## **Regional Dynamics Security Political And Economic Issues In The Asia-Pacific Region:**

**Regional Dynamics** Robert A. Scalapino, 1990

**The Transformation of Security in the Asia-Pacific Region**

Desmond Ball, 2013-10-14 The security architecture of the Asia Pacific region is in a profound transformation. Such changes are not without problems which are discussed here.

**Peace and Security in the Asia-Pacific** Sorpong Peou, 2010-04-15

Demonstrating that none of the various perspectives under review has emerged as the clear winner in the struggle for theoretical hegemony in security studies, this book shows that eclectic perspectives like democratic realist institutionalism can better explain peace and security in the Asian Pacific. The Asian Pacific has emerged as one of the most important regions in the world, causing scholars to pay increased attention to the various challenges old and new to peace and security there. *Peace and Security in the Asia Pacific: Theory and Practice* is a comprehensive critical review of the established theoretical perspectives relevant to contemporary peace and security studies in the light of recent experiences. Illuminating ongoing debates in the field, the book covers some 20 theoretical perspectives on peace and security in the Asian Pacific, including realist, liberal, socialist, peace, and human security, constructivist, feminist, and nontraditional security studies. The first section of the book discusses perspectives in realist security studies; the second part covers perspectives critical of realism. The author's goal is to assess whether any of the perspectives found in nonrealist security studies are capable of undermining realism. His conclusion is that each theoretical perspective has its strengths and weaknesses, leaving eclecticism as the best way to understand the region's dynamics.

**Asian Security and the Rise of China** David Martin Jones, Michael Lawrence

Rowan Smith, Nicholas Khoo, 2013-01-01 Khoo Jones and Smith have pulled off a remarkable balancing act, crafting a well-grounded and multifaceted survey of China's rise in the context of Asian security. In a field which is often marked more by scholarly effervescence than substance, the authors provide a refreshingly detailed portrait of the last two decades and fairly mindedly point out evidence which might support both extremes of the debates they challenge with their own third way.

Frank Scott Douglas, US Naval War College, US. Congratulations to the authors for a clearly argued and comprehensive treatment of China's post-Cold War rise and what it means for existing and future dynamics of the Asia-Pacific region. Effectively employing realist theory in a fair-minded treatment of regional developments, the volume shows how and why power realities are more important than non-material factors in determining the region's trajectory and thereby demonstrates that China's ascendance in Asia remains complicated and conflicted. Robert Sutter, George Washington University. US. East Asia is without question a region of huge economic, political, and security significance. *Asian Security and the Rise of China* offers a comprehensive overview and assessment of the international politics of the Asia-Pacific since the end of the Cold War, seeking to address the overarching question of how we can most convincingly explain the central dynamics of Asia's international relations. Via a realist perspective on the dynamics and frictions associated with accommodating the rise of powerful states, this timely book addresses the core issue in contemporary Asian politics: the rise

of China The contributors expertly evaluate China's rise and the impact it has had on the dynamics of regional relations in North East and South East Asia It demonstrates that China's economic development and its regional and international ambition increasingly conflict with the existing consensus based regional arrangements like the ASEAN Regional Forum and the East Asian Summit mechanism As a consequence smaller states in the region increasingly resort to hedging and balancing strategies in an attempt to mitigate Chinese hegemony This leaves the region in the grip of a complex and potentially destabilizing security dilemma The book offers a compelling analysis of the problem that China presents for its region that will enlighten undergraduate students of regional political studies and international relations Postgraduate and Master's students on courses addressing East and South East Asia will also find plenty of information in this invaluable book

The 2nd ASEAN Reader Sharon Siddique, Sree Kumar, 2003-10-17 A sequel to the first ASEAN Reader Some of the classic readings from the original ASEAN reader have been incorporated into this new compilation but the majority of the readings cover events of the past decade 1993-2003 During this decade ASEAN as an organization was revamped and its membership increased from six to ten

*ASEAN's Diplomatic and Security Culture* Jurgen Haacke, 2013-05-13 Member states of ASEAN the Association of South East Asian Nations have developed a distinctive approach to political and security co-operation which builds on the principles of sovereign equality non intervention and non interference quiet diplomacy mutual respect and the principle of not involving ASEAN in mediating bilateral disputes among the membership This book examines the origins of ASEAN's diplomatic and security culture and analyses how over time its key principles have been practised and contested as ASEAN states have responded to regional conflicts as well as challenges posed by the major regional powers ASEAN's enlargement and the Asian financial crisis The book goes on to assess whether ASEAN's diplomatic and security culture is likely to remain salient as the political economic and security context in which regional leaderships operate is undergoing further change

