Power And Virtue The Horse In Chinese Art:

Power and Virtue Robert E. Harrist, 1997 Catalog of the first exhibition to consider the remarkable endurance and symbolic resonance of the horse in Chinese art history and philosophy It features almost 30 works including 13 sculptures from the Han Tang dynasties and hand scrolls hanging scrolls and album leaves from the Tang Qing dynasties By examining the tremendous range of equine depictions in Chinese art it reveals the horse as an exceptionally fluid and potent means for the continual construction and reconstruction of Chinese identity a figure of enduring fascination and value given its usefulness both real and symbolic to humankind

The Zoomorphic Imagination in Chinese Art and Culture Jerome Silbergeld, Eugene Y. Wang, 2016-10-31 China has an age old zoomorphic tradition The First Emperor was famously said to have had the heart of a tiger and a wolf The names of foreign tribes were traditionally written with characters that included animal radicals In modern times the communist government frequently referred to Nationalists as running dogs and President Xi Jinping vowing to quell corruption at all levels pledged to capture both the tigers and the flies Splendidly illustrated with works ranging from Bronze Age vessels to twentieth century conceptual pieces this volume is a wide ranging look at zoomorphic and anthropomorphic imagery in Chinese art The contributors leading scholars in Chinese art history and related fields consider depictions of animals not as simple one for one symbolic equivalents they pursue in depth in complexity and in multiple dimensions the ways that Chinese have used animals from earliest times to the present day to represent and rhetorically stage complex ideas about the world around them examining what this means about China past and present In each chapter a specific example or theme based on real or mythic creatures is derived from religious political or other sources providing the detailed and learned examination needed to understand the means by which such imagery was embedded in Chinese cultural life Bronze Age taotie motifs calendrical animals zoomorphic modes in Tantric Buddhist art Song dragons and their painters animal rebuses Heaven sent auspicious horses and foreign sent tribute giraffes the fantastic specimens depicted in the Qing Manual of Sea Oddities the weirdly indeterminate creatures found in the contemporary art of Huang Yong Ping these and other notable examples reveal Chinese attitudes over time toward the animal realm explore Chinese psychology and patterns of imagination and explain some of the critical means and motives of Chinese visual culture The Zoomorphic Imagination in Chinese Art and Culture will find a ready audience among East Asian art and visual culture specialists and those with an interest in literary or visual rhetoric Contributors Sarah Allan Qianshen Bai Susan Bush Daniel Greenberg Carmelita Carma Hinton Judy Chungwa Ho Kristina Kleutghen Kathlyn Liscomb Jennifer Purtle Jerome Silbergeld Henrik S rensen and Eugene Y Wang

Zhao Mengfu Shane McCausland, Mengfu Zhao, 2011-01-01 Zhao Mengfu has enormous significance for Chinese art history This work presents a new synthetic portrait of the artist s development from the 1280s to his death in 1322 and evaluates his pivotal role in the social political context in Yuan China as well as the development of the artist s self consciousness Shane McCausland s study features detailed interpretations of pictorial forms

in light of historical changes and close readings of critical colophons many of which are appended to artworks but neglected as visual sources These readings are meant to stimulate visual analysis of the oeuvre as well as debate about the use of Tang 618 907 and other period modes as models for the Yuan renaissance The book challenges stereotypes portraying Zhao Mengfu as a traitor or careerist The historical background of dynastic change and Mongol rule is treated in a revisionist manner that aims to contextualize the traditional Chinese hostility towards Zhao Mengfu as a Yuan scholar official The concern here is for his development in the context of Mongol rule as a Chinese scholar artist This book will be a must for scholars curators and other specialists in Chinese painting and calligraphy especially those focusing on Yuan dynasty and literati painting Shane McCausland is a lecturer in the history of Chinese art in the Department of Art and Archaeology at SOAS University of London

Chinese Ways of Seeing and Open-Air Painting Yi Gu, 2021-02-01 How did modern Chinese painters see landscape Did they depict nature in the same way as premodern Chinese painters What does the artistic perception of modern Chinese painters reveal about the relationship between artists and the nation state Could an understanding of modern Chinese landscape painting tell us something previously unknown about art political change and the epistemological and sensory regime of twentieth century China Yi Gu tackles these questions by focusing on the rise of open air painting in modern China Chinese artists almost never painted outdoors until the late 1910s when the New Culture Movement prompted them to embrace direct observation linear perspective and a conception of vision based on Cartesian optics The new landscape practice brought with it unprecedented emphasis on perception and redefined artistic expertise Central to the pursuit of open air painting from the late 1910s right through to the early 1960s was a reinvigorated and ever growing urgency to see suitably as a Chinese and to see the Chinese homeland correctly Examining this long overlooked ocular turn Gu not only provides an innovative perspective from which to reflect on complicated interactions of the global and local in China but also calls for rethinking the nature of visual modernity there

Afro-Asian Connections in Latin America and the Caribbean Debbie Lee-DiStefano, Luisa Marcela Ossa, 2018-11-27 Afro Asian Connections in Latin America and the Caribbean explores the connections between people of Asian and African descent in Latin America and the Caribbean Although their journeys started from different points of origin spanning two separate oceans their point of contact in this hemisphere brought them together under a hegemonic system that would treat these seemingly disparate continental ancestries as one Historically an overwhelming majority of people of African and Asian descent were brought to the Americas as sources of labor to uphold the plantation agrarian economies leading to complex relationships and interactions The contributions to this collection examine various aspects of these connections The authors

bring to the forefront perspectives regarding history literature art and religion and engage how they are manifested in these Afro Asian relationships and interactions They investigate what has received little academic engagement outside the acknowledgement that there are groups who are of African and Asian descent In regard to their relationships with the dominant Europeanized center references to both groups typically only view them as singular entities What this interdisciplinary collection presents is a more cohesive approach that strives to place them at the center together and view their relationships in their historical contexts

