Reactionary Republicanism Bryan T. Gervais, Irwin L. Morris, 2018-07-23 The shocking election of President Trump spawned myriad analyses and post mortems but they consistently underestimate the crucial role of the Tea Party on the GOP and Republican House members specifically In Reactionary Republicanism Bryan T Gervais and Irwin L Morris develop the most sophisticated analysis to date for gauging the Tea Party's impact upon the U S House of Representatives They employ multiple types of data to illustrate the multi dimensional impact of the Tea Party movement on members of Congress Contrary to conventional wisdom they find that Republicans associated with the Tea Party movement were neither a small minority of the Republican conference nor intransigent backbenchers Most importantly the invigoration of racial hostility and social conservatism among Tea Party supporters fostered the growth of reactionary Republicanism Tea Party legislators in turn endeavored to aggravate these feelings of resentment via digital home styles that incorporated uncivil and aversion inducing rhetoric Trump fed off of this during his run and his symbiotic relationship with Tea Party regulars has guided and seems destined to the trajectory of his administration

Building the Federal Schoolhouse Douglas S. Reed, 2014-06-26 Over the past fifty years the federal government's efforts to reform American public education have transformed U S schools from locally run enterprises into complex systems jointly constructed by federal state and local actors The construction of this federal schoolhouse an educational system with common national expectations and practices has fundamentally altered both education politics and the norms governing educational policy at the local level Building the Federal Schoolhouse examines these issues through an in depth fifty year examination of federal educational policies in the community of Alexandria Virginia a wealthy yet socially diverse suburb of Washington D C The epochal social transformations that swept through America in the past half century hit Alexandria with particular force transforming its Jim Crow school system into a new immigrant gateway district within two generations Along the way the school system has struggled to provide quality education for special needs students and has sought to overcome the legacies of tracking and segregated learning while simultaneously retaining upper middle class students Most recently it has grappled with state and federally imposed accountability measures that seek to boost educational outcomes All of these policy initiatives have contended with the existing political regime within Alexandria at times forcing it to a breaking point and at other times reconstructing it All the while the local expectations and governing realities of administrators parents politicians and voters have sharply constrained federal initiatives limiting their scope when in conflict with local commitments and amplifying them when they align Through an extensive use of local archives contemporary accounts school data and interviews Douglas S Reed not only paints an intimate portrait of the conflicts that the federal schoolhouse's creation has wrought in Alexandria but also

documents the successes of the federal commitment to greater educational opportunity In so doing he highlights the complexity of the American education state and the centrality of local regimes and local historical context to federal educational reform efforts Outline of a Suggested Junior College Program in General and Vocational Aviation United States.
