states **Near East and South Asia** Foreign Affairs Research Documentation Center, 1970 **Naval Modernisation in South-East Asia** Geoffrey Till, Jane Chan, 2013-08-15 This edited

The Sociology of Southeast Asia Victor T. King, 2008 One of the main problems faced by teachers and students who have a scholarly interest in Southeast Asia is the lack of general user friendly texts in the social sciences The absence of an introduction to the sociology of Southeast Asia is especially unfortunate This volume attempts to meet these needs This is then the first sole authored introductory sociology text on Southeast Asia that focuses on change and development in the region provides an overview of the important sociological and political economy writings and considers the key concepts and themes in the field since 1945 Some multiauthored works do exist but these either are outdated or focus on specialized topics Aimed primarily at undergraduates up to the final year it will also be a useful reference work for post graduates and researchers who lack such a general work

Soldiers and Politics in Southeast Asia J. Stephen Hoadley, 2017-09-05 By exploring the role of military officers and chronicling the sequences of events *Soldiers and Politics in Southeast Asia* offers insight into the conditions that fostered military governments specifically in Thailand Burma South Vietnam Indonesia and Cambodia Critically comparing these case studies and statistics this volume provides readers with a deeper understanding of the causes and consequences of military involvement in the region s politics during the post colonial period covered Two ideologically opposed positions evolved around the phenomenon of military insurgency Technological conservatism generally favors military insurgency in previously civilian led governments There was a presumption that it encourages stability efficiency and anti communism The revisionist position on the other hand was highly critical of technological conservatism especially with regard to its political fervor J Stephen Hoadley asserts that the relevant

question is not one of ideological choices rather it is whether a military or civilian led government is better suited for the political and economic development of a particular underdeveloped nation Hoadley argues that there is little difference between military and civilian led governments in their abilities to establish stability and maintain law The book concludes that neither conservative nor radical views are fully correct as to the effects of military led governments on development Soldiers and Politics in Southeast Asia focuses exclusively on civil military politics in Southeast Asia in a critical period for the region and it should be read by all individuals interested in Southeast Asian politics and development long after Cold War issues have come to a close

The Asian financial crisis of 1997-1998 caused severe hardship in Southeast Asia and many countries tightened their regulation of banks and other financial institutions adopted more conservative fiscal policies and made themselves less vulnerable to Western market fluctuations by forming closer trade and investment ties with their neighbors. This book analyzes the major political and economic reforms that resulted from the Asian financial crisis looking particularly at how such reforms helped to prepare Asian countries for coping with the 2009 global recession. In each of the ten country chapters the historical background social and political system economic development and foreign relations of each country are analyzed and compared with those of neighboring countries.
