Politics In Paradise:

The Politics of Paradise Michael FOOT,1988 *Profits and Politics in Paradise* Michael N. Danielson,1995 Just north of where the Savannah River flows into the Atlantic lies an idyllic stretch of beach marsh and forest known as Hilton Head Island South Carolina In the 1950s Charles Fraser transformed this almost forgotten barrier island into one of America s premier vacation destinations and in doing so invented the modern resort and retirement community In this case study of that archetypal development and the others that followed on Hilton Head Island Michael N Danielson explores the interplay of private power and public authority as well as the dilemma of growth in America s recreation based communities Danielson contends that Hilton Head offers fertile ground for evaluating the influence of private elites and public officials on largely self contained resort and retirement communities an increasingly important but previously unexamined component of urban growth in America Identifying growth as the island s central political issue Danielson submits that resorts like Hilton Head face the similar predicament the reality that economic expansion alters the very attributes that attracted developers residents and vacationers to a particular locale His case study illustrates the impact of growth on the economic and political fortunes of a geographic area and the residents living in it **Politics of Discourse** Kevin Sharpe,Steven N. Zwicker,2024-06-21 The outstanding essays in this volume explore the interdependency of literature and history in seventeenth century England The relation of text to society is examined both as theory and as practice The theoretical essays explore writing reading and the emergence of the aesthetic as historical phenomena of the seventeenth century Other contributions examine cultural and political practices that fashioned the century patronage representations of authority the socialization of party politics and fables of power What is often separated as a distinct sphere of literature is returned to the contexts of other cultural and discursive practices Using the shaping force of history on the imagination and the status of literature as historical evidence the authors also claim the power of imaginative texts to mold as well as reflect history Politics of Discourse not only increases our understanding of seventeenth century England but also advances the study of subjects of interest to cultural critics of all historical periods genre and canon the interplay of institution and imagination and the symbols of power Contributors Barbara K Lewalski Michael McKeon Earl Miner David Norbrook Annabel Patterson J G A Pocock Pocock Mary Ann Radzinowicz Kevin Sharpe Blair Worden Steven N Zwicker This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1987 The Politics of Paradise Liza Keanuenueokalani Williams,2015 The Politics of Paradise Frank Field,St. Mary the Great (Church : Cambridge, England),1987 Literature and the Politics of Family in Seventeenth-Century England Su Fang Ng,2007-01-25 A common literary language linked royal absolutism to radical religion and republicanism in seventeenth

century England Authors from both sides of the Civil Wars including Milton Hobbes Margaret Cavendish and the Quakers adapted the analogy between family and state to support radically different visions of political community They used family metaphors to debate the limits of political authority rethink gender roles and imagine community in a period of social and political upheaval While critical attention has focused on how the common analogy linking father and king family and state bolstered royal and paternal claims to authority and obedience its meaning was in fact intensely contested In this wide ranging study Su Fang Ng analyses the language and metaphors used to describe the relationship between politics and the family in both literary and political writings and offers a fresh perspective on how seventeenth century literature reflected as well as influenced political thought **John Milton, Radical Politics, and Biblical Republicanism** Walter S. H. Lim, 2006

In analyzing how Milton reads and appropriates different biblical texts to give shape to his republican vision this book also assesses his significance to the development of early modern English political thought his conception of the English nation and finally his response to pressures exerted by a secular modernity grounded on international commercial activities Jacket

Politics for Everybody Ned O'Gorman, 2022-12-22 Rediscover what politics actually is and what miracles it can achieve once it is separated from partisanship polarization and pointless yelling In this age of nearly unprecedented partisan rancor you'd be forgiven for thinking we could all do with a smaller daily dose of politics In his provocative and sharp book however Ned O'Gorman argues just the opposite Politics for Everybody contends that what we really need to do is engage more deeply with politics rather than chuck the whole thing out the window In calling for a purer more humanistic relationship with politics one that does justice to the virtues of open honest exchange O'Gorman draws on the work of Hannah Arendt As a German born Jewish thinker who fled the Nazis for the United States Arendt set out to defend politics from its many detractors along several key lines the challenge of separating genuine politics from distorted forms the difficulty of appreciating politics for what it is the problems of truth and judgment in politics and the role of persuasion in politics O'Gorman's book offers an insightful introduction to Arendt's ideas for anyone who wants to think more clearly and speak more carefully in a time when constructive political functioning is desperately needed Animated not just by a theoretical and academic interest in Arendt's work but also by a practical intent to change the current manner of seeing politics and improve the quality of citizenship and freedom as well as the daily art of living together The Review of Politics **The Politics of**

