Politics And Government Contributions Of Women:

Women's Political Participation and Representation in Asia Kazuki Iwanaga, 2008 The ability of a small elite of highly educated upper class Asian women to obtain the highest political positions in their country is unmatched elsewhere in the world and deserves study But there is a marked lack of relevant research as well as of comprehensive and user friendly texts Aiming to fill the gap is this timely and important study of the various obstacles and opportunities for women s political participation and representation in Asia *The Role of Female Leaders in Achieving the Sustainable Development Goals* Justin, Mercia Selva Malar, Thorat, Joycia, 2024-05-13 The world is in a race against time to achieve the United Nations Sustainable Development Goals UN SDGs by 2030 Despite global efforts to address these ambitious goals progress remains uneven and significant gaps persist Women are often underrepresented and underutilized in leadership positions yet they possess untapped potential to be formidable forces of change The Role of Female Leaders in Achieving the Sustainable Development Goals is an exploration into the role of female leaders in overcoming the challenges that hinder the realization of the UN SDGs It makes clear that the reality of achieving these goals requires a seismic shift in leadership dynamics with women at the forefront of this transformative journey The Role of Female Leaders in Achieving the Sustainable Development Goals introduces readers to a diverse array of women leaders who have been instrumental in driving progress towards the UN SDGs Their stories serve as sources of inspiration for academics corporate executives non governmental organization NGO leaders and government officials showcasing the tangible impact women can have when given the opportunity to lead The book is a call to action urging women to step into leadership roles across academia corporations civil society and government thereby expediting the achievement of the United Nations development goals **Women and Men in Political and Business Elites** Mino Vianello, Gwen Moore, 2004-09-18 Awarded the Descartes Prize 2004 of the European Commission How do gender inequalities translate at the top of politics and business Is the gender gap eliminated for the most influential players in industrial democratic society This informed and compelling analysis examines the demographic characteristics family circumstances and career paths of a group of elite women The book is noteworthy for being one of the first empirically based studies of women elites Drawing on a sample from no less than 27 countries a convincing and highly original picture is constructed that informs readers of career paths values social networks and gender battles for women elites Co ordinated by Mino Vianello and Gwen Moore the research fills in a huge gap about how power actually operates in industrial democratic societies It enables us to test the view that substantial equality between the sexes has been achieved in the twenty first century It constitutes a landmark work both in the study of gender difference and the analysis of power The findings will be of interest to academics and advanced students in a wide range of disciplines including stratification globalization political science international relations gender sociology organizational studies and much more **Women Officeholders and the Role Models Who Pioneered the Way** Karen Owen, 2016-12-12 Recent electoral seasons in American politics demonstrate

women's keen interest involvement and influence as candidates and officeholders Women possess political ambition albeit in varying degrees and as such women seek opportunities to be politically engaged and affect America's representative institutions This book analyzes why American women run for political office and explores how political role models identified as publicly elected officials and or those who have served in the political arena have greatly motivated women to run for higher political office including seats in the U S Congress and state governorships Evidence from personal interviews with ten congresswomen and fifty five female state legislators reveals the ambitious nature of female politicians the encouragement of political factors in their decisions to advance in politics and their perceived responsibility to be role models to other women Moreover in studying thirty five years of elections data I find substantial support for how female political role models influence female state legislators candidacies and electoral outcomes to higher office This work highlights the importance of women as symbolic representatives female politicians are instrumental in emboldening a new generation of women to engage in politics Role models in politics indeed have a purpose and an influential nature

Promoting Gender Equality in Political Participation Damilola Taiye Agbalajobi, 2021-03-17 This book analyses patterns of women's political participation and evaluates disparity between levels of women's participation in politics and representation in governance in Nigeria It also examines the causes of women's underrepresentation in governance and decision making as well as their implications for the country's socioeconomic development and describes strategies for increased women's representation in governance and decision making in Nigeria This study relies on political culture and liberal feminist theory and adopts a mixed method research design involving quantitative and qualitative methods It uses multistage sampling in selecting Nigeria's South East North West and South West geopolitical zones and 1206 women of electoral age for the study survey conducted using structured questionnaire and in depth interview *Insights Into Gender Equity, Equality and Power Relations in Sub-saharan Africa* Mansah Prah, 2013 Since gender entered the development discourse in the Seventies African countries have increasingly taken the concept on board in policy and practice This concern may be due to either one or a combination of the following factors the ideological positioning of African countries demands by their donors and development partners and demands by organised local groups and NGOs Gender in the development discourse ought to transform power relations between men and women and shift them to social relations that reflect their equal access to productive resources opportunities and social and material benefits The result of such actions should be an achievement of comparable status of women and men This volume initiated by OSSREA seeks to examine in more depth issues regarding the gender power imbalance in sub Saharan African countries with a specific focus on the eastern and southern African regions The chapters in this book present research that examines and analyses the effectiveness and efficiency of gender mainstreaming policies strategies and projects developed and implemented by national and international actors The themes inter weave with each other although they address gender issues in specific countries and specific

contexts This can be explained by the shared colonial and post colonial heritage of African countries It is useful therefore to view the structure of the book as a spiral of inter connected issues that address similar themes approaching them from different levels Purely for ease of reading the contributions have been organised into three parts with over arching themes that at first glance may seem not to fit well together A theme that runs through all the chapters is the persistence of patriarchal values and attitudes in Africa and its constraining effect on the achievement of gender equity and equality

