Politics Of Democratization In Hong Kong:

The Politics of Democratization in Hong Kong Lo Shiu-hing, 2016-07-27 An analysis of the politics of transition in Hong Kong focusing on the tug of war between China and Britain on democratization and on the interactions between the increasingly politically active people of Hong Kong and the democratizing colonial regime The successes and failures of British policy since 1984 and the missed opportunities to democratize faster prior to Governor Patten's appointment in 1992 are examined *The Politics of Democratization in Hong Kong* Shiu Hing Lo, 1997 *The Politics Of Democratization* Edward Friedman, 2019-06-26 This collection explores democratic transitions in East Asia arguing against the standard wisdom that European or Christian value systems and socioeconomic forces are essential for democracy to succeed Instead the contributors convincingly illustrate that political institutions which can be built anywhere by skilled coalitions have the most profound and lasting influence on a stable democratic system Indeed the East Asian experience reveals truths about Western democratization that are obscured by popular Western mythologies This partnership of U S and Asian scholars has given us the first systematic effort to bring East Asia into the democratization debate in a way that compels one to rethink the politics of democratization everywhere The book therefore is a crucial contribution for all those interested in the broader issues of transition *Hong Kong's Tortuous Democratization* Ming Sing, 2004 This book raises interesting questions about the process of democratization in Hong Kong It asks why democracy has been so long delayed when Hong Kong's level of socio economic development has become so high It relates democratization in Hong Kong to wider studies of the democratization process elsewhere and it supplements the received wisdom that democracy was delayed because of colonial rule and by the opposition of China with new thinking for example that its quasi bureaucratic authoritarian political structure vested power in bureaucrats who refused to have top down democratization a politically weak civil society and a non participant political culture that crippled bottom up democratization plus the division between pro democratic civil society and political society *The New Politics of Beijing-Hong Kong Relations* Sonny Shiu-Hing Lo, 2024-05-24 In *The New Politics of Beijing Hong Kong Relations* Sonny Shiu Hing Lo looks at the diverging changes to the ideologies from both Beijing and Hong Kong and the ideological conflicts as taken in the form of factional political struggles between 2012 and the present This book examines the paternalistic authoritarianism that can be seen in Beijing's policy toward Hong Kong since the promulgation of the national security law in late June 2020 Lo analyzes the ideological shift from liberal nationalism to conservative nationalism in mainland China which has taken place since late 2012 The increasingly radical localism in Hong Kong after 2014 transformed Beijing Hong Kong relations into a conflict ridden situation characterized by factional struggles While the imposition of the national security law into Hong Kong since late June 2020 has stabilized the city politically Beijing's policy toward Hong Kong is now guided by the principles of protecting its national security and maintaining economic pragmatism with implications for Beijing's relations with Taipei in the coming years Professor Lo's detailed and granular

account of the clash between rising conservative nationalism in China and growing localist sentiment in Hong Kong offers an indispensable guide to the events and forces that culminate in the imposition of the national security law in 2020 This is an important contribution by a leading scholar and deserves a wide readership Victor Falkenheim University of Toronto Detailed intricate and informed an original and forceful analysis of the ideologies and factional politics that have shaped the recent interactions of Beijing and Hong Kong in the lead up to the 2020 national security law and beyond Paul Evans University of British Columbia Professor Lo strikes an excellently researched balanced but critical perspective sharing blame for the transformation of one country two systems on a na ve radical localist populism in the HKSAR whose actions fed the fears of the Chinese government about threats to China s sovereignty over Hong Kong The resulting national security law replaced Hong Kong s pluralist system with a paternalistic one David Zweig The Hong Kong University of Science and Technology

Politics and Government in Hong Kong Ming Sing,2009 This book examines the government of Hong Kong since its handover to mainland China in 1997 focusing in particular on the anti government mass protests and mobilisations in the years since 2003 It argues that Hong Kong has been poorly governed since transferring to Chinese rule and that public frustration with governmental performance including anti subversion laws and slow democratisation has resulted in the regular and massive protests which have been rare in Hong Kong s past political development The book then assesses different explanations for Hong Kong s government problems including lack of social cohesion incomplete economic restructuring structural budgetary deficit severe social inequality intensifying cronyism and deficiencies within the political system itself It goes on to discuss the implications of poor governance for legislative elections civil society and constitutional development and considers the prospects for the future It argues that although in the short term the Hong Kong government has managed to maintain its popular support ratings in the longer run it is unlikely to be able to maintain its legitimacy in

dealing with the fundamental challenges of government unless the current system is replaced by popular election of the government with appropriate institutional capacity and political powers **The July 1 Protest Rally** Joseph Y. Kong where the overdeveloped politics and assertive civil society are a far cry from Macau's frozen politics and quiescent society

Politics and Change in Singapore and Hong Kong Stephan Ortmann, 2009-12-04 In democratization theory Singapore continues to be a remarkable country for its extremely low level of contentious politics despite rapid economic development In contrast many different groups in Hong Kong have taken their demands to the streets since the 1970s Even though there is an obvious difference in the willingness of the population to actively challenge the regime the political developments of the two city states show a similar pattern of political mobilization and government reaction This book examines the changing pattern of contentious politics in the democratization process of these Asian city states It explores the causal connections between popular contention and democratization using a multi disciplinary approach with theoretical insights from the political sciences sociology and psychology The political process model is applied to provide further understanding of the patterns of interaction between contenders opposition groups or social movements and the ruling elite The book argues that differences in the strategies applied by the ruling elite explain why members of the opposition were empowered or obstructed in challenging the government

Democracy, Intermediation, and Voting on Four Continents Richard Gunther, Jose Ramon Montero, Hans-Jürgen Puhle, 2007-02-08 This book presents the results of systematic comparative analyses of electoral behavior and support for democracy in 13 countries on four continents It is based on national election surveys held in old and new democracies in Europe Germany Britain Spain Greece Italy Portugal Bulgaria North and South America the United States Chile and Uruguay and Asia Hong Kong between 1990 and 2004 It is methodologically innovative notwithstanding the fact that its core concern with political intermediation i e the flow of political information from parties and candidates to voters through the mass communications media membership in secondary associations and direct face to face contacts within interpersonal networks was first introduced to the study of electoral behavior by Paul Lazarsfeld and his collaborators in the 1940s In addition to reviving that long neglected analytical framework this book breaks new ground by systematically exploring the impact of socio political values on electoral behavior It also analyzes the role of political intermediation in forming basic attitudes towards democracy which are crucial for the consolidation of new democracies and in turn channeling those orientations into various forms of political behavior Some of the findings presented in this volume are dramatic and clearly reveal that these channels of information are among the most powerful factors influencing the development of political attitudes and partisan electoral behavior So too are socio political values in some countries particularly the United States This volume is the first book length product of the now 18 country Comparative National Elections Project
