Educating the Consumer-citizen Joel Spring,2003-05-14 In *Educating the Consumer Citizen A History of the Marriage of Schools Advertising and Media* Joel Spring charts the rise of consumerism as the dominant American ideology of the 21st century He documents and analyzes how from the early 19th century through the present the combined endeavors of schools advertising and media have led to the creation of a consumerist ideology and ensured its central place in American life and global culture Spring first defines consumerist ideology and consumer citizen and explores their 19th century origins in schools children s literature the commercialization of American cities advertising newspapers and the development of department stores He then traces the rise of consumerist ideology in the 20th century by looking closely at the impact of the home economics profession on the education of women as consumers and the development of an American cuisine based on packaged and processed foods the influence of advertising images of sports heroes cowboys and the clean shaven businessman in shaping male identity the outcomes of the growth of the high school as a mass institution on the development of teenage consumer markets the consequences of commercial radio and television joining with the schools to educate a consumer oriented population so that by the 1950s consumerist images were tied to the Cold War and presented as the American way of life in both media and schools the effects of the civil rights movement on integrating previously excluded groups into the consumer society the changes the women s movement demanded in textbooks school curricula media and advertising that led to a new image of women in the consumer market and the ascent of fast food education Spring carries the story into the 21st century by examining the evolving marriage of schools advertising and media and its ongoing role in educating the consumer citizen and creating an integrated consumer market This book will be of wide interest to scholars professionals and students across foundations of education history and sociology of education educational policy mass communications American history and cultural studies It is highly appropriate as a text for courses in these areas

Corporatism, Social Control, and Cultural Domination in Education Joel H. Spring,2012 Starting with the 1972 publication of his seminal work *Education and the Rise of the Corporate State* Joel Spring has been documenting and analyzing the politics of knowledge and education Throughout his work he has explored the attempts to use education to advance the economic and political interests of dominant groups The general term he uses for the relationship between schools and power is ideological management His scholarly work first looked at the influence on American schooling of business and economic doctrines embodied in human capital theories and consumerism The next step in his exploration of the politics of knowledge was to examine these issues in the context of globalization leading to a proposed educational rights amendment to national constitutions and a new paradigm for education both of which might ensure that schools are protected from ideological management by economic and political elites Spring s indigenous background has strongly shaped

his interest in the political and economic goals of schooling particularly the attempts of those in power to use schools to destroy indigenous languages and cultures In this collection Spring brings together 10 of his key writings providing an overview not just of his own career but the larger contexts in which it is situated In the Introduction he reviews the evolution and scope of his work and his earlier arguments and reflects on its central themes which are reflected in the writings selected for this volume In the World Library of Educationalists international scholars themselves compile career long collections of what they judge to be their finest pieces extracts from books key articles salient research findings major theoretical and practical contributions so the world can read them in a single manageable volume Readers will be able to follow the themes and strands of their work and see their contribution to the development of a field as well as the development of the field itself Contributors to the series include Michael Apple James A Banks Stephen J Ball Elliot Eisner Howard Gardner John Gilbert Ivor F Goodson Peter Jarvis The American School Joel Spring,2018-02-15 This current comprehensive history of American education is designed to stimulate critical analysis and critical thinking by offering alternative interpretations of each historical period In his signature straight forward concise style Joel Spring provides a variety of interpretations of American schooling from conservative to leftist in order to spark the reader s own critical thinking about history and schools This tenth edition follows the history of American education from the seventeenth century to the integration into global capitalism of the twenty first century to the tumultuous current political landscape In particular the updates focus on tracing the direct religious links between the colonial Puritans and the current day Trump administration Chapters 1 and 2 have been rewritten to take a closer look at religious traditions in American schools leading up to the educational ideas of the current U S Secretary of Education Betsy DeVos An updated Chapter 15 further links traditional religious fundamentalist ideas and the twentieth century free market arguments of the Chicago school of economists to President Trump s administration and the influence of the Alt Right *Poor Boys' Chances* John Habberton,1900 Toy Medium Daniel Tiffany,2000-03-08 What begins with an unlikely collection of unrelated phenomena mechanical dolls weather atoms lyric poetry blossoms in the course of Toy Medium into a subtle and persuasive meditation on one of Western philosophy s biggest puzzles the relation of mind and matter What is the role of the imagination in defining material substance In a dazzling study of the poetics of materialist philosophy and of the materialism of lyric poetry Daniel Tiffany traces the historical conjunction of matter and metaphor through a remarkable range of topics automata in classical antiquity and the eighteenth century Kepler s treatise on snowflakes animal magnetism fireworks and cloud chamber photographs the origins of the microscope as a philosophical toy and its bearing on the figure of the virtuoso At critical junctures in modern Western culture Tiffany finds uncanny parallels between the metaphors of science and visions of material substance rooted in popular culture and lyric poetry Los Angeles Times Best Nonfiction Book of 2000 *Happiness to Live By* Zig Ziglar,2023-01-31 The late Zig Ziglar delivers life changing wisdom and guidance in this compilation of
