Regionalism in the Age of Globalism, Volume 2 Lothar Hönnighausen, James Peacock, Anke Ortlepp, Niklaus Steiner, 2005

This two volume set *Regionalism in an Age of Globalism* examines the concept of region and regionalism in today's rapidly shrinking world. Building on the insights of a diverse group of scholars, the first volume *Concepts of Regionalism* showcases the wide range of theories and methods that are being applied to regionalism today in the humanities and social sciences. Despite these differences, many common themes emerge, most importantly that regions are social and cultural constructs. The second volume *Forms of Regionalism* expands on these themes by presenting concrete examples of regionalism. Case studies explore regionalism in literature, governmental policy, architecture, and other fields in areas as diverse as the American South, Pacific Northwest, Eastern Europe, and the Canadian North.

**Grounded Globalism** James L. Peacock, 2010-04-01. The world is flat. Maybe not, says this paradigm shifting study of globalism's impact on a region legendarily resistant to change. The U.S. South, long defined in terms of its differences with the U.S. North, is moving out of this national and oppositional frame of reference into one that is more international and integrative. Likewise, as the South home to UPS, CNN, KFC, and other international brands goes global, people are emigrating there from countries like India, Mexico, and Vietnam, and becoming southerners. Much has been made of the demographic and economic aspects of this shift. Until now, though, no one has systematically shown what globalism means to the southern sense of self. Anthropologist James L. Peacock looks at the South of both the present and the past to develop the idea of grounded globalism, in which global forces and local cultures, rooted in history, tradition, and place, reverberate against each other in mutually sustaining and energizing ways. Peacock's focus is on a particular part of the world, however, his model is widely relevant. Some kind of grounding in locale is necessary to human beings. Grounded Globalism draws on perspectives from fields as diverse as ecology, anthropology, religion, and history to move us beyond the model advanced by such scholars as C. Vann Woodward that depicts the South as a region paralyzed by the burden of its past. Peacock notes that while globalism may lift old burdens, it may at the same time impose new ones. He also maintains that earlier regional identities have not been replaced by the rootless cosmopolitanism of cyberspace or other abstracted systems. Attachments to place remain even as worldwide markets erase boundaries and flatten out differences and distinctions among nations. Those attachments exert their own pressures back on globalism, says Peacock, with subtle strengths we should not discount.

Robert Mailhammer, Theo Vennemann, gen. Nierfeld, Birgit Anette Olsen, 2015-11-06. Most of us know of the Indo-European roots of European languages, but how did this precursor language take hold, and what did Europe look like before it did so? This book explores the continent before the spread of the Indo-Europeans, examines its indigenous population, and the contacts it had with Indo-European and Uralic immigrants, and ultimately asks how these origins led to the development of that crucial singularity for Europe's languages. Drawing on archaeology, religious studies, and palaeography, the contributors

