and Purges in China Frederick C. Teiwes, 1993 **Politics in China** William A. Joseph, 2019-04-25 On October 1 2019 the People's Republic of China PRC will celebrate the 70th anniversary of its founding And what an eventful and tumultuous seven decades it has been During that time under the leadership of the Chinese Communist Party CCP China has been transformed from one of world's poorest countries into one of its fastest growing economies and from a weak state barely able to govern or protect its own territory to a rising power that is challenging the United States for global influence But in the late 1950s the PRC experienced the most deadly famine in human history caused largely by the actions and inactions of its leaders Not long after there was a collapse of government authority that pushed the country to the brink of and in some places actually into civil war and anarchy And in 1989 the CCP unleashed the army to brutally crush demonstrations by students and others calling for political reform China is now for the most part peaceful prospering and proud The CCP maintains a firm grip on power through a combination of harsh repression and popular support largely based on its recent record of promoting rapid economic growth Yet the party and country face serious challenges on many fronts including a slowing economy environmental desecration pervasive corruption extreme inequalities ethnic unrest and a rising tide of social protest *Politics in China* provides an accessible yet authoritative introduction to how the world's most populous nation and rapidly rising global power is governed today The third edition has been extensively revised thoroughly updated and includes a new chapter on the internet and politics in China The book's chapters provide overviews of major periods in China's modern political history from the mid nineteenth century to the present examinations of key topics in contemporary Chinese politics and analyses of developments in four important areas located on China's geographic periphery Tibet Xinjiang Hong Kong and Taiwan **The Politics of the Core Leader in China** Xuezhi Guo, 2019-05-09 This is the first full length scholarly study of the Chinese core leader and his role in the Chinese Communist Party's elite politics **Revival:**

Politics and Purges in China (1980) Frederick C. Teiwes, 2017 This title was first published in 1980 Drawing upon

released documents memoirs and party history works the process and impact of the political campaigns in China between 1950 and 1965 is documented Complete with extensive interviews with Chinese scholars and former officials the book reviews the findings of the first edition Provided by publisher *China's Road to Disaster: Mao, Central Politicians and Provincial Leaders in the Great Leap Forward, 1955-59* Frederick C Teiwes, Warren Sun, 2016-07-01 This text analyzes the dramatic shifts in Chinese Communist Party economic policy during the mid to late 1950s which eventually resulted in 30 to 45 million deaths through starvation as a result of the failed policies of the Great Leap Forward Teiwes examines both the substance and the process of economic policy making in that period explaining how the rational policies of opposing rash advance in 1956 57 gave way to the fanciful policies of the Great Leap and assessing responsibility for the failure to adjust adequately those policies even as signs of disaster began to reach higher level decision makers In telling this story Teiwes focuses on key participants in the process throughout both rational and utopian phases Mao other top leaders central economic bureaucracies and local party leaders The analysis rejects both of the existing influential explanations in the field the long dominant power politics approach focusing on alleged clashes within the top leadership and David Bachman's recent institutional interpretation of the origins of the Great Leap Instead this study presents a detailed picture of an exceptionally Mao dominated process where no other actor challenged his position where the boldest step any actor took was to try and influence his preferences and where the system in effect became paralyzed while Mao kept changing signals as disaster unfolded

The Ideological Origins of Great Power Politics, 1789-1989 Mark L. Haas, 2018-09-05 How do leaders perceive threat levels in world politics and what effects do those perceptions have on policy choices Mark L Haas focuses on how ideology shapes perception He does not delineate the content of particular ideologies but rather the degree of difference among them Degree of ideological difference is he believes the crucial factor as leaders decide which nations threaten and which bolster their state's security and their own domestic power These threat perceptions will in turn impel leaders to make particular foreign policy choices Haas examines great power relations in five periods the 1790s in Europe the Concert of Europe 1815 1848 the 1930s in Europe Sino Soviet relations from 1949 to 1960 and the end of the Cold War In each case he

finds a clear relationship between the degree of ideological differences that divided state leaders and those leaders' perceptions of threat level and so of appropriate foreign policy choices. These relationships held in most cases regardless of the nature of the ideologies in question, the offense-defense balance, and changes in the international distribution of power.

The Political Logic of Economic Reform in China Susan L. Shirk, 2023-04-28 In the past decade China was able to carry out economic reform without political reform while the Soviet Union attempted the opposite strategy. How did China succeed at economic market reform without changing communist rule? Susan Shirk shows that Chinese communist political institutions are more flexible and less centralized than their Soviet counterparts were. Shirk pioneers a rational choice institutional approach to analyze policy making in a non-democratic authoritarian country and to explain the history of Chinese market reforms from 1979 to the present. Drawing on extensive interviews with high-level Chinese officials, she pieces together detailed histories of economic reform policy decisions and shows how the political logic of Chinese communist institutions shaped those decisions. Combining theoretical ambition with the flavor of on-the-ground policy making in Beijing, this book is a major contribution to the study of reform in China and other communist countries. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1994. China's Post-jiang Leadership Succession: Problems And Perspectives John Wong, Yongnian Zheng, 2002-10-25 The lack of institutionalization around China's leadership succession was brought into focus again in the run-up to the 16th Congress of the Chinese Communist Party and the widespread speculation on the final leadership line-up. The essays in this volume take a more analytical approach. This book first looks at the political structures of leadership transition in China and secondly seeks to understand the real and potential problems that China's younger fourth-generation leaders will have to grapple with as they take over the reigns of power.

