The Politics of Canada's Airlines from Diefenbaker to Mulroney Garth Stevenson, 1987 **Canadian History:**

Confederation to the present Martin Brook Taylor, Doug O'ram, 1994-01-01 In these two volumes which replace the Reader's Guide to Canadian History experts provide a select and critical guide to historical writing about pre and post Confederation Canada with an emphasis on the most recent scholarship Cover *Canadian Multimodal Transport Policy and Governance* G. Bruce Doern, John Coleman, Barry E. Prentice, 2019-05-09 Given its geographical expanse Canada has always faced long term transport policy issues and challenges Canadian Multi Modal Transport Policy and Governance explains how and why Canadian transportation policy and related governance changed from the Pierre Trudeau era through the Chretien Martin Mulroney Harper and Justin Trudeau eras With particular attention paid to the diversity and ongoing evolution of transportation policy since the 1960s the broad distribution of regulatory authority across different levels of government and the politicization of regulatory regimes and investment decisions since the 1970s Doern Coleman and Prentice attempt to answer three critical questions How and to what extent have policy and governance changed over the decades Where has transport policy resided in federal policy agendas And is Canada developing the policies institutions and capacities it needs to have a socio economically viable and technologically advanced transportation system for the medium and long term A sweeping history of transportation policy in Canada that fills a gap in the existing literature Canadian Multi Modal Transport Policy and Governance concludes that transportation has been subordinate to other federal goals and priorities delaying and eroding transport systems into the twenty first century **Drifting Together** John N. Parties Long Estranged Margaret MacMillan, Francine McKenzie, 2003 This book brings together recent and original work to illuminate comparisons and contrasts between two former colonies of the British Empire The contributors include some of the top names in history and political science in Canada and Australia They cover the entire twentieth century and examine different aspects of Canadian Australian relations including trade civil aviation and military constitutional imperial and diplomatic relations The comparisons include Aboriginal rights nation building middle powers and attitudes toward the Empire This timely volume is well situated in the field of comparative studies a new and growing area It will be of interest to students and scholars of foreign affairs the British Commonwealth and its dismantling constitutional history and international relations *The State, Business, and Industrial Change in Canada* Michael M. Atkinson, William D. Coleman, 1989-12-15 The late twentieth century has seen profound changes in the character of the international economic order According to the authors of this study Canada has failed to come to terms with those changes Our industrial policy is diffuse ad hoc and sectoral Michael Atkinson and William Coleman argue that in order to analyse Canada's industrial policy effectively particular attention must be given to industry organization state structures and systems of interest intermediation at the

sectoral level To make such an analysis they introduce the concept of policy network and apply it to three types of industrial sectors the research intensive sectors of telecommunications manufacturing and pharmaceuticals the rapidly changing sectors of petrochemicals and meat processing and the contracting and troubled sectors of textiles clothing and dairy processing Through the lens of these sectors Coleman and Atkinson shed considerable light on the intersection of political considerations and policy development and offer a new base on which to move forward in planning for economic growth

Rules and Unruliness G. Bruce Doern, Michael J. Prince, Richard J. Schultz, 2014-04-01 A critical examination of Canadian regulatory governance and politics over the past fifty years Rules and Unruliness builds on the theory and practice of rule making to show why government unruliness the inability to form rules and implement structures for compliance is endemic and increasing Analyzing regulatory politics and governance in Canada from the beginning of Pierre Trudeau's era to Stephen Harper's government the authors present a compelling argument that current regulation of the economy business and markets are no longer adequate to protect Canadians They examine rules embedded in public spending programs and rules regarding political parties and parliamentary government They also look at regulatory capitalism to elucidate how Canada and most other advanced economies can be characterized by co governance and co regulation between governments corporations and business interest groups Bringing together literature on public policy regulation and democracy Rules and Unruliness is the first major study to show how and why increasing unruliness affects not only the regulation of economic affairs but also the social welfare state law and order parliamentary democracy and the changing face of global capitalism

Speedbird Robin Higham, 2013-05-30 Between 1939 and 1946 BOAC the British Overseas Airways Corporation was the nationalised airline of Great Britain and between 1946 and 1974 as such it exclusively operated all long haul British flights With its iconic Speedbird logo and its central role in the glamorous jet age of the 1950s and 1960s BOAC achieved a near cult status with admirers around the globe Yet to date there has been no comprehensive history of the organisation covering its structure fleet and the role it played in the critical events of the age from World War II to the end of empire a period when BOAC played a pivotal part in projecting British political power even as that power was waning During World War II BOAC operated a limited wartime service and prepared for the return of commercial flight in the postwar era But it was in the service of Britain's colonies and latterly the process of decolonisation that BOAC achieved its most pivotal role The development of flight technology enabled much faster connections between Britain and her imperial possessions as the colonies prepared for independence BOAC ferried diplomats politicians and colonial administrators between London and the far flung corners of Africa and Asia in much faster times than had previously been possible In this book acclaimed historian Robin Higham presents a unique comprehensive study of BOAC from the early jet travel of the de Havilland Comet and the Vickers VC10 to the dawn of supersonic passenger aviation Highly illustrated and meticulously researched using previously unseen sources this book will be essential reading for all aviation enthusiasts and anyone interested in the history of modern