Parody David Francis Taylor, 2018-06-19 This engaging study explores how the works of Shakespeare Milton Swift and others were taken up by caricaturists as a means of helping the eighteenth century British public make sense of political issues outrages and personalities The first in depth exploration of the relationship between literature and visual satire in this period David Taylor's book explores how great texts seen through the lens of visual parody shape how we understand the political world It offers a fascinating novel approach to literary history **Psychoanalytic Reflections on Politics** Eszter Salgó, 2013-11-07 Psychoanalytic Reflections on Politics Fatherlands in mothers hands is a playful exploration of how people's

desires fantasies and emotions shape political events and social phenomena It highlights the mythical sources of today's political projects the power of political imagination and the function of symbolism in political thought Eszter Salg argues that the driving force for the formation of political communities is fantasy illusions in a Winnicottian sense phantasies in a Lacanian sense phantoms as described by Nicolas Abraham and Maria Torok and dreams as interpreted by Sándor Ferenczi She introduces the metaphor of the fantastic family as a symbolic representation of political communities both to reflect on people's deeply felt desire to find in public life the resolution love and wholeness of early childhood and to unveil the political elite's readiness to don the mask of the ideal parent The book is divided into two parts The first part of the book explores the theories of Donald Winnicott and Jacques Lacan the matrimony on the stage of politics between the good enough mother and the Symbolic Father which inaugurates the story of democracy's fantastic family The second part presents the fantastic families of selected countries such as Hungary Italy and the world community to explain the proliferation of cosmogony projects and to document the failure of the political elites to offer a satisfactory performance of their maternal and paternal functions *Psychoanalytic Reflections on Politics Fatherlands in mothers hands* presents a new way of considering the art of politics based on the understanding that people perceive reality through imagination and unconscious fantasy It will be of interest to psychoanalysts and academics from across the disciplines of politics psychology anthropology sociology philosophy literature and art

Hawai'i Politics and Government Richard C. Pratt, Zachary Alden Smith, 2000-01-01

Hawai'i is in many ways the most unique of the American states Distinguished by its unusual beauty ethnic diversity and lingering image as a paradise Hawai'i is special for other important but less apparent reasons It is the only American state to have evolved from a kingdom the only state with no jurisdictions below the level of county the only state in which Caucasians have never been in the majority and the only state whose historic identity and contemporary relationships are as much with Asia and the Pacific as with the rest of the United States The nature and trajectory of Hawaiian politics spring from the interaction of these unique elements with more traditional American cultural practices institutions and political processes Also shaping past and present politics are multiple collisions among Native Hawaiians western missionaries and businessmen and Asian immigrants Hawai'i Politics and Government brings together information on historical development ethnic relations public institutions political culture and current issues to discover both the similarities and the differences between Hawai'i and the rest of the country

'Turquerie' and the Politics of Representation, 1728-1876 Nebahat Avcioglu, 2011

Devoted explicitly to the examination of Ottoman Turkish inspired architecture in Western Europe during the eighteenth and nineteenth centuries in this study Nebahat Avcioglu rethinks the question of cultural frontiers not as separations but as a rapport of heterogeneities Reclaiming turquerie as cross cultural art from the confines of the inconsequential exoticism it is often reduced to Avcioglu analyses hitherto neglected constructions and links them to notions of self representation and politics

