J. G. Jansen, 1980 **Women, the Koran and International Human Rights Law** Niaz Shah, 2006-11-01 Religion plays a pivotal role in the way women are treated around the world socially and legally This book discusses three Islamic human rights approaches secular non compatible reconciliatory compatible and proposes a contextual interpretive approach It is argued that the current gender discriminatory statutory Islamic laws in Islamic jurisdictions based on the decontextualised interpretation of the Koran can be reformed through Ijtihad independent individual reasoning It is claimed that the original intention of the Koran was to protect the rights of women and raise their status in society not to relegate them to subordination This Koranic intention and spirit may be recaptured through the proposed contextual interpretation which in fact means using an Islamic or insider strategy to achieve gender equality in Muslim states and greater compatibility with international human rights law It discusses the negative impact of the so called statutory Islamic laws of Pakistan on the enjoyment of women s human rights and robustly challenges their Koranic foundation While supporting the international human rights regime this book highlights the challenges to its universality feminism and cultural relativism To achieve universal application genuine voices from different cultures and groups must be accommodated It is argued that the women s human rights regime does not cover all issues of concern to women and has a weak implementation mechanism The book argues for effective implementation procedures to turn women s human rights into reality *The Koran For Dummies* Sohaib Sultan, 2004-06-04 With the current turmoil in the Middle East there is a growing interest about Islam the world s second largest religion and one of the fastest growing and its holy book the Koran or Qur an Now with this easy to follow plain English guide you can explore the history structure and basic tenets of Islam s sacred scripture The Koran For Dummies is for non Muslims interested in the Koran as well as Muslims looking to deepen their understanding Islamic scholar Sohaib Sultan provides a clear road map revealing The meaning of Koran and its basic message The Koran s place in history and in Islamic spiritual life Explanations of its language structure and narrative style How to live by the Koran s teachings The Koran s role in key global issues such as Jihad vs terrorism Different interpretations of the Koran No other book provides such a straightforward look at what the Koran says how it says it and how believers live according to its guidance From how the Koran was received by Mohammed and how it was compiled to how it s interpreted by Islam s two main branches you ll see how to put the Islamic faith in perspective Plus you ll discover What the Koran really says about women and civil law How Islam relates to Judaism and Christianity The Koran s view of God prophets mankind

Z. Obiedat,2022-07-08 This is the first study to compare the philosophical systems of secular scientific philosopher Mario Bunge 1919 2020 and Moroccan Islamic philosopher Taha Abd al Rahman b 1945 In their efforts to establish the philosophical underpinnings of an ideal modernity these two great thinkers speak to the same elements of the human condition despite their opposing secular and religious worldviews While the differences between Bunge s critical realist epistemology and materialist ontology on the one hand and Taha s spiritualist ontology and revelational mystical epistemology on the other are fundamental there is remarkable common ground between their scientific and Islamic versions of humanism Both call for an ethics of prosperity combined with social justice and both criticize postmodernism and religious conservatism The aspiration of this book is to serve as a model for future dialogue between holders of Western and Islamic worldviews in mutual pursuit of modernity s best case scenario **Women in the Qur'an, Traditions, and Interpretation** Barbara Freyer Stowasser,1996-08-22 Islamic ideas about women and their role in society spark considerable debate both in the Western world and in the Islamic world itself Despite the popular attention surrounding Middle Eastern attitudes toward women there has been little systematic study of the statements regarding women in the Qur an Stowasser fills the void with this study on the women of Islamic sacred history By telling their stories in Qur an and interpretation she introduces Islamic doctrine and its past and present socio economic and political applications Stowasser establishes the link between the female figure as cultural symbol and Islamic self perceptions from the beginning to the present time *The Bible the Koran* Rt. Rev. Dr. Daniel D. Rupwate,2020-11-17 His book A Selective Commentary on A Comparative Study of the Bible and the Koran is to explain how Muhammed prepared the Koran for his new religion Islam and to tell without a bias how Muhammed distorted the Bible and

belief of the Biblical Christianity and how he did not confirm the biblical prophets This book will tell Muslims that a Christology of the Koran is radically different from the Biblical Christology An objective of the author is to faithfully or honestly reveal a true nature of the Bible and of the Koran that the people know the truth and the truth will make them free and saved **Public Discussion of the Issues Between the Reorganized Church of Jesus Christ of Latter Day Saints and the Church of Christ (Disciples)** Edmund Levi Kelley,1884 **Methodist Magazine and Quarterly Review** ,1878
