Middle East **Women and Reform in a New England Community, 1815-1860** Carolyn J. Lawes, 2021-10-21

Interpretations of women in the antebellum period have long dwelt upon the notion of public versus private gender spheres. As part of the ongoing reevaluation of the prehistory of the women's movement, Carolyn Lawes challenges this paradigm and the primacy of class motivation. She studies the women of antebellum Worcester, Massachusetts, discovering that whatever their economic background, women there publicly worked to remake and improve their community in their own image. Lawes analyzes the organized social activism of the mostly middle-class urban white women of Worcester and finds that they were at the center of community life and leadership. Drawing on rich local history collections, Lawes weaves together information from city and state documents, court cases, medical records, church collections, newspapers, and diaries and letters to create a portrait of a group of women for whom constant personal and social change was the norm. Throughout *Women and Reform in a New England Community*, conventional women make seemingly unconventional choices. A wealthy Worcester matron helped spark a women-led rebellion against ministerial authority in the town's orthodox Calvinist church. Similarly, a close look at the town's sewing circles reveals that they were vehicles for political exchange as well as social gatherings that included men but intentionally restricted them to a subordinate role. By the middle of the nineteenth century, the women of Worcester had taken up explicitly political and social causes such as an orphan asylum they founded, funded, and directed. Lawes argues that economic and personal instability, rather than a desire for social control, motivated women, even relatively privileged ones, into social activism. She concludes that the local activism of the women of Worcester stimulated and was stimulated by their interest in the first two national women's rights conventions held in Worcester in 1850 and 1851. Far from being marginalized from the vital economic, social, and political issues of their day, the women of this antebellum New England community insisted upon being active and ongoing participants in the debates and decisions of their society and nation.

[The Merlin of St. Gilles' Well](#) Ann Chamberlin, 2000-11-04 In the bestselling tradition of *The Mists of Avalon*, a powerful retelling of the legend of Joan of Arc. For close to six hundred years, the world has been fascinated by the true story of Joan of Arc. The saga of her rise from obscurity to lead the armies of France, followed by her tragic martyrdom, has inspired many books, plays, and films. Less well known is the fact that Joan's astounding destiny was predicted by ancient prophecies attributed to none other than Merlin himself. Or that Joan, later canonized by the Church as a saint, may have been a practitioner of an even older religion, the ancient pagan ways that predated Christianity throughout Europe. *The Merlin of St. Gilles' Well* is a stunning historical fantasy based on actual events that casts Joan and her times in a revealing new light. Gender, Ethnicity, and Violence in Kenya's Transitions to Democracy Lyn Ossome,2018-04-02 Critiquing the valorization of democracy as a means of containing violence and stabilizing political contestation this book draws links between the democratization process and sexual gendered violence observed against women during electioneering periods in Kenya The book shows the contradictory relationship between democracy and gendered violence as being largely influenced in the first instance by the capitalist interests vested in the colonial state and its imperative to exploit laboring women secondly in the nature of the postcolonial state and politics largely captured by ethnic bourgeois class interests and third influenced by neoliberal political ideology that has remained largely disarticulated from women s structural positions in Kenyan society It argues that colonial capitalist interests established certain patterns of gender exploitation that extended into the postcolonial period such that the indigenous bourgeoisie took the form of an ethnicized elite Ethnicity shaped politics and neoliberal political ideology further blocked women s integration into politics in substantive ways It concludes that it is not so much the norms and values of liberal democracy that assist in understanding women s exclusion but rather the structural dynamics that have shaped women s experiences of democratic politics In this way gender violence in the context of democratization and electoral violence with its gendered manifestation can be fully understood as deeply embedded in the history of the structural dynamics of colonialism capitalism and patriarchy in Kenya **To Be Continued** Hope Apple,Merle L.

The Flaming Womb Barbara Watson Andaya, 2006-07-31

The Princess of the Flaming Womb, the Javanese legend that introduces this pioneering study, symbolizes the many ambiguities attached to femaleness in Southeast Asian societies. Yet despite these ambiguities, the relatively egalitarian nature of male-female relations in Southeast Asia is central to arguments claiming a coherent identity for the region. This challenging work by senior scholar Barbara Watson Andaya considers such contradictions while offering a thought-provoking view of Southeast Asian history that focuses on women's roles and perceptions. Andaya explores the broad themes of the early modern era (1500-1800): the introduction of new religions, major economic shifts, changing patterns of state control, the impact of elite lifestyles and behaviors, drawing on an extraordinary range of sources and citing numerous examples from Thai, Vietnamese, Burmese, Philippine and Malay societies. In the process, she provides a timely and innovative model for putting women back into world history. Andaya approaches the problematic issue of Southeast Asia by considering ways in which topography helped describe a geo-cultural zone and contributed to regional distinctiveness in gender construction. She examines the degree to which world religions have been instrumental in re-constructing conceptions of gender, an issue especially pertinent to Southeast Asian societies because of the leading role so often played by women in indigenous ritual. She also considers the effects of the expansion of long-distance trade, the incorporation of the region into a global trading network, the beginnings of cash cropping and wage labor, and the increase in slavery on the position of women. Erudite, nuanced and accessible, *The Flaming Womb* makes a major contribution to a Southeast Asia history that is both regional and global in content and perspective.
