Drawing together a group of world leading scholars of administrative justice from a range of disciplines The Oxford Handbook of Administrative Justice shows how administrative justice is a vibrant complex and contested field that is best understood as an area of inquiry in its own right rather than through traditional disciplinary silos Removing Politics From the Administration of Justice United States Congress Senate Comm,2025-05-22 This volume contains the record of hearings before the Subcommittee on Separation of Powers of the Committee on the Judiciary United States Senate Ninety third Congress Second Session The hearings focused on proposed legislation specifically S 2803 and S 2978 aimed at Removing Politics From the Administration of Justice The testimony and discussions delve into the crucial relationship between the judicial branch and the other branches of government exploring ways to safeguard the independence and impartiality of the judiciary Key topics include the appointment process potential political influence and the maintenance of public trust in the legal system This historical record provides valuable insights into ongoing debates about the balance of power and the integrity of the American justice system This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **Cyclopædia of Political Science, Political Economy, and of the Political History of the United States: East India Company-Nullification** John Joseph Lalor,1883 **Reform in Administration of Justice** American Academy of Political and Social Science,1914 Administrative Justice and Asylum Appeals Robert Thomas,2011-01-18 FIRST PRIZE WINNER OF THE SLS BIRKS PRIZE FOR OUTSTANDING LEGAL SCHOLARSHIP 2011 How are we to assess and evaluate the quality of the tribunal systems that do the day to day work of adjudicating upon the disputes individuals have with government This book examines how the idea of adjudicative quality works in practice by presenting a detailed case study of the tribunal system responsible for determining appeals lodged by foreign nationals who claim that they will be at risk of persecution or ill treatment on return to their country of origin Over recent years the asylum appeal process has become a major area of judicial decision making and the most frequently restructured tribunal system Asylum adjudication is also one of the most difficult areas of decision making in the modern legal system Integrating empirical research with legal analysis this book provides an in depth study of the development and operation of this tribunal system and of asylum decision

making The book examines how this particular appeal process seeks to mediate the tension between the competing values under which it operates There are chapters examining the organisation of the tribunal system its procedures the nature of fact finding in asylum cases and the operation of onward rights of challenge An examination as to how the tensions inherent in the idea of administrative justice are manifested in the context of a tribunal system responsible for making potentially life or death decisions this book fills a gap in the literature and will be of value to those interested in administrative law and asylum adjudication

Administrative Justice in the 21st Century Michael Harris, Martin Partington, 1999-04-01 The idea of administrative justice is central to the British system of public law more embracing than judicial review or even administrative law itself It embraces all the mechanisms designed to achieve a proper balance between the exercise of public and quasi public power and those affected by the exercise of that power This book contains revised versions of the papers given at the International Conference on Administrative Justice held in Bristol in 1997 Forty years after the publication of the Franks Committee report on Tribunals and Inquiries the conference reflected on developments since then and sought to provoke debate about how the future might unfold Participants included policy makers tribunal chairs and ombudsmen other decision takers as well as academics a formidable combination of expertise in the operation of the administrative justice system Among the themes addressed in the papers are the following the effect of the changing nature of the state on current institutions human rights and administrative justice the relationship between decision taking reviews of decisions and the adjudication of appeals and the overview of administrative justice taking into account lessons from abroad The new millenium provides an opportunity for the reappraisal of the British system of administrative justice this volume presents an indispensable repository of the ideas needed to understand how that system should develop over the coming years
