*Giambattista Vico and the New Psychological Science* Luca Tateo, 2017-07-05 Giambattista Vico 1668 1744 was an Italian philosopher rhetorician and historian As one of the great thinkers of the Enlightenment he exerted tremendous influence on the social sciences He was the first to stress cultural and linguistic dimensions in the development of both the human mind and social institutions Although his ideas on the relationship between mind and culture and his epistemology have inspired the work of many scholars in psychology his sizeable influence has been scarcely acknowledged The volume is organized in two sections The first locates Vico in his historical context and in the landscape of contemporary human and social sciences The second part presents those of Vico's concepts that seem promising for the development of a new way of looking at psychological phenomena In the book's conclusion Luca Tateo gathers the ideas of the volume's contributors to suggest future development of the psychological

sciences This book aims to show how Vico's insights can inspire future research in the psychological sciences It collects multidisciplinary contributions of leading international scholars that draw upon the thought of this original thinker Collectively the contributors remind us of the legacy and continuing influence of this inspiring historical figure *Cassell Dictionary Italian Literature* Peter Bondanella, Julia Conway Bondanella, Jody Robin Shiffman, 2001-01-01

**Agamben and the Signature of Astrology** Paul Colilli, 2015-10-16 The work of Giorgio Agamben one of the world's most important living philosophers has been the object of much scrutiny Yet there is one dimension of his thought that remains unexamined by scholars the presence of the ancient science of astrology in his writings This book the first of its kind identifies the astrological elements and explains the implications of their usage by Agamben In so doing this study challenges us to imagine Agamben's thought in a radically new light A critical account of the presence of astrology and related themes in Agamben's writings ranging from the earlier works to the more recent publications illustrates that the astrological signature constitutes a mode of philosophical archaeology that allows for an enhanced understanding of concepts that are central to his works such as potentiality the signature bare life and biopolitics