Peace and Security in Indo-Pacific Asia Sorpong Peou, 2021-11-21 Peace and Security in Indo Pacific Asia is for the informed the interested and the engaged Sorpong Peou brings together the skills of the pedagogue with the knowledge of the scholar Dr David Dewitt University Professor Emeritus Senior Scholar York University Toronto Canada Peou's excellent book provides both the lay reader and the specialist with six important theoretical frameworks which should provide the basis for better appreciation of what a security community in Indo Pacific Asia means in our world today There are very few scholars who understand the region like Peou Dr W Andy Knight Professor of Political Science the University of Alberta Canada Sorpong Peou's extraordinary breadth of knowledge of both International Relations theory and the key trends in Indo Pacific Asia shines through in this authoritative analysis Dr Richard Stubbs Professor of Political Science McMaster University Canada A pedagogical approach of the textbook that is appreciated is how the author respectfully engages with the theories of IR and is not pushing an agenda of denouncing some theories and trying to persuade the reader of others We live in such polarizing times that it is truly refreshing to read scholarly work that avoids sensationalistic attacks

on theories that have been debated for decades Each theory in this manuscript is explored on its own terms and the reader is encouraged to figure out where they stand on these enduring debates in the context of Indo Pacific security The approach will lead to compelling classroom discussions of the theories and the politics of the region This book is a must read for any student or observer of security trends in the region Dr Mark Williams Chair and Professor of Political Studies Vancouver Island University B C Canada      **Handbook on Global Governance and Regionalism** Jürgen Rüdland, Astrid

Carrapatoso, 2022-11-18 This Handbook expertly explores the profound transformations in international relations in recent decades Proliferating cross border challenges including global financial crises climate change environmental degradation irregular migration and COVID 19 require governance structures that transcend the nation state and take both global and regional interplay as well as problem solving capacities into account Contributing authors investigate the effectiveness of international cooperation and performance in a diverse range of policy fields      Engaging China Alastair Iain

Johnston, Robert S. Ross, 2005-08-08 Engaging China is one of the first books to look at the responses of major international powers to the recent economic growth of China Anyone interested in the financial fortunes of the Asia Pacific region cannot afford to ignore the rise of China as an economic power since the 1970s Economic growth coupled with increased military capability and spreading nationalism have gradually enhanced Chinas international profile In an interesting mix of the empirical and theoretical case studies from United States Japan Singapore Taiwan Korea Malaysia and Indonesia illustrate Chinas developing position in the Asia Pacific      **Globalization and Labour in the Asia Pacific** John Benson, Chris

Rowley, 2018-12-07 Globalization and labour market deregulation have had an impact on employment and workers and brought pressure to bear on trade unions This study looks at the challenges of globalization and deregulation in the Asia Pacific and possible responses to them in a variety of ways      **The Making of Southeast Asia** Amitav Acharya, 2013-02-15 Developing a framework to study what makes a region Amitav Acharya investigates the origins and evolution of Southeast Asian regionalism and international relations He views the Association of Southeast Asian Nations ASEAN from the bottom up as not only a U S inspired ally in the Cold War struggle against communism but also an organization that reflects indigenous traditions Although Acharya deploys the notion of imagined community to examine the changes especially since the Cold War in the significance of ASEAN dealings for a regional identity he insists that imagination is itself not a neutral but rather a culturally variable concept The regional imagination in Southeast Asia imagines a community of nations different from NAFTA or NATO the OAU or the European Union In this new edition of a book first published as The Quest for Identity in 2000 Acharya updates developments in the region through the first decade of the new century the aftermath of the financial crisis of 1997 security affairs after September 2001 the long term impact of the 2004 tsunami and the substantial changes wrought by the rise of China as a regional and global actor Acharya argues in this important book for the crucial importance of regionalism in a different part of the world      Security, Arms Control, and Conflict Reduction in East Asia and

the Pacific ,1993-07-30 This is the most comprehensive bibliography to date on the vast English language literature covering the myriad aspects of peace and security issues in the East Asia Pacific region McClean contacted 150 key research institutions and publishers around the world for information about the most significant books articles dissertations and official documents on international and intra state security arms control conflict avoiding diplomacy and militarization in the area He has selectively annotated 12 645 cross referenced entries and organized them into 27 sub regional and country chapters including two particularly extensive chapters on Japan and China and two further chapters on relations between Australia New Zealand and the United States and on U S and Soviet policy      **Security Communities** Emanuel

