

Politics Of Oil And Revolution In Iran

Shaul Bakhash

Politics Of Oil And Revolution In Iran:

The Politics of Oil and Revolution in Iran Shaul Bakhash, 2010-12-01 This book discusses the influence of oil on the internal politics of Iran

The Politics of Oil and Revolution in Iran Shaul Bakhash, 1982 Examines elements of continuity and change in Iran's post revolution oil strategy the domestic forces that helped to shape oil policy the regional repercussions of the Iranian revolution and the manner in which the Iranian authorities have reacted to changes in the oil market over the past

The Politics of Oil and Revolution in Iran Shaul Bakhash, 2010-12-01 This book discusses the influence of oil on the internal politics of Iran

Politics of Oil and Nuclear Technology in Iran Akbar E. Torbat, 2020-02-19 This book focuses on oil politics and the development of nuclear technology in Iran providing a broader historical context to understand Iran's foreign relations and nuclear policy The author assesses Iran's encounters with the West in light of major confrontations both in terms of open conflict as well as controversies surrounding treaties with foreign powers In seeking to understand the geopolitics of oil in direct parallel to the geopolitics of nuclear technology the book concentrates on Iran's struggles to nationalize its oil neo colonialism the formation of the oil consortium and the more recent US backtracking on the nuclear deal with Iran

Power and the Politics of Oil in the Soviet South Caucasus Sara G. Brinegar, 2023-12-14 Sara G Brinegar's book is the first to show how the politics of oil intersected with the establishment of Soviet power in the Caucasus it reveals how the Soviets cooperated and negotiated with the local elite rather than merely subsuming them More broadly *Power and the Politics of Oil in the Soviet South Caucasus* demonstrates not only how the Bolsheviks understood and exploited oil but how the needs of the industry shaped Bolshevik policy Brinegar reflects on the huge geopolitical importance of oil at the end of World War I and the Russian Civil War She discusses how the reserves sitting idle in the oil fields of Baku the capital of the newly independent Azerbaijan Democratic Republic and the center of the fallen empire's oil reserves were no exception to this With the Soviet leadership in Moscow intent on capturing the fields in the first few months of 1920 this book examines the Soviet project to rebuild Baku's oil industry in the aftermath of these wars and the political significance of oil in the formation of the Soviet Union

The Politics Of Oil-producer Cooperation Dag Harald Claes, 2018-05-04 *The Politics of Oil Producer Cooperation* is a comprehensive study of the behavior of political actors in the international oil market since 1971 In this study Dag Harald Claes seeks to answer the question of what determines the cooperative behavior among oil producing countries and he also shows the benefits of approaching an empirical topic from several levels of analysis Claes provides a case study demonstrating the problems of collective action in international politics and he discusses multi level approaches in studies of international relations and international political economy

Routledge Library Editions: The Economics and Politics of Oil Various Authors, 2021-07-14 The books in this set originally published between 1927 and 1996 discuss the oil industry and its impact on the world economy in the twentieth century The issues of trade tax and energy policies as well as national security are all relevant to the economics politics of oil and the volumes analyse and discuss The

extent to which American dominance in world affairs is based on the control of oil resources and the changes which will inevitably take place with the end of the oil era Discernible trends in such crucial areas as global petroleum supply and pricing and the international economic and political implications of both The role of wealth maximisation and wealth satisfying The impact of North Sea oil and gas on the British economy Relations between oil exporters and importers and between the USA Europe and the Arab world The most important strategic issues facing both the producers and consumers of oil and gas

Oil and Politics in the Gulf Jill Crystal,1995-01-27 This book asks why in recent years the social and economic upheavals in Kuwait and Qatar have been accompanied by a remarkable political continuity Oil and World Politics John Foster,2018-10-02 Petroleum is the most valuable commodity in the world and an enormous source of wealth for those who sell it transport it and transform it for its many uses As the engine of modern economies and industries governments everywhere want to assure steady supplies Without it their economies would grind to a standstill Since petroleum is not evenly distributed around the world powerful countries want to be sure they have access to supplies and markets whatever the cost to the environment or to human life Coveting the petroleum of another country is against the rules of international law yet if accomplished surreptitiously under the cover of some laudable action it s a bonanza This is the basis of the petroleum game where countries jockey for control of the world s oil and natural gas It s an ongoing game of rivalry among global and regional countries each pursuing its own interests and using whatever tools allies and organizations offer possible advantage John Foster has spent his working life as an oil economist He understands the underlying role played by oil and gas in international affairs He identifies the hidden issues behind many of the conflicts in the world today He explores military interventions Afghanistan Iraq Libya Syria tensions around international waterways Persian Gulf South China Sea and use of sanctions or political interference related to petroleum trade Iran Russia Venezuela He illuminates the petroleum related reasons for government actions usually camouflaged and rarely discussed publicly by Western politicians or media Petroleum geopolitics are complex When clashes and conflicts occur they are multi dimensional This book ferrets out pieces of the multi faceted puzzle in the dark world of petroleum and fits them together

