## **Querying The Medieval Texts And The History Of Practices In South Asia:**

**Querying the Medieval** Ronald Inden, Jonathan Walters, Daud Ali, 2000-06-08 Indologist Ronald Inden has in the past raised questions about the images of a traditional or medieval India deployed by colonial scholars and rulers Orientalists and has also argued that a history of early medieval India very different from both the colonial and nationalist accounts could be written This volume is designed as an important first step towards that goal The authors look closely at three genres of texts that have been crucial to the representations of precolonial India All three essays challenge not only colonialist scholarship but the attempts by religious nationalists to identify Hinduism as the essence of national identity in India and Buddhism as the essence of nationality in Sri Lanka **Sri Lanka at the Crossroads of History** Zoltán Biedermann, Alan

Strathern, 2017-06-07 The peoples of Sri Lanka have participated in far flung trading networks religious formations and Asian and European empires for millennia This interdisciplinary volume sets out to draw Sri Lanka into the field of Asian and Global History by showing how the latest wave of scholarship has explored the island as a crossroads a place defined by its openness to movement across the Indian Ocean Experts in the history archaeology literature and art of the island from c 500 BCE to c 1850 CE use Lankan material to explore a number of pressing scholarly debates They address these matters from their varied disciplinary perspectives and diverse array of sources critically assessing concepts such as ethnicity cosmopolitanism and localisation and elucidating the subtle ways in which the foreign may be resisted and embraced at the same time The individual chapters and the volume as a whole are a welcome addition to the history and historiography of Sri Lanka as well as studies of the Indian Ocean region kingship colonialism imperialism and early modernity

**Buddhist-Inflected Sovereignities across the Indian Ocean** Anne M. Blackburn, 2025-01-31 Buddhist Inflected Sovereignities across the Indian Ocean draws attention to the varied historically contingent and sometimes competing arguments for and about sovereignty that operated in the Pali arena during the first half of the second millennium AD It was a time of expanding interaction within the Indian Ocean just prior to Portuguese colonial presence in Southern Asia Developing a linked series of case studies and examining territories now subsumed within the nation states of Sri Lanka Burma Myanmar and Thailand Blackburn examines sovereign arguments expressed textually as well as in the built environment by persons with an interest in the teachings and institutions associated with Gotama Buddha These cases show that no single model of Buddhist inflected sovereignty dominated the Pali arena during this time and that there was no stable vision of Buddhist kingship Rather over time there was an accrual of possible models and pathways for argumentation about how sovereigns could and should relate to buddha s sana Taking inspiration from diverse sources transmitted through multiple forms and media arguments for and about sovereignty in the Pali arena were contested and rapidly changing As the Indian Ocean increasingly shaped the flow of people objects and ideas more peoples and territories participated in the Pali arena attracted by its intellectual and aesthetic resources Drawing on extensive scholarship and a wide range of multilingual

source materials from premodern Sri Lanka Burma Thailand and Cambodia Anne M Blackburn develops innovative conclusions about the relationships between textuality sovereignty maritime connectivity and material culture in each of these areas The book contributes simultaneously to several fields of study the intellectual history of Southern Asia literary and historical scholarship on Buddhism and historical studies of the Indian Ocean By offering accessible yet in depth analysis Buddhist Inflected Sovereignities across the Indian Ocean connects research fields and introduces new interpretive possibilities for the study of sovereignty politics premodern textual cultures and Buddhism

Shared Characters in Jain, Buddhist and Hindu Narrative Naomi Appleton, 2016-11-25 Taking a comparative approach which considers characters that are shared across the narrative traditions of early Indian religions Brahmanical Hinduism Jainism and Buddhism Shared Characters in Jain Buddhist and Hindu Narrative explores key religious and social ideals as well as points of contact dialogue and contention between different worldviews The book focuses on three types of character gods heroes and kings that are of particular importance to early South Asian narrative traditions because of their relevance to the concerns of the day such as the role of deities the qualities of a true hero or good ruler and the tension between worldly responsibilities and the pursuit of liberation Characters including character roles and lineages of characters that are shared between traditions reveal both a common narrative heritage and important differences in worldview and ideology that are developed in interaction with other worldviews and ideologies of the day As such this study sheds light on an important period of Indian religious history and will be essential reading for scholars and postgraduate students working on early South Asian religious or narrative traditions Jain Buddhist and Hindu as well as being of interest more widely in the fields of Religious Studies Classical Indology Asian Studies and Literary Studies

**Religion, Language, and Power** Nile Green, Mary Searle-Chatterjee, 2008-07-15 Using an approach that is both comparative and historical and relying upon case studies ranging from China and Iran to India Britain America and Kurdistan the authors of this volume treat religions as discourses that are the products of a particular moment in history

