*Routledge Handbook of Ethnic Conflict* Karl Cordell, Stefan Wolff, 2010-10-18 A definitive global survey of the interaction of race ethnicity nationalism and politics this handbook blends theoretically grounded rigorous analysis with empirical illustrations to provide a state of the art overview of the contemporary debates on one of the most pervasive international security challenges today The contributors to this volume offer a 360 degree perspective on ethnic conflict from the theoretical foundations of nationalism and ethnicity to the causes and consequences of ethnic conflict and to the various strategies adopted in response to it Without privileging any specific explanation of why ethnic conflict happens at a specific place and time or why attempts at preventing or settling it might fail or succeed the Routledge Handbook of Ethnic Conflict enables readers to gain better insights into such defining moments in post Cold War international history as the disintegrations of the Soviet Union and Yugoslavia and their respective consequences and the genocide in Rwanda as well as the relative success of conflict settlement efforts in Northern Ireland Macedonia and Aceh By contributing to understanding the varied and multiple causes of ethnic conflicts and to learning from the successes and failures of its prevention and settlement the Handbook makes a powerful case that ethnic conflicts are neither unavoidable nor unresolvable but rather that they require careful analysis and thoughtful and measured responses      **Handbook of Global Political Policy** Stuart Nagel, 2022-04-19 The latest in the six volume set of global policy handbooks this reference utilizes a cross national cross policy approach to examine the public policy of six different regions around the world Combining actual and theoretical perspectives the book compares and presents nonideological resolutions to current political conditions worldwide With contributions from over 30 international policy experts and academicians and containing over 1200 literature references tables and drawings the book is an insightful resource for public administrators and public policy experts political scientists economists sociologists attorneys and students in these disciplines

democratic form of governance with the de facto results and consequences of Kosovo's task to protect, accommodate and integrate its ethnic minorities      *Rethinking Ethnicity* Eric P. **Lebanon after the Syrian Withdrawal** Ohannes Geukjian, 2016-11-10 Lebanon experienced serious instability and ethno national conflict following the Syrian withdrawal in 2005 compounded by the Arab Spring which led to regional instability and civil war in Iraq and Syria Why did consociational democracy fail Was failure inevitable What impact could external powers play in creating an environment where consociationalism might be successfully implemented This book addresses these key questions and provides a comprehensive analysis of how internal and external elite relations influence the chances of a successful regulation of ethno national conflict through power sharing Exploring the roles played by Syria Qatar Iran Saudi Arabia the United States and France it argues that external actors in the Lebanese conflict largely determined whether power sharing was successfully established and shows that the consociational democratic model cannot provide long term conflict regulation in their absence The author argues that relationships between internal and external actors determine the prospects for successful conflict regulation and pinpoints the crucial role of the external forces in the creation of power sharing agreements in Lebanon concluding that future success is dependent on the maintenance of positive exogenous pressures This book will be of key interest to students and scholars studying politics international relations and Middle East studies

**State Fragility, Business, and Economic Performance** Belay Seyoum, 2024-01-02 The growing number of states with weak capacity to carry out basic governance functions is leading to unacceptable levels of human suffering Using Ethiopia as a case study this book acknowledges the multidimensional nature of state fragility and highlights the non political factors that drive it The first part uses institutional theory to explore how weak institutions become a source of state fragility by undermining social cohesion and the broader economic progress of countries Part two examines the role of

entrepreneurship and industrial policy as a means of creating and sustaining economic and political stability trade policy as a means of increasing incomes and easing tensions and technology policy as a means of engaging people in entrepreneurship and innovation The final chapter provides lessons that fragile nations can learn from successful developing countries in Southeast Asia and Latin America This book will appeal to researchers interested in international business economic and business policy international trade and emerging markets who seek to understand how fragile states can promote sustainable peace and development     Independence Movements and Their Aftermath Jon B. Alterman, Will Todman, 2018-11-23 This

volume explores the varied outcomes that self determination movements around the world have achieved and in particular seeks to understand what factors promote better outcomes and what factors promote worse ones Rather than focusing on the metric of achieving independence the project evaluates the quality of societies after independence including such elements as economic strength and political resilience and it analyzes what factors contribute to different outcomes The study finds that the single most determinative factor in the success of any independence movement is frequently beyond the control of such a movement often relating to the global and historical contexts in which the movement finds itself However a whole host of factors are within the control of such a movement but movements do not always seek to act on many of them Activists become so convinced in the justness of the independence cause that they do not focus on actions that would contribute to greater success after independence     Power-Sharing and Consociational Theory Brigid Brooks Kelly, 2019-03-25 Fifty years ago academics and policymakers throughout the world agreed that it was impossible for certain sets of historically antagonistic groups to coexist peacefully on a long term basis This book examines the system of consociation which was identified by Arend Lijphart and ended that pessimistic consensus Lijphart's specific observations concerning the impact of consociation are assessed quantitatively and qualitatively facilitated through careful operationalization of his descriptions of consociation's four components grand coalition minority veto proportionality and segmental autonomy Insights derived from a dataset representing the experiences of eighty eight countries are examined further through case study analysis of the seven societies most often discussed in relation to consociation Austria Belgium Canada the Netherlands Northern Ireland South Africa and Switzerland The components of consociation are found to promote lasting peace in divided societies most successfully when combined with additional incentives for the encouragement of cross cutting cleavages and shared loyalties

**The Social Philosophy of Ernest Gellner**, 2023-12-28

**Possibility of Politics in India** Akshat Jain, 2025-09-01 This book is an attempt to find new ways of inter disciplinary theorisation about this moment when both the unitary idea of the Indian nation and the bureaucratic dream of a centralised Indian state are falling apart At this juncture the Indian state has two choices Either it can recognise the political nature of the struggles confronting it and radically re imagine itself or it can wage a losing war against the democratic aspirations of people It is essential that political movements in the subcontinent let go of their differences and organise together to agitate for modernisation By bringing these disparate struggles together this book explores the possibility of an alliance between them such that they are able to inform each other against a colonial state Taken together this book is thus an experiment in politics rather than being about specific events The chapters in this book were originally published in various Taylor Francis journals