offer a detailed and comprehensive picture of Europe's linguistic and in turn cultural prehistory     The Verticalization Model of Language Shift Joshua R. Brown, 2022 This book introduces a new and still emerging theoretical framework for understanding language shift and uses this approach to explore a range of minority language communities in the United States It includes specific case studies of individual communities as well as commentary chapters that provide a broader perspective     *Expanding Variationist Sociolinguistic Research in Varieties of German* James M. Stratton, Karen V. Beaman, 2024-11-29 This collection provides a broad account of variationist sociolinguistic research on varieties of German with the goals to encourage greater geolinguistic diversity in the field and to expand our understanding of language variation and change This book illustrates that incorporating a wider variety of language data in sociolinguistic studies provides a broader more holistic picture of variation and change On the one hand this book examines how variationist methods can contribute to the study of varieties of German with each chapter following the principles of variationist sociolinguistics On the other hand the chapters examine how both intra and extra linguistic factors can influence variation and change The volume also seeks to provide a broader understanding of German variation and change across time and space This book highlights how the study of varieties of German through a variationist lens can offer new insights into language change more broadly with applications for further research into other languages This volume will be of most interest to scholars in language change sociolinguistics dialectology and historical linguistics     **Rising Above** Benjamin E. Frey, 2025 Rising Above examines the process of language shift and revitalization among the Eastern Band of Cherokee Indians in North Carolina     **Germanic Heritage Languages in North America** Janne Bondi Johannessen, Joseph C. Salmons, 2015-08-15 This book presents new empirical findings about Germanic heritage varieties spoken in North America Dutch German Pennsylvania Dutch Icelandic Norwegian Swedish West Frisian and Yiddish and varieties of English spoken both by heritage speakers and in communities after language shift The volume focuses on three critical issues underlying the notion of heritage language acquisition attrition and change The book offers theoretically informed discussions of heritage language processes across phonetics and phonology morphology syntax and semantics and the lexicon in addition to work on sociolinguistics historical linguistics and contact settings With this the volume also includes a variety of frameworks and approaches synchronic and diachronic Most European Germanic languages share some central linguistic features such as V2 gender and agreement in the nominal system and verb inflection As minority languages faced with a majority language like English similarities and differences emerge in patterns of variation and change in these heritage languages These empirical findings shed new light on mechanisms and processes     *Architecture of Regionalism in the Age of Globalization* Liane Lefaivre, Alexander Tzonis, 2012 The definitive introductory book on the theory and history of regionalist architecture in the context of globalization this text addresses issues of identity community and sustainability along with a selection of the most outstanding examples of design from all over the world Alex Tzonis and Liane Lefaivre give a readable vivid scholarly account

of this major conflict as it relates to the design of the human made environment Demystifying the reasons behind how globalization enabled creativity and brought about unprecedented wealth but also produced new wastefulness and ecological destruction the book also looks at how regionalism has also tended to confine tearing apart societies and promoting destructive consumerist tourism

**Spanish Speakers in the USA** Janet M. Fuller, 2013 This text presents an interdisciplinary perspective on Spanish speakers in the US looking at how language and culture are intertwined It explores attitudes about Spanish and its speakers how Spanish and English are used in a variety of US contexts how Spanish has changed through its contact with English and the education of Latin s in the U S school system

*Borders in Post-Socialist Europe* Tassilo Herrschel, 2016-04-08 Borders have attracted considerable attention in public and academic debates in light of the impact of globalisation and in Europe the end of the divisions of the Cold War era Instead being inside or outside of the EU has become a major paradigmatic divide between claimed spheres of influence by Brussels and Moscow respectively In the aftermath of the end of communism established certainties no longer seemed to apply And this included many of the borders within the former eastern Bloc with some losing their relevance while others re assert themselves As its particular contribution this book adopts a symbiotic approach to the analysis of borders drawing on a political economy perspective while also recognising the importance of the socio cultural dimension as found in border studies This seeks to do greater justice to the complex composite nature of borders as geo political state legal and cultural historic constructs in both theory and practice In addition the book s approach stretches across spatial scales to capture the multi level nature of borders The first part of the book presents the conceptual framework as it sets out to embrace this multi faceted multi layered nature of borders In the second part case studies from north central Europe including the Baltic Sea Region exemplify the complexity of borders in the context of post socialist transformation and continuing EU isation

**New York and Toronto Novels after Postmodernism** Caroline Rosenthal, 2011 Cities are material and symbolic spaces through which nations define their cultural identities The great cities that have arisen on the North American continent have stimulated the imaginations of the United States and Canada in very different ways This first comparative study of North American urban fiction starts out by delineating the sociohistorical and literary contexts in which cities grew into diverging symbolic spaces in American and Canadian culture After an overview of recent developments in the cultural conception of urban space the book takes New York and Toronto fiction as exemplary for exploring representations of the urban after postmodernism It analyzes four twenty first century novels two set in New York Siri Hustvedt s *What I Loved* and Paule Marshall s *The Fisher King* and two set in Toronto Carol Shields s *Unless* and Dionne Brand s *What We All Long For* While these texts continue to echo the specific traditions of nation building and canon formation in the United States and Canada they also share certain features All of them investigate the affective crossroads of the city while returning to a more realistic mode of representation Caroline Rosenthal is Professor of American Literature at the Friedrich Schiller University in Jena Germany