Working for Oil Touraj Atabaki,Elisabetta Bini,Kaveh Ehsani,2018-01-21 This volume examines the social history of oil workers and investigates how labor relations have shaped the global oil industry during the twentieth century and today It brings together the work of scholars from a range of disciplines approaching the social political economic and cultural dimensions of oil The contributors analyze a number of key oil producing regions including the Americas the Middle East Central Asia the Caucasus Europe and Africa

Comparative Politics Paul W. Zagorski,2012-09-10 Comparative Politics Continuity and Breakdown in the Contemporary World is an exciting new core text for introduction to comparative politics courses focusing on the dynamics of politics modernization revolution coups and democratization Unlike other texts Comparative Politics integrates thematic and extensive country specific material in each chapter striking a unique balance between discussing a wide range of countries

and civilizations in detail whilst using shorter focused textboxes to clearly illustrate key thematic points Key features and benefits include explanations of core concepts such as state nation regime legitimacy modernization globalization revolution and mass movements an introduction of key theoretical approaches such as institutionalism structural functionalism political culture political economy and game theory detailed coverage of democratization advanced democracies developing countries and communist and post communist states a range of perspectives to present a nuanced view of the discipline and contemporary political developments case studies of individual countries including Germany the United States Russia Iran Saudi Arabia Iraq Nigeria Zaire Congo South Africa Brazil Argentina Peru Pakistan India Japan Indonesia Taiwan and the People s Republic of China country focused textboxes giving a chronology of key developments including the United Kingdom France Afghanistan and Kosovo Extensively illustrated throughout with maps photographs tables and explanatory boxes Comparative Politics is an innovative core text and essential reading for all students of Comparative Politics The Politics of the Global Oil Industry Toyin Falola,Ann Genova,2005-09-30 The petroleum industry is among the most lucrative and most important in the world and its impact within the realm of international politics is tremendous although it can be overstated Taking a well balanced and objective approach to the complicated web of political and economic threads that make up the fabric of the oil industry Falola and Genova introduce the most salient aspects in clear language offering cogent and up to date information about the countries companies international organizations and people who shape the contemporary history of the black gold The relationship of international politics and the global oil industry affects everyone but is understood by few Taking a well balanced and objective approach to deconstructing this intricate web for those unfamiliar with the industry Falola and Genova introduce the major players in the field offering cogent and up to date information about the countries companies organizations and people who shape the contemporary history of oil They break down the essentials describing the discovery process the different types of oil and the various processes by which oil gets to the market Then they provide a brief history of the major oil producing countries followed by a discussion of OPEC and international efforts to control the price and supply of oil After setting the stage they introduce the most salient political issues that are influenced by oil namely environmental protection human rights and economic development Finally a look at each of seven major oil exporters Iraq Mexico Nigeria Norway Russia Saudi Arabia and Venezuela demonstrates that the black gold can be both a blessing and a curse for the countries that produce it Despite the need to learn how to exploit alternative energy sources before the oil runs out we will continue to be dependent on oil for the foreseeable future Today s oil demands are not only generated by such obvious activities as gassing up our cars or powering our aircraft but also from the ubiquitous technological gadgets that have infiltrated our daily lives From computer monitors to CDs from cell phones to the petroleum generated materials used in our shoes and sweaters our reliance on oil continues to grow Because price and supply are highly dependent on political events in distant countries it is essential for American consumers to understand the intricacies of this complex subject Falola

and Genova demystify the industry and invite us to investigate more deeply this vital resource The Politics of Oil Dag Harald Claes, 2018-11-30 The Politics of Oil brings together legal studies economics and political science to illustrate how governments gain and exercise control over oil resources and how political actors influence the global oil market both individually and in cooperation with each other The author also investigates the role of oil in preserving regime stability in civil wars and in inter state conflicts as well as discussing the possible implications for the oil industry from policies to combat climate change **Routledge Library Editions: Iran Mini-Set D: Politics & Sociology 13 vol set**

Various, 2021-11-17 Mini set D Politics and Sociology re issues 13 volumes originally published between 1977 and 1991 It discusses the revolution in Iran and what that has meant for the wider region of the Persian Gulf in terms of stability and relations with other countries as well as issues of poverty in Iran and the position of minorities For institutional purchases for e book sets please contact online sales tandf co uk customers in the UK Europe and Rest of World **Politics of**