*The Mists of Rāmañña* Michael A. Aung-Thwin, 2017-04-01 Scholars have long accepted the belief that a Theravada Buddhist Mon kingdom R ma adesa flourished in coastal Lower Burma until it was conquered in 1057 by King Aniruddha of Pagan which then became in essence the new custodian and repository of Mon culture in the Upper Burmese interior This scenario which Aung Thwin calls the Mon Paradigm has circumscribed much of the scholarship on early Burma and significantly shaped the history of Southeast Asia for more than a century Now in a masterful reassessment of Burmese history Michael Aung Thwin reexamines the

original contemporary accounts and sources without finding any evidence of an early Theravada Mon polity or a conquest by Aniruddha. The paradigm he finds cannot be sustained. How and why did the Mon Paradigm emerge? Aung Thwin meticulously traces the paradigm's creation to the merging of two temporally causally and contextually unrelated Mon and Burmese narratives which were later synthesized in English by colonial officials and scholars. Thus there was no single originating source, only a late and mistaken conflation of sources. The conceptual, methodological, and empirical ramifications of these findings are significant. The prevalent view that state formation began in the maritime regions of Southeast Asia with trade and commerce rather than in the interior with agriculture must now be reassessed. In addition, a more rigorous look at the actual scope and impact of a romanticized Mon culture in the region is required. Other issues important to the field of early Burma and Southeast Asian studies, including the process of Indianization, the characterization of classical states, and the advent and spread of Theravada Buddhism, are also directly affected by Aung Thwin's work. Finally, it provides a geo-political, cultural, and economic alternative to what has become an ethnic interpretation of Burma's history. **Minding the Buddha's Business** Daniel Boucher, Shayne Clarke, 2025-06-24 Colleagues and former students of Gregory Schopen honor his path breaking contributions to Buddhist studies with these articles on the early Mahayana the monastic codes and Buddhism's art historical and epigraphical remains This volume honors the profoundly transformative influence of Gregory Schopen's many contributions to Buddhist studies Eighteen articles by former students and colleagues focus on the areas of Schopen's most noteworthy influence the study of the Mahayana particularly of its early sutra literature the study of Vinaya especially the narratives accompanying the rules for monks and nuns and the study of Buddhist epigraphy and art history Contributors demonstrate the ongoing significance of Schopen's scholarship including his very first article on the cult of the book in the early Mahayana published fifty years ago Schopen has repeatedly shown how the study of Buddhism has too often focused on scriptures and normative doctrines and not enough on the practical ideas and contexts that significantly impacted the lives of actual Buddhists He sought to reveal these lived concerns in the massive trove of Buddhist inscriptions which often expose the habits and ideas of the tradition's most prominent donors many of whom were monastics as well as the everyday concerns of monks and nuns whose views did not always dovetail with canonical sources Even in his treatment of canonical sources Schopen has shown that the standard portrait of a Buddhist monk or nun fails to match a careful reading of their law codes his work on the Mulasarvastivada vinaya has required scholars to substantially reimagine the legal and ritual obligations as well as the economic concerns that preoccupied the minds of Buddhist jurists Schopen has in essence brought the Buddha down to earth revealing that this is precisely where most Indian Buddhists encountered him The contributions in this celebratory volume reflect this legacy and Schopen's considerable impact on our understanding of Buddhists in India

**Rewriting Buddhism** Alastair Gornall, 2020-03-17 Rewriting Buddhism is the first intellectual history of premodern Sri Lanka's most culturally productive period This era of reform 1157-1270 shaped the nature of Theravada Buddhism both in Sri Lanka and also Southeast Asia and even today continues to define monastic intellectual life in the region Alastair Gornall argues that the long century's literary productivity was not born of political stability as is often thought but rather of the social economic and political chaos brought about by invasions and civil wars Faced with unprecedented uncertainty the monastic community sought greater political autonomy styled itself as royal court and undertook a series of reforms most notably a purification and unification in 1165 during the reign of Parakramabahu I He describes how central to the process of reform was the production of new forms of Pali literature which helped create a new

conceptual and social coherence within the reformed community one that served to preserve and protect their religious tradition while also expanding its reach among the more fragmented and localized elites of the period

**Hinduism Before Reform** Brian A. Hatcher, 2020-03-10 A bold retelling of the origins of contemporary Hinduism and an argument against the long established notion of religious reform By the early eighteenth century the Mughal Empire was in decline and the East India Company was making inroads into the subcontinent A century later Christian missionaries Hindu teachers Muslim saints and Sikh rebels formed the colorful religious fabric of colonial India Focusing on two early nineteenth century Hindu communities the Brahmo Samaj and the Swaminarayan Sampraday and their charismatic figureheads the cosmopolitan Rammohun Roy and the parochial Swami Narayan Brian Hatcher explores how urban and rural people thought about faith ritual and gods Along the way he sketches a radical new view of the origins of contemporary Hinduism and overturns the idea of religious reform Hinduism Before Reform challenges the rigid structure of revelation schism reform sect prevalent in much history of religion Reform in particular plays an important role in how we think about influential Hindu movements and religious history at large Through the lens of reform one doctrine is inevitably backward looking while another represents modernity From this comparison flows a host of simplistic conclusions Instead of presuming a clear dichotomy between backward and modern Hatcher is interested in how religious authority is

acquired and projected Hinduism Before Reform asks how religious history would look if we eschewed the obfuscating binary of progress and tradition There is another way to conceptualize the origins and significance of these two Hindu movements one that does not trap them within the teleology of a predetermined modernity **Dowry and Daughters** Anwesha

