Politics In The United Nations System:

Politics in the United Nations System Lawrence S. Finkelstein, 1988 Politics in the United Nations reflects the predominant discord and occasional convergence among the members of the UN system as they view the international problems of our times through lenses of their geographic historical ideological religious and ethnic diversity The contributors to this book describe how since the United Nations was founded more than forty years ago the UN system has changed to accommodate the varied interests of its members **United Nations Politics** Donald Puchala, Katie Verlin

Laatikainen, Roger Coate, 2015-07-14 United Nations Politics takes a unique approach that focuses on the politics that is the persistent and mostly singular emphasis that all member states place on the pursuit of national political economic cultural and ideological interests of UN affairs The project began as an effort to research and write a ten year later sequel to The Challenge of Relevance written by Puchala and Coate in 1989 This earlier volume was an assessment of the United Nations and its operations in the late eighties United Nations Politics builds from a series of some 200 interviews conducted at the UN and in various member state missions between 2000 and 2005 Among other things these interviews revealed that the existing English language literature on the UN fails to take into appropriate account the dynamics and the impacts of the internal and external political contexts within which the UN operates This book directly addresses this shortcoming in the academic literature **The United Nations System** Nigel D. White, 2002 Focusing on the legal rather than political aspects

of the United Nations White international organizations U of Nottingham evaluates the goals purposes and values of the UN system analyzes the institutional machinery created to fulfill those purposes examines the implementation of the organization's goals and comments on the UNOs effectiveness in the key areas of security justice human rights the environment and economic development White intends this academic text to provide a useful basis from which to consider the long term effects of recent dramatic world events and the responses of the international community Annotation copyrighted by Book News Inc Portland OR *Modernizing the United Nations System* John E. Trent, 2007-06-20 This book contends that civil

society must mobilize its capacities to bring a new will to national and international politics and oblige governments to act It starts by demonstrating the need for institutional change at the UN and then shows how both in the past and the present leading individuals and nongovernmental organizations using their knowledge base and their organizational networks have lead the fight for international organizations After a summary of major UN reform proposals over the years the book concludes by identifying leading global reformers and elaborating a detailed plan for a global reform movement to spearhead the modernization of the UN system **The United Nations and Changing World Politics** Thomas G. Weiss, 2019-10-22 This completely revised and updated eighth edition serves as the definitive text for courses in which the United Nations is either the focus or a central component Built around three critical themes in international relations peace and security human rights and humanitarian affairs and sustainable human development the eighth edition of The United Nations and

Changing World Politics guides students through the seven turbulent decades of UN politics This new edition is fully revised to incorporate recent developments on the international stage including new peace operations in Mali and the Central African Republic ongoing UN efforts to manage the crises in Libya Syria and Iraq the Iran Nuclear Deal and the new Sustainable Development Goals The authors discuss how international law frames the controversies at the UN and guides how the UN responds to violence and insecurity gross violations of human rights poverty underdevelopment and environmental degradation Students of all levels will learn that the UN is a complex organization comprised of three interactive entities that cooperate and also compete with each other to define and advance the UN s principles and purposes