Confrontation Babak Ganji, 2006-04-28 Did the United States know more than it acknowledges about growing unrest under the Shah in mid 1970s Iran Have historians of American Iranian relations focused too narrowly on prevailing historical theory and personal recollection In a period of escalating tension between the United States and Iran what can the two nations history of conflict tell us about their diplomatic future Covering Carter s policy from the end of the Shah s reign to the revolution under Ayatollah Khomeini Babak Ganji explores the nature of their perpetually antagonistic relations and the mistrust and misunderstanding that fuels it Politics of Confrontation is a penetrating critique of international relations theory within the historical framework of US Iranian relations as well as a thorough examination of American policy towards Iran It is the first in depth look at documents seized by revolutionary students from the American Embassy during the infamous hostage crisis and debunks the myth that US officials were unaware of the nature of opposition to the Shah or of Soviet influence on senior clerics These findings are an essential addition to the discourse of foreign policy theorists and invaluable for historians of the US Iran and the Cold War *Handbook of Oil Politics* Robert Looney, 2012-01-25 To many oil markets and their linkages to a whole spectrum of events remain something of a mystery Unfortunately most of the easily obtained information on oil is deeply flawed Whole web conspiracy sites depict ruthless insiders and reckless dictators manipulating energy markets at will The 30 essays in this volume written by the leading experts in the field attempt to set the record straight While their assessments may lack the sensationalism of many popular pundits serious readers will find their insights invaluable in the years to come in providing a framework for understanding many of the events of the day The five sections Politics of Oil Supply Political Responses Regional Dimensions Country Case Studies and Key Issues for the Future give a comprehensive overview of the politics of oil world wide *The Oxford Companion to Politics of the World* Joel Krieger, 2001-08-02 The world has seen dramatic changes since the publication of the first edition of The Oxford Companion to Politics of the World in 1993 In the post Cold War world globalization now offers wealth and opportunities on a broader

scale as well as greater international harmony but threatens to reinforce the advantage gap between wealthy and poor regions and intensify environmental degradation Conflict and squalor expressed in brutal brushfire wars epidemics and chronic underdevelopment vie with equally dramatic accounts of growth and democracy associated with a liberal political order and the global diffusion of trade investment and communications Drawing on the breadth of the first edition this updated edition reflects the changing world with a reassessment of many of the core themes of the Companion and new articles on the people concepts and events that have shaped the world since 1993 The second edition includes biographies of Kofi Annan Tony Blair Bill Clinton and Gerhard Schröder articles on events such as the Rwandan Genocide and the war in Kosovo and coverage of international trade developments such as NAFTA and the World Trade Organization Eighty seven of the 672 articles in the Second Edition are completely new most others are thoroughly revised This edition also features a substantial new set of articles a dozen essays on critical issues written by influential figures Recognizing the importance of including varying viewpoints the editors have commissioned these essays to provide an informed and often passionate debate on controversial topics Discussions include Lani Guinier and Glenn Loury on Affirmative Action Francis Fukuyama and Milton Fisk on the Limits of Liberal Democracy and Lloyd Axworthy and John Bolton on the United Nations The contributors discuss nearly every nation in the world including extensive information on institutions political parties leaders and the sources of political mobilization and conflict The volume also includes biographies of more than seventy five political leaders and thinkers who have shaped the contemporary political world Articles include detailed discussions of critical historical developments and events concepts international law and organizations The Oxford Companion to Politics of the World Second Edition is an accessible timely thought provoking and comprehensive reference that captures the complexity and vitality of contemporary world affairs

The international politics of the Middle East Raymond Hinnebusch, 2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license This text aims to fill a gap in the field of Middle Eastern political studies by combining international relations theory with concrete case studies It begins with an overview of the rules and features of the Middle East regional system the arena in which the local states including Egypt Turkey Iran Israel and the Arab states of Syria Jordan and Iraq operate The book goes on to analyse foreign policy making in key states illustrating how systemic determinants constrain this policy making and how these constraints are dealt with in distinctive ways depending on the particular domestic features of the individual states Finally it goes on to look at the outcomes of state policies by examining several major conflicts including the Arab Israeli conflict and the Gulf War and the system of regional alignment The study assesses the impact of international penetration in the region including the historic reasons behind the formation of the regional state system It also analyses the continued role of external great powers such as the United States and the former Soviet Union and explains the process by which the region has become incorporated into the global capitalist market

Oil and Gas Privatisation in Iran Reza Molavi, 2012 The book explores

the potential for the privatization of some of Iran's national institutions in particular whether there is the political will to privatize the Iranian oil and gas industry This work presents an historical overview of Iran since World War II in order to build a context for the determinants of privatisation policy in Iran Energy Politics Brenda Shaffer, 2011-06-03 It is not uncommon to hear states and their leaders criticized for mixing oil and politics The U S led Iraq War was criticized as a war for oil When energy exporters overtly use energy as a tool to promote their foreign policy goals Europe and the United States regularly decry the use of energy as a weapon rather than accept it as a standard and legitimate tool of diplomacy In Energy Politics Brenda Shaffer argues that energy and politics are intrinsically linked Modern life from production of goods to means of travel and entertainment to methods of waging war is heavily dependent on access to energy A country's ability to acquire and use energy supplies crucially determines the state of its economy its national security and the quality and sustainability of its environment Energy supply can serve as a basis for regional cooperation but at the same time can serve as a source of conflict among energy seekers and between producers and consumers Shaffer provides a broad introduction to the ways in which energy affects domestic and regional political developments and foreign policy While previous scholarship has focused primarily on the politics surrounding oil Shaffer broadens her scope to include the increasingly important role of natural gas and alternative energy sources as well as emerging concerns such as climate change the global energy divide and the coordinated international policy making required to combat them Energy Politics concludes with examinations of how politics and energy interact in six of the world's largest producers and consumers of energy Russia Europe the United States China Iran and Saudi Arabia
