*Pomp* Frederick Taylor, 2004 When reality hits is a self strengthening and relationship guide for women who are just too in love to see past love and just need that push towards reality I can't express enough how we women can become our own enemy in how we are being treated in relationships Where are we going wrong I am sharing stories of how I have been caught up in relationships that gotten me nowhere and just felt the need to express my struggles advise and how it allowed me to become stronger I do not call myself a relationship specialist However I am a woman that has been hurt used and abused by men By the grace of God I have learned a lot along the way which have shaped my woman hood into the woman I am today I am not expressing my experiences to you all for anyone to judge me but more so to learn from my mistakes I decided to name this book When reality hits because I have made the mistake of loving the wrong men I have allowed myself to become too vulnerable I put up with men bullshit out of loneliness and gave too much of myself when most did not even deserve what I had to offer At one point I started to notice I just could not become the woman I needed to be because I was too focus on becoming the woman they needed me to be However when reality had finally hit that's when I became stronger I have written this book not to beat men down or have us women to power trip However to empower you all to start utilizing and committing to the strength God instilled in us and stop looking for love to be our every purpose love can see you through but strength will get you through

imagination leads us to travel the pathways provided by betrayal greed inference and conjecture These building footprints forgotten and left to be covered by sand and time provided the primary evidence of an untold piece of Colorado s story The footprints have been sitting in the sand unrecognized and unheralded even their birth story was unknown Are these relics of the past centuries old or merely decades There was no known current recognition no known builder purpose history or name identity Their history and the story they represent covers more than six states and although just footprints they may have been unique and of major significance for the period They also could signify something to decorate the pages of infamy and betrayal As the trail winds through many states false leads and familiar pioneer names there emerges a sense of historical significance pointing to even more historical associations and questions There is intrigue regarding those involved with what these building footprints represent from life on the prairie to those desiring fame and fortune by spinning their influence from Colorado to Washington DC only to find that today in many aspects this story continues
