Politics Of Truth From Marx To Foucault Pb:

PB Handbook for the Study of the Historical Jesus (4 vols) Tom Holmén, Stanley E. Porter, 2010-12-24 A hundred years after A Schweitzer's Von Reimarus zu Wrede the study of the historical Jesus is again experiencing a renaissance. Ongoing since the beginning of the 1980s this renaissance has produced an abundance of Jesus studies that also display a welcome diversity of methods, approaches and hypotheses. The Handbook of the Study of the Historical Jesus is designed to handle this diversity and abundance. Drawing from first class scholarship throughout the world the four large volumes of the Handbook offer a unique assembly of leading experts presenting their approaches to the historical Jesus as well as a thought out compilation of original studies on a large variety of topics pertaining to Jesus research and adjacent areas. The Politics of Truth (Pp. 51-80) (reprint) Michèle Barrett, 1991. **The Politics of Truth** Michèle Barrett, 1991. Barrett locates Gramsci and Althusser as key figures in the breakdown of this model. Gramsci's work presaging the separation of class politics and ideology found in Laclau and Mouffe and Althusser's failing to deliver an adequate approach to subjectivity. Foucault replacing Marxism's economics of untruth with his own politics of truth is examined as an exemplar of post structuralist critiques of ideology. The book ranges over contemporary debates in philosophy, psychoanalysis and literary theory as well as social theory. **Forthcoming Books** Rose Arny, 1999-08. In this book Benjamin Farrand employs an interdisciplinary approach that combines legal analysis with political theory to explore the development of copyright law in the EU. Farrand utilises Foucault's concept of Networks of Power and Culpepper's Quiet Politics to assess the adoption and enforcement of copyright law in the EU including the role of industry representative cross border licensing and judicial approaches to territorial restrictions. Focusing in particular on legislative initiatives concerning copyright digital music and the internet. Networks of Power in Digital Copyright Law and Policy. Political Salience. Expertise and the Legislative Process demonstrates the connection between copyright law and complex network relationships. This book presents an original socio political theoretical

framework for assessing developments in copyright law that will interest researchers and post graduate students of law and politics as well as those more particularly concerned with political theory EU and copyright law **Arts & Humanities**

Citation Index ,2000 Handbook of Constructionist Research James A. Holstein,Jaber F. Gubrium,2013-10-21

Constructionism has become one of the most popular research approaches in the social sciences But until now little attention has been given to the conceptual and methodological underpinnings of the constructionist stance and the remarkable diversity within the field This cutting edge handbook brings together a dazzling array of scholars to review the foundations of constructionist research how it is put into practice in multiple disciplines and where it may be headed in the future The volume critically examines the analytic frameworks strategies of inquiry and methodological choices that together form the mosaic of contemporary constructionism making it an authoritative reference for anyone interested in conducting research in a constructionist vein *The Juridification of Business Ethics* Bart Jansen,2023-08-25

This book provides a theory of the juridification of business ethics Ethical codes pop up everywhere in the business world and increasingly resemble the code of law A focus on compliance rather than reflection becomes the norm Legal perspectives replace ethical perspectives turning ethicists into lawyers without a law degree This juridification of business ethics conceals a diminishing trust in ethics as legal reasoning substitutes philosophical thinking By appealing to the critical study of law Bart Jansen advocates for a renewed focus on the ethical side of business This book shows the importance of a good balance between law and ethics in business and is of great interest to both academics and professionals Disability Bioethics Jackie Leach Scully,2008-08-15 Jackie Leach Scully argues that bioethics cannot avoid the task of considering the moral meaning of disability in humans beyond simply regulating reproductive choices or new areas of biomedical research By focusing on the experiential and empirical reality of impairment and drawing on recent work in disability studies Scully brings new attention to complex ethical questions surrounding disability Impairment is variously considered as a set of social relations and practices as experienced embodiment and as an emancipatory movement as well as a biomedical phenomenon In this way disability is joined to the general late twentieth century trend of attending to difference as a significant and central axis of subjectivity and social life

British Romanticism and the Critique of Political Reason Timothy Michael,2016 Romantic writers responded to the challenges of reform and revolution by rethinking the scope of political reason What role should reason play in the creation of a free and just society Can we claim to know anything in a field as complex as politics And how can the cause of political rationalism be advanced when it is seen as having blood on its hands These are the questions that occupied a group of British poets philosophers and polemicists in the years following the French Revolution Timothy Michael argues that much literature of the period is a trial or a critique of reason in its political capacities and a test of the kinds of knowledge available to it For Wordsworth Coleridge Shelley Burke Wollstonecraft and Godwin the historical sequence of revolution counter revolution and terror in France and radicalism and repression in Britain occasioned a dramatic reassessment of how best to advance the

project of enlightenment The political thought of these figures must be understood Michael contends in the context of their philosophical thought Major poems of the period including The Prelude The Excursion and Prometheus Unbound are in this reading an adjudication of competing political and epistemological claims This book bridges for the first time two traditional pillars of Romantic studies the period s politics and its theories of the mind and knowledge Combining literary and intellectual history it provides an account of British Romanticism in which high rhetoric political prose poetry and poetics converge in a discourse of enlightenment and emancipation

The Ecologist ,1993 *Mind* ,1981 Includes papers of the Aristotelian Society 1896 1900 Nietzsche and Metaphor Sarah Kofman,1993-01-01 This long overdue translation brings to the English speaking world the work that set the tone for the Post structuralist reading of Nietzsche

Censorship Sue Curry Jansen,1988 Sue Curry Jansen here challenges conventional thought with a bold new view that censorship is as much a feature of liberal market societies as it is of totalitarianisms Jansen addresses the notion of market censorship and shows how the marketplace has become an arena for liberal power knowledge She also analyzes Marx s critique of bourgeois censorship examines censorship at various levels of Soviet society and takes an incisive look at economic censorship within our own capitalist nation

The Logic of Innovation Johanna Gibson,2016-03-03 The Logic of Innovation examines not merely the supposed problem of the efficacy and relevance of intellectual property and the nature of innovation and creativity in a digital environment but also the very circumstances of that inquiry itself Social life has itself become a sphere of production but how might that be understood within the cultural and structural transformation of creativity innovation and property Through a highly original interlocutory and therapeutic approach to the issues in play the author addresses the concepts of innovation and the digital by means of an investigation through literature and the imagination of new scenarios for language business and legal reform The book undertakes a complex inquiry into innovation and property through the wonder of Alice s journeys in Wonderland and through the Looking glass The author presents a new theory of familiar production to account for the

kinship that has emerged in both informal and commercial modes of innovation and foregrounds the value of use as crucial to the articulation of intellectual property within contemporary models of production and commercialization in the digital
