Politics And The New Humanism:

Modern Indian Political Thought Bidyut Chakrabarty, Rajendra K. Pandey, 2023-09-29 This book is an unconventional articulation of the political thinking in India in a refreshingly creative manner in more than one way Empirically the book becomes innovative by providing an analytically more grasping contextual interpretation of Indian political thought that evolved during the nationalist struggle against colonialism Insightfully it attempts to unearth the hitherto unexplored yet vital subaltern strands of political thinking in India as manifested through the mode of numerous significant socio economic movements operating side by side and sometimes as part of the mainstream nationalist movement This book articulates the main currents of Indian political thought by locating the text and themes of the thinkers within the socio economic and politico cultural contexts in which such ideas were conceptualised and articulated The book also tries to analytically grasp the influences of the various British constitutional devices that appeared as the responses of the colonial government to redress the genuine socio economic grievances of the various sections of Indian society The book breaks new ground in not only articulating the main currents of Indian political thought in an analytically more sound approach of context driven discussion but also provokes new research in the field by charting a new course in grasping and articulating the political thought in India This volume will be useful to the students researchers and faculty working in the fields of political science political sociology political economy and post colonial contemporary Indian politics in particular It will also be an invaluable and interesting reading for those interested in South Asian studies

Frantz Fanon and the Future of Cultural Politics Anthony C. Alessandrini, 2014-07-01 This book focuses on a reading of Frantz Fanon's work and life asking how the work of a revolutionary writer such as Fanon might be best appropriated for contemporary political and cultural issues Separate chapters introduce Fanon's life and examine the question of Fanon as our contemporary review the field of Fanon studies that has grown up around his work bring Fanon into conversation with the critical contemporary figures Edward Said Michel Foucault Jamaica Kincaid and Paul Gilroy and turn to Fanon's work to think through the contemporary popular uprisings that have come to be known as the Arab Spring The book concludes by arguing that a reevaluation of Fanon's life and work can provide us with a particular set of lessons about solidarity lessons that are crucial for the contemporary political struggles that face us today and that will continue to confront us in the future Finding Something Different Frantz Fanon and the Future of Cultural Politics is inspired by Fanon's unsparing struggle against the depredations of racism and colonialism and his lifelong commitment to finding something different

The Battle of the Classics Eric Adler, 2020-09-04 These are troubling days for the humanities In response a recent proliferation of works defending the humanities has emerged But taken together what are these works really saying and how persuasive do they prove The Battle of the Classics demonstrates the crucial downsides of contemporary apologetics for the humanities and presents in its place a historically informed case for a different approach to rescuing the humanistic disciplines in higher education It reopens the passionate debates about

the classics that took place in late nineteenth and early twentieth century America as a springboard for crafting a novel foundation for the humanistic tradition Eric Adler demonstrates that current defenses of the humanities rely on the humanistic disciplines as inculcators of certain poorly defined skills such as critical thinking It criticizes this conventional approach contending that humanists cannot hope to save their disciplines without arguing in favor of particular humanities content As the uninspired defenses of the classical humanities in the late nineteenth century prove instrumental apologetics are bound to fail All the same the book shows that proponents of the Great Books favor a curriculum that is too intellectually narrow for the twenty first century The Battle of the Classics thus lays out a substance based approach to undergraduate education that will revive the humanities even as it steers clear of overreliance on the Western canon The book envisions a global humanities based on the examination of masterworks from manifold cultures as the heart of an intellectually and morally sound education

Bergoffen, 2013-03-01 Rape traditionally a spoil of war became a weapon of war in the ethnic cleansing campaign in Bosnia The ICTY Kunarac court responded by transforming wartime rape from an ignored crime into a crime against humanity In its judgment the court argued that the rapists violated the Muslim women's right to sexual self determination Announcing this right to sexual integrity the court transformed women's vulnerability from an invitation to abuse into a mark of human dignity This close reading of the trial guided by the phenomenological themes of the lived body and ambiguity feminist critiques of the autonomous subject and the liberal sexual social contract critical legal theory assessments of human rights law and institutions and psychoanalytic analyses of the politics of desire argues that the court by validating women's epistemic authority their right to establish the meaning of their experience of rape and affirming the dignity of the vulnerable body thereby dethroning the autonomous body as the embodiment of dignity shows us that human rights instruments can be used to combat the epidemic of wartime rape if they are read as de-legitimizing the authority of the masculine autonomous subject and the gender codes it anchors **Political Phenomenology** Hwa Yol Jung, Lester Embree, 2016-06-13 This volume presents political phenomenology as a new specialty in western philosophical and political thought that is post classical post Machiavellian and post behavioral It draws on history and sets the agenda for future explorations of political issues It discloses crossroads between ethics and politics and explores border crossing issues All the essays in this volume challenge existing ideas of politics significantly As such they open new ways for further explorations BY future generations of phenomenologists and non phenomenologists alike Moreover the comprehensive chronological bibliography is unprecedented and provides not only an excellent picture of what phenomenologists have already done but also a guide for the future , **Scribner's Monthly, an Illustrated Magazine for the People** , 1924 **The Century** , 1924