Recognizing Women's Leadership Tiffani Lennon, 2014-08-26 According to recent data on women leaders across all major sectors in the United States women are outperforming men but earning less and still hitting the glass ceiling This book uncovers the best practices to remedy these inequities optimize performance and benefit both genders In compiling and analyzing 2011 2012 data on women leaders across all major sectors in the United States author Tiffani Lennon JD uncovered proof that women are outperforming men yet salaries and positional leadership roles are disproportionate to the performance and accomplishments of women in nearly all sectors Recognizing Women's Leadership Strategies and Best Practices for Employing Excellence presents a comprehensive look at agencies and organizations with the smallest pay gap and the largest percentage of female positional leaders to reveal best practices and strategies that ensure gender parity and optimal business performance including impact revenue and efficacy The study examined in this book included approximately 1 500 for profit companies not for profit businesses and other organizations and associations throughout the country to establish the number of women leaders among the top echelon in each industry Researchers also calculated leadership performance by identifying the frequency with which women received industry distinctions and awards were top revenue generators and achieved best sellers list status among other sector specific criteria The ramifications of the study's findings portend the future of the United States as a global competitor and as such need to be part of the public discourse surrounding the state of the American economy *The Politics of Women's Education* Jill Ker Conway, Susan Carolyn Bourque, 1993 Third World women and men discuss efforts to improve the position of women through education

Women's Roles in Sub-Saharan Africa Toyin Falola, Nana Akua Amponsah, 2012-01-06 This exhaustive exploration of the sociocultural political and economic roles of African women through history demonstrates how African women have shaped and continue to shape their societies Women play essential critical roles in every society African women south of the Sahara are certainly no different Women's Roles in Sub-Saharan Africa adds significantly to our understanding of the ways in which women contribute to the fabric of human civilization This book provides an in depth exploration of African women's roles in society from precolonial periods to the contemporary era Topical sections describe the roles that women play in family courtship and marriage religion work literature and arts and government Each of the six chapters has been structured to elucidate women's roles and functions in society as partners as active participants as defenders of their status and occupations and as agents of change Authors Nana Akua Amponsah and Toyin Falola present a thought provoking work that looks at the complicated victimhood powerful

female paradigm in women and gender studies in Africa and challenge ideological interest in African historiography that privilege male representation

The Oxford Handbook of Governance and Limited Statehood Thomas Risse, Tanja A. Börzel, Anke Draude, 2018. Unpacking the major debates, this Oxford Handbook brings together leading authors of the field to provide a state of the art guide to governance in areas of limited statehood where state authorities lack the capacity to implement and enforce central decision and or to uphold the monopoly over the means of violence. While areas of limited statehood can be found everywhere, not just in the global South, they are neither ungoverned nor ungovernable. Rather, a variety of actors maintain public order and safety as well as provide public goods and services. While external state governors and their interventions in the global South have received special scholarly attention, various non-state actors from NGOs to business to violent armed groups have emerged that also engage in governance. This evidence holds for diverse policy fields and historical cases. The Handbook gives a comprehensive picture of the varieties of governance in areas of limited statehood from interdisciplinary perspectives including political science, geography, history, law, and economics. 29 chapters review the academic scholarship and explore the conditions of effective and legitimate governance in areas of limited statehood as well as its implications for world politics in the twenty-first century. The authors examine theoretical and methodological approaches as well as historical and spatial dimensions of areas of limited statehood and deal with the various governors as well as their modes of governance. They cover a variety of issue areas and explore the implications for the international legal order, for normative theory, and for policies toward areas of limited statehood.

Revisioning The Political Nancy J. Hirschmann, 2018-03-05. Feminist scholars have been remaking the landscape in political theory, and in this important book, some of the most important feminist political theorists provide reconstructions of those concepts most central to the tradition of political philosophy. The goal is nothing less than the construction of a blueprint for a positive feminist theory. Many of these papers are completely new; others are extensions of important earlier work; two are reprints of classic papers. The result is a progress report on the continuing feminist project to re-envision traditional political theory. As such, it constitutes essential reading not only for feminist thinkers but also for traditional philosophers and political theorists who will need to come to terms with these contemporary critiques and re-readings.