Legitimacy and the Politics of the Knowable (RLE Social Theory) Roger Holmes, 2014-08-13 Roger Holme's work

in social and industrial psychology is widely respected The theme of this first collection of his essays is the relationship of the individual with the formal value laden group on the one hand and the scientifically known and the philosophically asserted on the other Roger Holmes looks at the connexions between these two important relationships and considers them in terms of the interaction between the nature of society and the nature of the knowable The areas covered include the derivation of social classes the nature of morale and the emergence of the professions and the trade unions Subjects relating to the theory of knowledge include the nature of cross cultural data the relationship between empiricism and psychoanalysis and Marxism and the nature of groups The author s main theoretical influences throughout have been psychoanalysis which is treated sympathetically but critically and Piaget these influences are reflected in the main preoccupations of these essays ***Art, Religion, and Politics in Medieval China*** Qiang Ning, 2004-03-31 The cave temple complex popularly known as the Dunhuang caves is the world s largest extant repository of Tang Buddhist art Among the best preserved of the Dunhuang caves is the Zhai Family Cave built in 642 It is this remarkable cave temple that forms the focus of Ning Qiang s cross disciplinary exploration of the interrelationship of art religion and politics during the Tang The author combines in his careful examination of the paintings and sculptures found there the historical study of pictures with the pictorial study of history By employing this two fold approach he is able to refer to textual evidence in interpreting the formal features of the cave temple paintings and to employ visual details to fill in the historical gaps inevitably left by text oriented scholars The result is a comprehensive analysis of the visual culture of the period and a vivid description of social life in medieval China The original Zhai Family Cave pictures were painted over in the tenth century and remained hidden until the early 1940s Once exposed the early artwork appeared fresh and colorful in comparison with other Tang paintings at Dunhuang The relatively fine condition of the Zhai Family Cave is crucial to our understanding of the original pictorial program found there and offers a unique opportunity to investigate the visual details of the original paintings and sculptures in the cave At the same time the remaining traces of reconstruction and redecoration provide a new perspective on how for over three centuries a wealthy Chinese clan used its familial cave as a political showcase ***War, Politics and Justice in West Africa*** Gberie, Lansana, 2015-08-06 This book collects articles and reviews the author wrote for various publications academic and journalistic over the past 10 to 14 years They are not arranged in chronological order but there is a consistent underlying theme the author s reaction to war politics and transitional justice in Africa with a particular focus on Sierra Leone and Liberia He has studied these two countries more intimately than all others but this book includes articles on Ivory Coast Nigeria and the Democratic Republic of Congo ***Women, Poetry, and Politics in Seventeenth-Century Britain*** Sarah C. E. Ross, 2015-02-26 *Women Poetry and Politics in Seventeenth Century Britain* offers a new account of women s engagement in the poetic and political cultures of seventeenth century England and Scotland based on poetry that was produced and circulated in manuscript Katherine Philips is often regarded as the first in a cluster of women writers including

Margaret Cavendish and Aphra Behn who were political secular literary print published and renowned Sarah C E Ross explores a new corpus of political poetry by women offering detailed readings of Elizabeth Melville Anne Southwell Jane Cavendish Hester Pulter and Lucy Hutchinson and making the compelling case that female political poetics emerge out of social and religious poetic modes and out of manuscript based authorial practices Situating each writer in her political and intellectual contexts from early covenanting Scotland to Restoration England this volume explores women s political articulation in the devotional lyric biblical verse paraphrase occasional verse elegy and emblem For women excluded from the public political sphere these rhetorically modest genres and the figural language of poetry offered vital modes of political expression and women of diverse affiliations use religious and social poetics the tropes of family and household and the genres of occasionality that proliferated in manuscript culture to imagine the state Attending also to the transmission and reception of women s poetry in networks of varying reach Sarah C E Ross reveals continuities and evolutions in women s relationship to politics and poetry and identifies a female tradition of politicised poetry in manuscript spanning the decades before during and after the Civil Wars *The Politics of Grace in Early Modern Literature* Deni Kasa, 2024-03-12 This book tells the story of how early modern poets used the theological concept of grace to reimagine their political communities The Protestant belief that salvation was due to sola gratia or grace alone was originally meant to inspire religious reform But as Deni Kasa shows poets of the period used grace to interrogate the most important political problems of their time from empire and gender to civil war and poetic authority Kasa examines how four writers John Milton Edmund Spenser Aemilia Lanyer and Abraham Cowley used the promise of grace to develop idealized imagined communities and not always egalitarian ones Kasa analyzes the uses of grace to make new space for individual and collective agency in the period but also to validate domination and inequality with poets and the educated elite inserted as mediators between the gift of grace and the rest of the people Offering a literary history of politics in a pre secular age Kasa shows that early modern poets mapped salvation onto the most important conflicts of their time in ways missed by literary critics and historians of political thought Grace Kasa demonstrates was an important means of expression and a way to imagine impossible political ideals

