**Emerging Urbanity** Richard Marshall, 2013-09-05 Discussions on the global economy focus on the hyper mobility of capital the possibility of instantaneous transmission of information and money around the globe the centrality of information outputs to our economic systems and emphasise the neutralisation of geography and of places What is ignored however is that even the most advanced information industries need a material infrastructure of buildings and work processes and considerable agglomeration in order to operate in global markets Further the globalisation of economic activity has brought with it not only a vast dispersal of offices and factories but also a growing importance of central functions to manage and coordinate such worldwide networks of activities The development of global urban projects is one manifestation of this move towards centrality in urban situations These large scale urban projects are the result of governments seeking competitive advantage in the global economy They are critical components of a nation s global infrastructure In the booming economies of the Asia Pacific Rim prior to the Asian Economic

Crisis these urban developments were seen as key components of national economic policies In their making they require a conscious effort to arrange material infrastructure and reinforce that there is a role for urban design in this making

Emerging Urbanity is an exploration of this role in nine global urban projects in the Asia Pacific Rim **The Economy of the Philippines** Peter Krinks,2003-09-02 In the late 1950s the Filipino economy could reasonably have been described as more advanced than those of its South Asian neighbours Ever since then however it has consistently lagged behind and only really started to grow strongly in the mid 1990s and even then it failed to achieve the growth rates of the rest of Southeast Asia ten years earlier This book critically analyses the Filipino economy and attempts to explain the problems that it has faced as well as the solutions that need to be put into practice This accessible and comprehensive book will be of great use to students academics and business professionals with an interest in the economies of Asia **International Bibliography of Economics 1998** Compiled by the British Library of Political and Economic Science,1999-12-16 Renowned for its international coverage and rigorous selection procedures this series provides the most comprehensive and scholarly bibliographic service available in the social sciences Arranged by topic and indexed by author subject and place name each bibliography lists and annotates the most important works published in its field during the year of 1997 including hard to locate journal articles Each volume also includes a complete list of the periodicals consulted **Capacity for Choice** George Hoberg,2002-01-01 Examines North American integration and its potential future impact on Canadian life in eight areas trade the labour market the brain drain macroeconomics federalism social welfare the environment and culture