Work in Tumultuous Times Vivian Shalla, Wallace Clement, 2007-03-12 Using a progressive approach to political economy contributors propose alternative policies and practices that might secure more decent livelihoods for workers and their families **Introducing Canada** Brian Gobbett, Robert Irwin, 1998-04-30 In addition to presenting brief descriptions of more than 1 000 historical monographs dealing with Canada the bibliography introduces the reader to several historiographic debates and places key works within that context Populism and Democratic Thought in the Canadian Prairies, 1910 to 1945 David H. Laycock, 1990 **Women's Work, Markets and Economic Development in Nineteenth-Century Ontario** Marjorie Griffin Cohen, 1988-12-15 Cohen focuses on the productive relations in the family and the significance of women's labour to the process of capital accumulation in both the capitalist sphere and independent commodity production In this study Marjorie Griffin Cohen argues that in research into Ontario's economic history the emphasis on market activity has obscured the most prevalent type of productive relations in the staple exporting economy the patriarchal relations of production within the family economy Cohen focuses on the productive relations in the family and

the significance of women's labour to the process of capital accumulation in both the capitalist sphere and independent commodity production. She shows that while the family economy was based on the mutual dependence of male and female labour, there was not equality in productive relations. The male ownership of capital in the context of the family economy had significant implications for the control over female labour. Among countries which experience industrial development, there are common patterns in the impact of change on women's work; there are also significant differences. One of the most important of these is the fact that economic development did not result in women's labour being withdrawn from the social sphere of production. Rather, economic growth has steadily brought women's productive efforts more directly into the market sphere. In exploring the roots of this development, Cohen adds a new dimension to the study of women's labour history.

Grands projets et innovations technologiques au Canada Kevin Fitzgibbons, Olga Bosak, 1999. L'innovation technologique a une histoire. Elle ne surgit pas tout armée du cerveau d'un inventeur de génie, non plus qu'elle ne naît spontanément d'un besoin pressant du marché. Loin des explications simplistes, par l'offre et la demande, il faut plutôt chercher à comprendre l'innovation par l'organisation qui tente de la susciter. Dans ce contexte, l'innovation technologique apparaît paradoxalement comme une affaire de gestionnaires, surtout quand elle requiert la mise en œuvre de grands projets qui impliquent des ressources si considérables que seules des sociétés d'état ou des grandes entreprises peuvent les engager. Philippe Faucher, Kevin Fitzgibbons et Olga Bosak dressent ici un bilan des plus ambitieuses tentatives d'innovation technologique au Canada dans la seconde moitié du XX^e siècle. Avec leurs collaborateurs, ils racontent l'histoire des centrales hydroélectriques de Manicouagan, Outardes et de La Grande, des réacteurs nucléaires CANDU, du chasseur Arrow, du moteur d'avion PT6 et du jet d'affaires Challenger, des équipements de télécommunication mis au point par Northern Telecom et du satellite de communication Hermès. Ils exposent les conflits internes et les arbitrages, les tonnancements et les initiatives risquées, bref la dynamique institutionnelle des sociétés qui ont pris en charge ces grands projets. Ce livre permet ainsi d'expliquer leurs résultats variables, qui vont de l'abandon pur et simple des succès éclatants sur la scène internationale et il montre la diversité des arrangements organisationnels qui permettent de gérer au mieux le risque technologique. Inside Politics L. Ian MacDonald, 2018-03-21. If journalism is the first draft of history, it's equally important to see how the work stands the test of time. If the writing isn't prescient and perspicacious, it doesn't meet that test. This collection of columns and articles by L. Ian MacDonald is a sequel to *Politics People*. Potpourri meets that test. Much has happened in the politics of

Canada and Quebec as well as to the leaders who have defined and shaped the first two decades of the twenty first century since the first collection was published in 2009 The successful election campaigns of Harper and Trudeau form the political bookends of the present decade in Canada and the opening chapters of the book Between these governments there are the events personalities and issues that have shaped the political narrative and policy debate from fiscal frameworks to clean energy and pipelines from the Senate expense scandal and democratic reform to national security at home and the mission against ISIS abroad In his columns and longer pieces from Policy Options and Policy magazines MacDonald provides clear minded commentary on political issues salient to all Canadians including the election of Donald Trump in the United States He also profiles a diverse group of political figures and writes moving tributes to departed nationally respected figures such as Jean B liveau Jim Flaherty Jack Layton and Tom Van Dusen This intelligent and entertaining collection presents MacDonald at his best and offers a captivating view of Canadian politics and life
