**Disability** Jason Reimer Greig, 2015-11-02 Drawing on the controversial case of Ashley X a girl with severe developmental disabilities who received interventionist medical treatment to limit her growth and keep her body forever small a procedure now known as the Ashley Treatment *Reconsidering Intellectual Disability* explores important questions at the intersection of disability theory Christian moral theology and bioethics What are the biomedical boundaries of acceptable treatment for those not able to give informed consent Who gets to decide when a patient cannot communicate their desires and needs Should we accept the dominance of a form of medicine that identifies those with intellectual impairments as pathological objects in need of the normalizing bodily manipulations of technological medicine In a critical exploration of contemporary disability theory Jason Reimer Greig contends that L Arche a federation of faith communities made up of people with and without intellectual disabilities provides an alternative response to the predominant bioethical worldview that sees disability as a problem to be solved *Reconsidering Intellectual Disability* shows how a focus on Christian theological tradition s moral thinking and practice of friendship with God offers a way to free not only people with intellectual disabilities but all people from the objectifying gaze of modern medicine L Arche draws inspiration from Jesus s solidarity with the least of these and a commitment to Christian friendship that sees people with profound cognitive disabilities not as anomalous objects of pity but

as fellow friends of God This vital act of social recognition opens the way to understanding the disabled not as objects to be fixed but as teachers whose lives can transform others and open a new way of being human     Archive of Restoration Culture ,2005 Papers presented at Brigham Young University s Joseph Fielding smith Institute for Latter day Saint History summer siminars in 2000 2001 and 2002 these papers focus on early Latter day Saint practices in relation to nineteenth century American Culture     Whitaker's Books in Print ,1998     *Jesuits and the Politics of Religious Pluralism in Eighteenth Century Transylvania* Paul Shore,2007 This book tells the story of the Jesuit mission to Cluj Transylvania now Romania from 1693 when the Jesuits were allowed to return after almost a century of restricted activity in the region until 1773 when the order was suppressed Cluj a city where the cultures of Eastern and Western Europe meet represented the furthestmost penetration into Orthodox Europe of the Baroque aesthetic and of the domination of the Habsburgs supported and glorified by the Jesuits The successes and failures of this religious order helped shape the history of the region for the next two centuries     Books in Print ,1991     *The Catholic Church and the Nation-State* Paul Christopher Manuel, Lawrence C. Reardon, Clyde Wilcox, 2006-08-16 Presenting case studies from sixteen countries on five continents The Catholic Church and the Nation State paints a rich portrait of a complex and paradoxical institution whose political role has varied historically and geographically In this integrated and synthetic collection of essays outstanding scholars from the United States and abroad examine religious diplomatic and political actions both admirable and regrettable that shape our world Kenneth R Himes sets the context of the book by brilliantly describing the political influence of the church in the post Vatican II era There are many recent instances the contributors assert where the Church has acted as both a moral authority and a self interested institution in the United States it maintained unpopular moral positions on issues such as contraception and sexuality yet at the same time it sought to cover up its own abuses it was complicit in genocide in Rwanda but played an important role in ending the horrific civil war in Angola and it has alternately embraced and suppressed nationalism by acting as the voice of resistance against communism in Poland whereas in Chile it once supported opposition to Pinochet but now aligns with rightist parties With an in depth exploration of the five primary challenges facing the Church theology and politics secularization the transition from serving as a nationalist voice of opposition questions of justice and accommodation to sometimes hostile civil authorities this book will be of interest to scholars and students in religion and politics as well as Catholic Church clergy and laity By demonstrating how national churches vary considerably in the emphasis of their teachings and in the scope and nature of their political involvement the analyses presented in this volume engender a deeper understanding of the role of the Roman Catholic Church in the world     **Resources in Education** ,1987-04     The Politics of Water in Africa Inga M. Best-selling author Thomas Friedman says that globalization has made the world flat and that we cannot stop the process. But while it is right to say that globalization tends to flatten our world, it is wrong to say that there are no alternatives to current patterns of economic, ecological, political, and cultural integration. This book argues that the Christian liturgical calendar provides a constructive alternative to the globalization of economics, ecologies, politics, and cultures. It does so by incorporating the church into the fullness of time in the gospel narrative, thereby helping us escape from the dead end of Friedman's flat world so that we can improvise healthier ways of being globally integrated. The Role of a Community Chaplain in a Marginalised Urban Community Noah O. Okiror, 2017-12-19. This book presents findings of further research into the concept I started in my previous book, the importance of dying to self and its implications for outreach to unchurched children in isolated communities. It was centered on our Lord Jesus's call for all to deny themselves in order to follow him. If anyone would come after me, he must deny himself and take up his cross daily and follow me. Luke 9:23. God's ways are not our ways. Isaiah 55:8. We have to lose in order to gain. Philippians 3:7-8. We have to lose ourselves in order to find ourselves. Matthew 10:39. We have to die in order to live. John 12:24. And if you want victory, you have to first surrender. Watch the War Room movie. This book delves deeper into the practical aspects of reaching a specific demographic of unchurched children in Jane Finch. International Perspectives on the Role of Technology in Humanizing Higher Education Enakshi Sengupta, Patrick Blessinger, Mandla Makhanya, 2020-11-12. By highlighting the use of emerging technologies in pedagogy and drawing on real-life case studies, the authors in this volume address the ongoing debate that technology brings a positive effect on education and beyond. They demonstrate how technology continues to fulfil the challenges of creating a more democratic educational environment. **The Atlantic**, 1982. Mothers and Food: Negotiating Foodways from Maternal Perspectives Pasche Florence Guignard, 2016-03-01. From multidisciplinary perspectives, this volume explores the roles mothers play in the producing, purchasing, preparing, and serving of food to their own families and to their communities in a variety of contexts. By

examining cultural representations of the relationships between feeding and parenting in diverse media and situations these contributions highlight the tensions in which mothers get entangled They show mothers agency or lack thereof in negotiating the environmental material and economic reality of their feeding care work while upholding other ideals of taste nutrition health and fitness shaped by cultural norms The contributors to Mothers and Food go beyond the normative discourses of health and nutrition experts and beyond the idealistic images that are part of marketing strategies They explore what really drives mothers to maintain or change their family s foodways for better or for worse paying a particular attention to how this shapes their maternal identity Questioning the motto according to which people are what they eat the chapters in this volume show that mothers cannot be categorized simply by how they feed themselves and their family **Kansas Government**