Arya-Bhattacharya,2023-05-10 This book studies the relevance of dowry as a customary practice in Indian marriages It examines the historical articulation between traditional cultural texts and modern statutory law to understand how daughters are valued and how dowry as a custom defines this value The author creates a conceptual link between modern medieval and ancient marriage rites that formulate and embed dowry behaviour and practice within Indian society This book also provides a critique of the cultural textual tradition of India and South Asia It asserts for the first time that Vedic materialism is at the core of an adequate understanding of how dowry as wealth comes to occupy such a central position in the field of marriage An important study into the custom and tradition of South Asia this book will be indispensable for students and researchers of cultural studies women s studies gender studies religion history law and South Asian studies **Holy Things** Nathan

McGovern,2024 A common religious practice in Buddhist Thailand is asking holy things for help in return for an offering These holy things include local spirits Hindu gods and famous Buddha images which Thai people worship all in the same way Some people and even Thai Buddhists themselves have argued that this is syncretism a mixture of religions Holy Things shows that what appears to be syncretism is actually an illusion The worship of holy things is not a mixture of different religions but the category of holy things is a mixture of different ways of talking about religion **Popular Iranian Cinema**

**before the Revolution** Pedram Partovi,2017-07-14 Critics and academics have generally dismissed the commercial productions of the late Pahlavi era best known for their songs and melodramatic plots as shallow derivative entertainment Instead they have concentrated on the more recent internationally acclaimed art films claiming that these constitute Iranian national cinema despite few Iranians having seen them Film discourse and even fan talk have long attempted to marginalize the mainstream releases of the 1960s and 1970s with the moniker filmfarsi ironically asserting that such popular favorites were culturally inauthentic This book challenges the idea that filmfarsi is detached from the past and present of Iranians Far from being escapist Hollywood fare merely translated into Persian it claims that the better films of this supposed genre must be taken as both a subject of and source for modern Iranian history It argues that they have an appeal that relies on their ability to rearticulate traditional courtly and religious ideas and forms to problematize in unexpectedly complex and sophisticated ways the modernist agenda that secular nationalist elites wished to impose on their viewers Taken seriously these films raise questions about standard treatments of Iran s modern history By writing popular films into Iranian history this book advocates both a fresh approach to the study of Iranian cinema as well as a rethinking of the modernity tradition binary that has organized the historiography of the recent past It will appeal to those interested in Iranian cinema Iranian history and culture and more broadly readers dissatisfied with a dichotomous approach to modernity **Constructing**

**Kanchi** Emma Natalya Stein, 2025-10-01 *Constructing Kanchi City of Infinite Temples* traces the emergence of the South Indian city of Kanchi as a major royal capital and multireligious pilgrimage destination during the era of the Pallava and Chola dynasties ca seventh through thirteenth centuries The book presents the first ever comprehensive picture of historical Kanchi locating the city and its more than 100 spectacular Hindu temples at the heart of commercial and artistic exchange that spanned India Southeast Asia and China The author demonstrates that Kanchi was structured with a hidden urban plan which determined the placement and orientation of temples around a central thoroughfare that was also a burgeoning pilgrimage route Moving outwards from the city she shows how the transportation networks river systems residential enclaves and agrarian estates all contributed to the vibrancy of Kanchi's temple life The construction and ongoing renovation of temples in and around the city she concludes has enabled Kanchi to thrive continuously from at least the eighth century through the colonial period and up until the present

**Western Himalayan Temple Records** Mahesh Sharma, 2009 While numerous studies exist on major South Asian temples surprisingly little is known about minor shrines and lesser states Here fifty five new documents in a western Himalayan script and language and belonging to a small Siddha shrine redress this remarkable gap in our knowledge The documents cover a wide spectrum from revenue grants to those dealing with ritual pilgrimage legality and temple economy thus building a picture of the relationship between state and shrine and particularly so for the minor centres their popularity and relationship with major temples mundane matters notices petitions and law suits It becomes clear how lesser states despite their limited resources patronized numerous small shrines along with major temples and the role played by the Nath Siddha ascetics in creating consent to rule acculturation and constructing hybridity between the Hindu and Tibetan Buddhist traditions