Moulding the Medium Patricia Stranahan, 2016-09-16 Introduces to researchers the content of the Chinese Communist Party's first official newspaper, the Liberation Daily, and examines its role in the acceptance and implementation of the party's goals during its span from May 1941 to March 1947. Includes chronological and topical outlines of the paper.

Revolution and Terror Graeme Gill, 2024 This book is a study of the relationship between revolution and terror. Graeme Gill uses a detailed analysis of the French, Russian, and Chinese revolutions to show that in order to understand that relationship, it is necessary to distinguish between different types of terror: revolutionary, transformational, and inverted.

Power Restructuring In China And Russia Mark Lupher, 2018-02-12 The massive economic transformations and political upheavals that have been sweeping China and the

Soviet Union in the final decades of the twentieth century are among the great dramas of our time Yet the origins of these revolutionary changes are murky and their outcomes unclear Have we witnessed the demise of an archaic authoritarian order and the rise of pluralism and democracy or are the tumultuous events of the post Mao era and the period of perestroika more usefully viewed in light of broader patterns of power and politics in Chinese and Russian history Considering these questions with a new interpretation of power relations and political processes in China and Russia Mark Lupher explores the imperial era the communist period and the current situation in both countries Rather than speaking of reform which too often is understood as liberalization along Western lines his discussion is focused on power restructuring the ebb and flow of state power the centralization and decentralization of political and economic power and the three way struggles between central rulers various elites and nonprivileged groups that drive these processes Lupher s power restructuring analysis is noteworthy in combining broad comparative historical analysis and conceptualization with a closely focused discussion and reinterpretation of the Chinese Cultural Revolution the core of his book By comparing and bringing new light to bear on a series of pivotal episodes in Chinese and Russian history he furthers our understanding and assessment of processes that will continue to unfold in China Russia and the former Soviet republics

The Chinese Revolution on the Tibetan Frontier Benno

Weiner,2020-06-15 In The Chinese Revolution on the Tibetan Frontier Benno Weiner provides the first in depth study of an ethnic minority region during the first decade of the People s Republic of China the Amdo region in the Sino Tibetan borderland Employing previously inaccessible local archives as well as other rare primary sources he demonstrates that the Communist Party s goal in 1950s Amdo was not just state building but also nation building Such an objective required the construction of narratives and policies capable of convincing Tibetans of their membership in a wider political community As Weiner shows however early efforts to gradually and organically transform a vast multiethnic empire into a singular nation state lost out to a revolutionary impatience demanding more immediate paths to national integration and socialist

transformation This led in 1958 to communization then to large scale rebellion and its brutal pacification Rather than joining voluntarily Amdo was integrated through the widespread often indiscriminate use of violence a violence that lingers in the living memory of Amdo Tibetans and others

Central Control and Local Discretion in China Chae-ho Chǒng, 2000 This book analyses the decollectivization reform in China during the early 1980s in order to gauge the impact of post Mao decentralization on central control and provincial discretion The volume challenges the notion that the decision to decentralize administrative authority ipso facto produces local discretion properly keyed to local conditions In fact outcomes often differ from the intended goals While generally local interests and central local clientilistic networks determine the policy responses of the provinces bureaucratic careerism also plays a crucial role In the case of post Mao decollectivization national level analyses suggest that a majority of provinces adopted household farming neither too quickly nor too slowly since both pioneering and resisting entailed potentially enormous political risks Once Beijing's preference appeared firmly fixed however they all quickly bandwagoned by popularizing the policy as swiftly as possible Three detailed case studies of Anhui as a pioneer Shandong as a bandwagoner and Heilongjiang as a resister further highlight the evolutionary process in which provincial variations came to be replaced by uniform compliance imposed by Beijing Theoretically this study contends that the overall scope of local discretion is circumscribed by the dominant norms and incentive relations embedded in the implementation dynamics Methodologically the book employs a combination of aggregate analyses and comparative case studies Empirically on the basis of newly available materials including classified documents and interviews it challenges the peasant power school which has somehow allowed local governments to evaporate in its descriptions of post Mao decollectivization

Retirement of Revolutionaries in China Melanie Manion, 2014-07-14 In this book Melanie Manion analyzes the largest bloodless circulation of elites in history the massive retirement of officials in the People's Republic of China Beginning in 1978 and continuing through the 1980s Chinese leaders in Beijing replaced millions of old cadres including veterans of the communist revolution with younger generations of better educated and less generalist officials How were the elders persuaded to retire Manion shows how a norm of age based exit from office historically novel in the Chinese communist setting was engineered by top policymakers and aided by younger cadres Manion's research combined a wide variety of sources and methods many new to the study of Chinese politics The author examined hundreds of party and government documents surveyed articles in newspapers and journals and interviewed officials in charge of supervising cadre retirement policy She first conducted long exploratory interviews with retired cadres and then designed questionnaires distributed to hundreds of others for quantitative analysis Finally to understand the viewpoints of those with the most to gain she interviewed younger employed cadres The result is a rich portrayal of manipulative leadership in post Mao China which reveals the key role of the private interests of all the parties involved Originally published in 1993 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the
