Regionalism And Revision:

The Decline of Regionalism in Putin's Russia J. Paul Goode, 2011-05-11 This book reassesses the process whereby after 2000 Putin reversed the process by which in the 1990s power had shifted from Moscow to the regions It focuses on the dynamics of regional boundaries juridical boundaries which defined a region's territorial extent and thereby its resources institutional boundaries that sustained regional differences and cultural boundaries that defined the ethnic or technocratic principles on which a region could claim legitimate existence Writing Regional Identities in Medieval England Emily Dolmans, 2020 Cover Contents List of Illustrations Acknowledgements Abbreviations Introduction 1 Coping with Conquest

Canizaro, 2012-03-20 In this rapidly globalizing world any investigation of architecture inevitably leads to considerations of regionalism But despite its omnipresence in contemporary practice and theory architectural regionalism remains a fluid concept its historical development and current influence largely undocumented This comprehensive reader brings together over 40 key essays

illustrating the full range of ideas embodied by the term. Authored by important critics, historians and architects such as Kenneth Frampton, Lewis Mumford, Sigfried Giedion and Alan Colquhoun, *Architectural Regionalism* represents the history of regionalist thinking in architecture from the early twentieth century to today.

Regional Identities in North-East England, 1300-2000 Adrian Gareth Green, A. J. Pollard, 2007. Is North East England really a coherent and self-conscious region? The essays collected here address this topical issue from the middle ages to the present day. *Routledge Handbook of Regionalism & Federalism* John Loughlin, John Kincaid, Wilfried Swenden, 2013-07-18. Almost all states are either federal or regionalized in some sense. It is difficult to find a state that is entirely unitary and the *Routledge Handbook of Regionalism and Federalism* necessarily takes in almost the entire world. Both federalism and regionalism have been subjects of a vast academic literature, mainly from political science but sometimes also from history, economics and geography. This cutting-edge examination seeks to evaluate the two types of state organization from the perspective of political science, producing a work that is analytical rather than simply descriptive. The Handbook presents some of the latest theoretical reflections on regionalism and federalism and then moves on to discuss cases of both regionalism and federalism in key countries chosen from the world's macro regions. Assembling this wide range of case studies allows the book to present a general picture of current trends in territorial governance. The final chapters then examine failed federations such as Czechoslovakia and examples of transnational regionalism: the EU, NAFTA and the African Union. Covering evolving forms of federalism and regionalism in all parts of the world and featuring a comprehensive range of case studies by leading international scholars, this work will be an essential reference source for all students and scholars of international politics, comparative politics and international relations.

Rethinking Civil Society Regionalism in Africa Dele Kogbe, 2022-10-14. This book interrogates the extent to which regional civil society organisations have evolved as actors in West Africa. Examining civil society, democratic participation in regional integration and involvement in regionalism of peacebuilding, it rethinks how we study civil society in the Economic Community of West African States (ECOWAS) region. Beyond the functional typology of civil society actors as partner, legitimiser, resistance counter, hegemonic and manipulator, the book develops a new analytical framework to understand how organisations such as the West African Civil Society Forum (WACSOF) and West African Network for Peacebuilding (WANEP) have evolved. Offering analytical perspectives of the actorship of specific regional civil society actors, the book draws attention to the tendencies in the previous studies of mistaking an action or misdeed that is empirically specific to particular civil society organisations within a region to the generality of the civic space of the region. Providing an alternative perspective aimed at invoking a new intellectual conversation about civil society regionalism, this book advances a new analytical framework of action-based regional identity of civil society, regional presence of activities, regional capacities and societal impact. It will be of interest to academics and scholars of international relations, global governance, African politics and comparative regionalism.