Legendary Hawai'i and the Politics of Place Cristina Bacchilega, 2011-06-03 Hawaiian legends figure greatly in the image of tropical paradise that has come to represent Hawai i in popular imagination But what are we buying into when we read these stories as texts in English language translations Cristina Bacchilega poses this question in her examination of the way these stories have been adapted to produce a legendary Hawai i primarily for non Hawaiian readers or other audiences With an understanding of tradition that foregrounds history and change Bacchilega examines how following the 1898 annexation of Hawai i by the United States the publication of Hawaiian legends in English delegitimized indigenous narratives and traditions and at the same time constructed them as representative of Hawaiian culture Hawaiian mo'olelo were translated in popular and scholarly English language publications to market a new cultural product a space constructed primarily for Euro

Americans as something simultaneously exotic and primitive and beautiful and welcoming To analyze this representation of Hawaiian traditions place and genre Bacchilega focuses on translation across languages cultures and media on photography as the technology that contributed to the visual formation of a westernized image of Hawai i and on tourism as determining postannexation economic and ideological machinery In a book with interdisciplinary appeal Bacchilega demonstrates both how the myth of legendary Hawai i emerged and how this vision can be unmade and reimaged

Victorian Poets and the Politics of Culture Antony H. Harrison, 1998 With the publication of his ambitious new work Victorian Poets and the Politics of Culture Antony H Harrison continues his exploration of poetry as a significant force in the construction of English culture from 1837 1900 In chapters focusing on Victorian medievalist discourse Alfred Tennyson Elizabeth Barrett Browning Matthew Arnold and Christina Rossetti Harrison examines a range of Victorian poems in order to show the cultural work they accomplish He illuminates for example such culturally prominent Victorian mythologies as the exaltation of motherhood the Romanic appropriation of transcendent art and the idealization of the gypsy as a culturally alien exotic Other His investigation of the ways in which the authors intervene in the discourses that articulate such mythologies and thereby accrue cultural power along with his analysis of what constitutes cultural power are original contributions to the field of Victorian studies The power of Victorian poetry by midcentury was enhanced by the institutionalization of particular channels through which it circulated Harrison writes poetry was consumed in more varied forms than was other literature Victorian Poets and the Politics of Culture has implications for both cultural studies and the study of literature outside the Victorian period

"Turquerie and the Politics of Representation, 1728-1876" Nebahat Avcioglu, 2017-07-05 In this first full length study devoted explicitly to the examination of Ottoman Turkish inspired architecture in Western Europe during the eighteenth and nineteenth centuries Nebahat Avcioglu rethinks the question of cultural frontiers not as separations but as a rapport of heterogeneities Reclaiming turquerie as cross cultural art from the confines of the inconsequential exoticism it is often reduced to Avcioglu analyses hitherto neglected images designs and constructions and links Western interest in the Ottoman Empire to notions of self representation and national politics In investigating why and to what effect Europeans turned to the Turk for inspiration Avcioglu provides a far reaching cultural reinterpretation of art and architecture in this period Presented as a series of case studies focusing on three specific building types kiosks mosques and baths chosen on the basis that each represents the first full fledged manifestations of their respective genres to be constructed in Western Europe the study delves into the cultural politics of architectural forms and styles The author argues that the appropriation of those building types was neither accidental nor did it merely reflect European domination of another culture The process was essentially dialectical and contributed to transculturation in both the West and the East