Adler,Michael Barnett,1998-10-28 This book argues that community can exist at the international level and that security politics is profoundly shaped by it with states dwelling within an international community having the capacity to develop a pacific disposition By investigating the relationship between international community and the possibility for peaceful change this book revisits the concept first pioneered by Karl Deutsch security communities Leading scholars examine security communities in various historical and regional contexts in places where they exist where they are emerging and where they are hardly detectable Building on constructivist theory the volume is an important contribution to international relations theory and security studies attempting to understand the conjunction of transnational forces state power and international organizations that can produce a security community      Whose Ideas Matter? Amitav Acharya,2011-07-22 Asia is a crucial battleground for power and influence in the international system It is also a theater of new experiments in regional cooperation that could redefine global order Whose Ideas Matter is the first book to explore the diffusion of ideas and norms in the international system from the perspective of local actors with Asian regional institutions as its main focus There s no Asian equivalent of the EU or of NATO Why has Asia and in particular Southeast Asia avoided such multilateral institutions Most accounts focus on U S interests and perceptions or intraregional rivalries to explain the design and effectiveness of regional institutions in Asia such as SEATO ASEAN and the ASEAN Regional Forum Amitav Acharya instead foregrounds the ideas of Asian policymakers including their response to the global norms of sovereignty and nonintervention Asian regional institutions are shaped by contestations and compromises involving emerging global norms and the preexisting beliefs and practices of local actors Acharya terms this perspective constitutive localization and argues that international politics is not all about Western ideas and norms forcing their way into non Western societies while the latter remain passive recipients Rather ideas are conditioned and accepted by local agents who shape the diffusion of ideas and norms in the international system Acharya sketches a normative trajectory of Asian regionalism that constitutes an important contribution to the global sovereignty regime and explains a remarkable continuity in the design and functions of Asian regional institutions

**European Union and New Regionalism** Mario Telò,2018-02-06 This title was first published in 2001 This is a collection of papers that look at the structure of the global economy and its changing paradigms over the years The

contributors look at how the classic concept of state autonomous sovereign and freed of all constraint never really reflected the reality of the international scene despite the role it has played in realist and neo realist theory for many decades Instead they consider that the political social and economic characteristics originally attributed to states seem increasingly to be expressed through regional constructs The papers in this volume show that even within regionalism there are a variety of different models that exist and examine five of those models the European Union Mercosul Mercosur the North American Free Trade Area NAFTA the Association of South East Asian Nations ASEAN and the South African Development Community SADC

**European Union and New Regionalism** Professor Mario Telò, 2014-08-28 Stemming from an international and multidisciplinary network of leading specialists this best selling text is fully updated with new chapter additions With the first edition prepared at the end of the last century and the second edition adding inter regional relations this new edition focuses on competing models of regional cooperation within a multipolar world and the role of the European Union

Defense Issues , Moving Targets Axel Berkofsky, Giulia Sciorati, 2024-03-29 In December 2022 Japan announced it would drastically increase its defence budget by 2027 The decision came as a wake up call for the whole region Japan was gearing up for a world of heightened tensions and rivalry in the Indo Pacific Region This Report analyses the present and future of Japan s security and defence policies Within the context of a rising China Tokyo has broadened its defence ties with the US India Australia and Taiwan However China remains its biggest trading partner meaning Tokyo s policymakers are charged with the task and challenge of striking a balance between defence policies and business and trade relations with China

Pacific Cooperation John Ravenhill, Vinod Aggarwal, Paul M Evans, Pauline Kerr, 2019-06-20 Long divided by cultural economic and political differences the Asia Pacific region has little history of multilateral cooperation Alliances that once linked individual countries with one or the other superpower fostered deep mistrust among neighbouring states The end of the Cold War however has created new opportunities for multilateral coo