United Nations, Unesco and the Politics of Knowledge Clare Wells,1987-06-18 **United Nations at the Millennium** Paul Taylor,A.J.R. Groom,2000-01-01 This book provides unparalleled coverage of each of the principal organs of the United Nations This collection offers a survey of the life of each organ since its inception in 1945 the extent to which it has fulfilled its founding mission and proposals for reform As well as providing comprehensive coverage of the present role of this highly influential organization the book addresses larger questions about the role of the U N and the fitness for purpose of its principal organs as a means to global governance *Effectiveness and Reform of the United Nations Development Programme (UNDP)* Stephan Klingebiel,1999 This study is intended as a constructive contribution to the debate on the reform of UN development co operation **United Nations Peacekeeping and the Politics of Authoritarianism** Sarah von Billerbeck,Birte Julia Gippert,Kseniya Oksamytna,Oisín Tansey,2025-01-11 What impact does UN peacekeeping have on the politics of authoritarianism in host countries This book advances a theoretically innovative and empirically rich answer to this question while the UN does not intentionally promote authoritarianism it faces a number of constraints and dilemmas that give rise to what we call authoritarian enabling Enabling can occur through two mechanisms capacity building and the creation of a permissive environment which enhance the ability of host governments to engage in authoritarian behavior and signal to them that doing so is low cost This book illustrates these two mechanisms with four in depth case studies of UN peacekeeping operations UNTAC in Cambodia MONUC MONUSCO in the Democratic Republic of Congo MINUSTAH in Haiti and UNMIL in Liberia The analysis is based on primary interview data from over 200 interviews The authors explore the sources of enabling identifying the trade offs and contradictions that give rise to these two mechanisms They include respect for sovereignty the importance of working relations with the host government the tension between democracy and other mission goals the pressure to demonstrate quick results and divergences within missions and the broader international community While enabling stops short of the outright promotion of authoritarianism it explains why the UN s activities often appear to contradict its stated objectives and the outcomes it delivers fall short of its goals In addition to its theoretical and empirical contributions the book suggests how these dilemmas and challenges can be overcome **The United Nations in the 1990s** Peter R. Political Creativity Gerald

Berk, Dennis C. Galvan, Victoria Hattam, 2013-11-14 *Political Creativity* intervenes in the lively debate currently underway in the social sciences on institutional change. Editors Gerald Berk, Dennis C. Galvan, and Victoria Hattam, along with the contributors to the volume, show how institutions inevitably combine order and change because formal rules and roles are always available for reconfiguration. Creative action is not the exception but the very process through which all political formations are built, promulgated, and changed. Drawing on the rich cache of antidualist theoretical traditions from poststructuralism and ecological theory to constructivism and pragmatism, a diverse group of scholars probes acts of social innovation in many locations: land boards in Botswana, Russian labor relations, international statistics, global supply chains, Islamic economics in Algeria, Islamic sects and state authority in Senegal, and civil rights reform, colonization, industrial policy, and political consulting in the United States. These political scientists reconceptualize agency as a relational process that continually reorders the nature and meaning of people and things, order as an assemblage that necessitates creative tinkering and interpretation, and change as the unruly politics of time that confounds the conventional ordering of past, present, and future. *Political Creativity* offers analytical tools for reimagining order and change as entangled processes.

Contributors: Stephen Amberg, Chris Ansell, Gerald Berk, Kevin Bruyneel, Dennis C. Galvan, Deborah Harrold, Victoria Hattam, Yoshiko M. Herrera, Gary Herrigel, Joseph Lowndes, Ato Kwamena Onoma, Adam Sheingate, Rudra Sil, Ulrich Voskamp, Volker Wittke.

Reforms at the United Nations Gambhir Bhatta, 2000. This is an attempt at putting into context Kofi Annan's agenda for the United Nations. It assesses the possibilities of reforms at the UN, highlights key issues that will dictate the nature of future discussion on this topic, and updates the reader on what has happened thus far to the proposals.

Group Politics in UN Multilateralism, 2020-03-31. Winner of the 2020 Friends of ACUNS Biennial Book Award. *Group Politics in UN Multilateralism* provides a new perspective on diplomacy and negotiations at the United Nations. Very few states act individually at the UN; instead, they often work within groups such as the Africa Group, the European Union, or the Arab League. States use groups to put forward principled positions in an attempt to influence a wider audience and thus legitimize desired outcomes. Yet the volume also shows that groups are not static; new groups emerge in multilateral negotiations on issues such as climate security and human rights. At any given moment, UN multilateralism is shaped by long-standing group dynamics as well as shifting ad hoc groupings. These intergroup dynamics are key to understanding diplomatic practice at the UN.

The Oxford Handbook on the United Nations Thomas George Weiss, Sam Daws, 2008-11-13. This major new handbook provides the definitive and comprehensive analysis of the UN and will be an essential point of reference for all those working on or in the organization.

The United Nations System for Protecting Human Rights Dinah L. Shelton, 2016-12-05. The United Nations has been at the forefront of developing the international law of human rights for nearly seven decades. This volume brings together the leading research articles on the development of human rights law by the United Nations and also includes essays on issues relating to standard setting, institutional evolution, and the creation of monitoring procedures.