the city itself while celebrating New York as both a place and an idea **Imperial Horizons of the Silk Roads** Branka Franicevic, Marie Nicole Pareja, 2023-07-20 This volume centres on how the exchange routes transformed the frontier regions of the Silk Road In doing so it utilises a range of methods to reach an archaeological interpretation of the factors that linked people with the environment movements settlements and beliefs **Nomads as Agents of Cultural Change** Reuven Amitai, Michal Biran, 2014-12-31 Since the first millennium BCE nomads of the Eurasian steppe have played a key role in world history and the development of adjacent sedentary regions especially China India the Middle East and Eastern and Central Europe Although their more settled neighbors often saw them as an ongoing threat and imminent danger barbarians in fact their impact on sedentary cultures was far more complex than the raiding pillaging and devastation with which they have long been associated in the popular imagination The nomads were also facilitators and catalysts of social demographic economic and cultural change and nomadic culture had a significant influence on that of sedentary Eurasian civilizations especially in cases when the nomads conquered and ruled over them Not simply passive conveyors of ideas beliefs technologies and physical artifacts nomads were frequently active contributors to the process of cultural exchange and change Their active choices and initiatives helped set the cultural and intellectual agenda of the lands they ruled and beyond This volume brings together a distinguished group of scholars from different disciplines and cultural specializations to explore how nomads played the role of agents of cultural change The beginning chapters examine this phenomenon in both east and west Asia in ancient and early medieval times while the bulk of the book is devoted to the far flung Mongol empire of the thirteenth and fourteenth centuries This comparative approach encompassing both a lengthy time span and a vast region enables a clearer understanding of the key role that Eurasian pastoral nomads played in the history of the Old World It conveys a sense of the complex and engaging cultural dynamic that existed between nomads and their agricultural and urban neighbors and highlights the non military impact of nomadic culture on Eurasian history *Nomads as Agents of Cultural Change* illuminates and complicates nomadic roles as active promoters of cultural exchange within a vast and varied region It makes available important original scholarship on the new turn in the study of the Mongol empire and on relations between the nomadic and sedentary worlds **Political Frontiers, Ethnic Boundaries and Human Geographies in Chinese History** Nicola Di Cosmo, Don J Wyatt, 2005-08-16 Boundaries demanding physical space enclosing political entities and distinguishing social or ethnic groups constitute an essential aspect of historical investigation It is especially with regard to disciplinary pluralism and historical breadth that this book most clearly departs and distinguishes itself from other works on Chinese boundaries and ethnicity In addition to history the disciplines represented in this book include anthropology particularly ethnography religion art history and literary studies Each of the authors focuses on a distinct period beginning with the Zhou dynasty c 1100 BCE and ending with the early centuries after the Manchu conquest c CE 1800 resulting in a chronological sweep of nearly three millennia *Poetry and Painting in Song China* Alfreda Murck, 2020-10-26 Throughout the history of

imperial China the educated elite used various means to criticize government policies and actions During the Song dynasty 960 1278 some members of this elite found an elegant and subtle means of dissent landscape painting By examining literary archetypes the titles of paintings contemporary inscriptions and the historical context Alfreda Murck shows that certain paintings expressed strong political opinions some transparent others deliberately concealed She argues that the coding of messages in seemingly innocuous paintings was an important factor in the growing respect for painting among the educated elite and that the capacity of painting s systems of reference to allow scholars to express dissent with impunity contributed to the art s vitality and longevity Princely Gifts and Papal Treasures Lauren Arnold,1999 **Taming the Wild Horse** Louis Komjathy,2017-03-21 In thirteenth century China a Daoist monk named Gao Daokuan 1195 1277 composed a series of illustrated poems and accompanying verse commentary known as the Daoist Horse Taming Pictures In this annotated translation and study Louis Komjathy argues that this virtually unknown text offers unique insights into the transformative effects of Daoist contemplative practice Taming the Wild Horse examines Gao s illustrated poems in terms of monasticism and contemplative practice as well as the multivalent meaning of the horse in traditional Chinese culture and the consequences for both human and nonhuman animals The Horse Taming Pictures consist of twelve poems ten of which are equine centered They develop the metaphor of a wild or untamed horse to represent ordinary consciousness which must be reined in and harnessed through sustained self cultivation especially meditation The compositions describe stages on the Daoist contemplative path Komjathy provides opportunities for reflection on contemplative practice in general and Daoist meditation in particular which may lead to a transpersonal way of perceiving and being **The Breaking of a Thousand Swords** Matthew S. Gordon,Professor of Middle East and Islamic History Matthew S Gordon,2001-01-01 A portrait of the Samarran Turk community while in the employ of the Abbasid caliphate during the ninth century *New York Magazine* ,1997-09-29 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **On Telling Images of China** Shane McCausland,Yin Hwang,2013-11-01 The essays in this volume address a diverse range of issues in China s narrative art and visual culture mainly from the Ming dynasty 1368 1644 to the present These studies attend to the complex ways in which images circulate in pictorial media and across boundaries between high art and popular culture images in paintings prints stone engravings and posters as well as in film and video art In addition the authors examine the roles of ancient exemplary stories and textual narratives as well as their reiteration in the visual arts in early modern and modern social and political contexts The volume is divided into three sections Representing Paradigms Interpreting Literary Themes and Narratives and the Medium and Modernity While the essays in each section deal with

concerns in the field of China's art history an editor's introduction serves to position the topic of narrative art and to introduce definitions and genre issues which run through the book As a whole the volume invites reflection on the intrinsic nature of narratives and their pictorial lives and presents new research which challenges established views and paradigms
