Regulatory Reform And Labor Markets:

Regulatory Reform and Labor Markets James Peoples,1997-11-30 Regulatory reform represents a major shift in the government's role toward price determination in the transportation and telecommunication industries. The resulting policy emphasizes dependence on market forces to set prices and to encourage efficient production techniques. While extensive research investigates the influence of deregulation on prices, profits, and productivity, the effect on labor markets has not received the same scrutiny. Firms in these industries are of major importance to business operations in other industries because they provide the critical services of transporting goods and transmitting information. This may partly explain such extensive research on the product market aspects of regulatory reform. Examining labor markets in the transportation and telecommunications industries is also highly warranted as historically these industries represented some of the most heavily unionized sectors in the economy. The extent to which regulatory reform has encouraged product market competition may not necessarily result in the same degree of competition across industries. Regulatory Reform and Labor Markets debates the notion that research on regulatory reform and labor markets should develop within the framework of the competitive model. This is achieved by presenting diverging views on wage and employment determination in distinctly different deregulated industries.

Transportation Labor Issues and Regulatory Reform James H Peoples,Wayne K Talley,2004-08-24 Regulatory reform in the late 1970s and early 1980s vastly transformed the labor market for transportation workers. Most research in this area focuses on the effect of deregulation on the earnings of nonmanagement company workers in airline, trucking, and rail. Deregulation of transportation industries though has had a broader effect on workers. For instance, deregulation also influences workers' hours worked per week, working conditions, worker safety, and a

host of other labor issues Deregulation might also influence the earnings of managers and self employed workers in transportation industries Examining these issues is valuable because such analysis provides a more complete assessment of labor market changes following the shift to a more market oriented business environment Transportation Labor Issues and Regulatory Reform adds to the debate on deregulation s influence on transportation labor markets by presenting empirical evidence on an array of labor market outcomes in transportation industries Contributions to this volume are categorized by their analysis on worker safety working conditions and employment opportunities and by their analysis on managerial and self employed earnings *Implementing Regulatory Reform: Building the Case Through Results Proceedings of the Meeting of the Group on Regulatory Policy, OECD, Paris, December 2007* OECD,2008-08-01 This report discusses some of the major challenges for implementing regulatory reform from a political perspective It draws on the experience and evidence from OECD countries when building the case through results and developing strategies for **Reforming the Labor Market in a Liberalized Economy** Gustavo Márquez,1995 In addition countries must produce a transparent atmosphere that depoliticizes contract disputes and negotiations Finally they must reform and strengthen institutions responsible for labor policies OECD Reviews of Regulatory Reform: Regulatory Reform in Japan 1999 OECD,1999-07-30 OECD s 1999 review of regulatory reform in Japan **Monthly Labor Review** United States. Deyo,2012-03-06 In *Reforming Asian Labor Systems* Frederic C Deyo examines the implications of post 1980s market oriented economic reform for labor systems in China South Korea the Philippines and Thailand Adopting a critical institutionalist perspective he explores the impact of elite economic interests and strategies labor politics institutional path dependencies and changing economic circumstances on regimes of labor and social regulation in these four countries Of particular importance are reform driven socioeconomic and political

tensions that especially following the regional financial crisis of the late 1990s have encouraged increased efforts to integrate social and developmental agendas with those of market reform Through his analysis of the social economy of East and Southeast Asia Deyo suggests that several Asian countries may now be positioned to repeat what they achieved in earlier decades a prominent role in defining new international models of development and market reform that adapt to the pressures and constraints of the evolving world economy **World Economic Outlook, April 2025** International

Monetary, International Monetary Fund. Research Dept, 2025-04-22 The latest World Economic Outlook reports a slowdown in global growth as downside risks intensify While policy shifts unfold and uncertainties reach new highs policies need to be calibrated to rebalance growth inflation trade offs rebuild buffers and reinvigorate medium term growth thereby reducing both internal and external imbalances Policies that promote healthy aging bridge gender disparities and enhance the alignment of migrants skills with local labor market demands can play a crucial role in countering slow economic growth and fiscal pressures especially when coupled with infrastructure investment The movement of migrants and refugees has become a fixture of public debate Chapter 3 examines how changes in the stringency of migrant and refugee policies can alter the journeys and legal pathways people choose to take within and between economies For example stricter policies can deflect flows of people to new destinations Those economies can experience short term challenges from strains on local services but ultimately benefit in the longer term Costs are likely to be more severe where challenges to integrate newcomers are larger notably in emerging market and developing economies and their skills are not well matched with local labor market needs Benefits can materialize sooner by boosting infrastructure investment and promoting private sector development

International cooperation can also help by more evenly distributing short term costs across economies **Why Deregulate Labour Markets?** Gøsta Esping-Andersen, Marino Regini, 2000 With contributions from economists political scientists this text takes a hard look at the empirical connections between unemployment regulation in Europe today utilising both in depth nation analyses broader international comparisons *Economic Policy Reforms 2005 Going for Growth* OECD, 2005-03-01

Sehnbruch, 2006-09-02 Kirsten Sehnbruch uses the case study of Chile to show the failures and inner working of neo liberal labour policy She shows in detail what the real policy issue should be namely the creation of proper institutions and of a corps of competent professionals with relevant skills and powers to operate them **Structural Reforms to Accelerate**

Growth, Ease Policy Trade-offs, and Support the Green Transition in Emerging Market and Developing Economies

Mrs. Nina Budina, Christian Ebeke, Mr. Christian H Ebeke, Ms. Florence Jaumotte, Andrea Medici, Augustus J Panton, Marina M. Tavares, Bella Yao, 2023-09-22 In the aftermath of the COVID 19 pandemic emerging market and developing economies are grappling with economic scarring social tension and reduced policy space Policy actions are already urgently needed to boost growth in the near term and support the ongoing green transition At the same time high public debt and persistently high inflation have constrained policy space posing difficult policy trade offs This Staff Discussion Note focuses on emerging market and developing economies and proposes a framework for prioritization packaging and sequencing of macrostructural reforms to accelerate growth alleviate policy trade offs and support the green transition The note shows that prioritizing the removal of the most binding constraints on economic activity bundling reforms governance business deregulation and external sector reforms and appropriate sequencing of other reforms such as labor market and credit sector reforms can help front load reform gains In emerging market and developing economies with large initial structural gaps the estimated output effects of such a major reform package are sizable about 4 percent in two years and 8 percent in four years Achieving higher growth and lower absolute carbon emissions over time requires a well designed strategy that includes both macrostructural and green reforms

Product Market Regulation and Macroeconomic Performance Fabio Schiantarelli, 2005 The main purpose of this paper is to provide a critical overview of the recent empirical contributions that use cross country data to study the effects of product market regulation and reform on a country's macroeconomic performance After a brief review of the theoretical literature and of relevant micro econometric evidence the paper discusses the main data and methodological issues related to empirical work on this topic It then critically evaluates the cross country evidence on the effects of product market regulation on mark ups firm dynamics investment employment innovation productivity and output growth The paper concludes with a summary of lessons learned from the econometric results Cover verso
