*The Cambridge Introduction to Literature and the Environment* Timothy Clark,2011-01-06 The degrading environment of the planet is something that touches everyone This 2011 book offers an introductory overview of literary and cultural criticism that concerns environmental crisis in some form Both as a way of reading texts and as a theoretical approach to culture more generally ecocriticism is a varied and fast changing set of practices which challenges inherited thinking and practice in the reading of literature and culture This introduction defines what ecocriticism is its methods arguments and concepts and will enable students to look at texts in a wholly new way Boxed sections explain key critical terms and contemporary debates in the field with hands on examples and comparisons Timothy Clark s thoughtful approach makes this an ideal first encounter with environmental readings of literature

Rawls and the Environmental Crisis Dominic Welburn,2016-12-08 The liberal political theorist John Rawls despite remaining largely silent on green concerns was writing during a time of increasing awareness that the ecological stability of the earth is being compromised by human activity Rawls s reluctance to engage with such concerns however has not stopped several scholars attempting to extend or expand his works to incorporate this newfound fear for the ecosystems that support human life But why Rawls What is to be gained from developing the ideas of a theorist whose primary aim was to establish a system of justice for contemporaneous rational and reasonable citizens of a liberal polity This research monograph offers a critical consideration of the contextual framework within John Rawls s Political Liberalism and considers its compatibility with the conceptual process of greening Rawls and the Environmental Crisis argues that Rawls s perceived neutrality on green concerns is representative of a widespread societal indifference to environmental degradation and describes the plurality of methodological and ethical approaches undertaken by green political theorists in analyzing the contribution Rawls s theory makes to environmental concerns Addressing a series of key debates within contemporary

political philosophy regarding a wider frustration with liberal theory in general Rawls and the Environmental Crisis will be of great interest to researchers in contemporary political philosophy environmental ethics green political theory stewardship theory and those interested in renewing existing conceptions of deliberative democracy      **Reading Contemporary**

**Environmental Justice** R. Sreejith Varma,2023-07-14 This volume investigates 11 contemporary environmental justice narratives from Kerala the south western state in India Introducing a detailed review of environmental literature in Malayalam the selected eco narratives are presented through two key literary genres life narratives and novels conveying the socio environmental pressures problems and anxieties of modern globalising Kerala This text also entails primary investigations of toxic fictions and extractivist fictions including Malayalam novels that narrate the disastrous consequences of the permeation of toxic pollutants in human and ecosystemic bodies and novels that chronicle the impact of exploitative mining activities on the environment All eco narratives analysed in the book exhibit the familiar pattern of the Global South environmental narratives namely a close imbrication of the ecological and social spheres Reading Contemporary Environmental Justice argues that these selected eco texts offer inspiring scenarios where the subaltern people show thantedam or courage to claim thante idam one s own space in society and on the Earth This volume will be essential for those looking to expand their understanding of environmental justice and the harmful effects of development and modernisation      Explorations in Environmental Political Theory Joel Jay Kassiola,2015-03-04 The contributors to this

volume focus on the political and value issues that in their shared view underlie the global environmental crisis facing us today They argue that only by transforming our dominant values social institutions and way of living can we avoid ecological disaster      *Environment and Social Theory* John Barry,2007-01-24 This thematic rather than theorist centred approach is an

essential guide to the way in which the environment and social theory relate to one another including examinations of the works of the key theorists including Marx Mill Habermas and Adorno      *Environmental Politics* Robert Garner,Lyn Jaggard,2011-08-17 The impact of the environment in general and climate change in particular is now entrenched as a key political concern The comprehensively revised third edition of this popular text provides an accessible concise and international introduction to the politics of the environment in theory and practice at both the national and global level

*Risk, Environment and Modernity* Scott Lash,Bronislaw Szerszynski,Brian Wynne,1996-04-05 This wide ranging and accessible contribution to the study of risk ecology and environment helps us to understand the politics of ecology and the place of social theory in making sense of environmental issues The book provides insights into the complex dynamics of change in risk societies      **Developing The Environment** C Barrow,2014-09-19 This book presents a comprehensive

overview of global environmental problems past present and future examining their roots and implications and suggesting where possible ways in which they might be mitigated or avoided by careful management      *Governmental Response to Environmental Challenges in Global Perspective* Joseph G. Jabbra,O. P. Dwivedi,1998 In our drive to improve human

standards of living we have paradoxically paid scant attention to the need for clean air and water the impact of acid rain on agriculture lakes and rivers the effect of pollutants on the ozone layer the safe disposal of hazardous wastes and the relationship between population growth and the environment It seems that every time governments are faced with an apparent choice between economic development and the protection of the environment priority is always given to the former Short term plans dictated by canons of political survival and expediency always seem to take precedence over long term strategies with politicians and decision makers deftly relegating environmental concerns to the realm of rhetoric This book is an effort to better understand the problems faced by our global ecosystems It is also the result of the authors deep commitment to urge both citizens and their leaders the world over to work together for a better protection of the environment so that our planet may be saved for the present and for future generations
