Nation-Building

Reimagining The Nation State

Les W. Field

Reimagining The Nation State:

Reimagining the Nation Marjorie Ringrose, Adam J. Lerner, 1993 Capturing a wide spectrum of current thought on the construction of nationhood and national identity this work explores new ways of thinking about the concept of the nation and suggests possible ways of resisting its totalizing effects Reimagining the Nation-state, 1997 Kropotkin and the Anarchist Intellectual Tradition Jim Mac Laughlin, 2016-02-20 Peter Kropotkin's philosophy of anarchism suffers from neglect in mainstream histories misrepresented as a utopian creed or a recipe for social chaos and political disorder the intellectual strengths and philosophical integrity is overlooked Moving beyond most previous accounts of Kropotkin's anarchism Mac Laughlin focuses less on the man and his political career instead providing a sustained and critical reading of his extensive writings on the social historical and scientific basis of modern anarchism The result is a thorough examination of a number of key themes in Kropotkin's philosophy of anarchism including his concerted efforts to provide anarchism with an historical and scientific basis the role of mutualism and mutual aid in social evolution and natural history the ethics of anarchism and the anarchist critique of state centred nationalism and other expressions of power politics *Mussolini's National Project in Argentina* David Aliano, 2012-08-31 During the 1920s and 1930s Mussolini's fascist regime attempted to promote fascist Italy's national project in Argentina bombarding the republic with its propaganda Although politically a failure this propaganda provoked a debate over the idea of a national identity outside the nation state and the potential roles that citizens living abroad could play in their country of origin In propagating an Italian national identity within another sovereign state Mussolini's initiative also inspired heated debate among native Argentines over their own national project as a nation of immigrants Using the experiences of Mussolini's efforts in Argentina as its case study this book demonstrates how national projects take on different meanings once they enter a contested public space It details how both members of the Italian community as well as native Argentines reshaped Italy's national discourse from abroad by entangling it with Argentina's own national project In exploring the way in which nations are imagined constructed and recast both from above as well as from below Mussolini's National Project in Argentina offers new perspectives on the politics of identity formation while providing a transatlantic example of the dynamic interplay between the Italian state and its emigrant communities It is in short a transnational perspective on what it means to belong to a nation **Language and Minority Rights** Stephen May, 2013-06-17 The Second Edition of this award winning volume in the field of language rights and language policy is a timely and useful revision of its core arguments and examples addressing new theoretical and empirical developments since its initial publication **Nationbuilding, Gender and War Crimes in South Asia** Bina D'Costa, 2012-07-26 This book gives a detailed political analysis of nationbuilding processes and how these are closely linked to statebuilding and to issues of war crime gender and sexuality and marginalization of minority groups With a focus on the Indian subcontinent the author demonstrates how the state itself is involved in the construction of a gendered identity and how control of women and their

sexuality is central to the nationbuilding project She applies a critical feminist approach to two major conflicts in the Indian subcontinent the Partition of India in 1947 and the Liberation War of Bangladesh in 1971 and offers suggestions for addressing historical injustices and war crimes in the context of modern Bangladesh Addressing how the social and political elites were able to construct and legitimize a history of the state that ignored these issues the author suggests a critical re examination of the national narrative of the creation of Bangladesh which takes into account the rise of Islamic rights and their alleged involvement in war crimes Looking at the impact that notions of nation state and nationalism have on women from a critical feminist perspective the book will be an important addition to the literature on gender studies international relations and South Asian politics

Global Ireland Tom Inglis, 2007-10-18 Global Ireland offers a concise synthesis of globalization s dramatic impact on Ireland In the past fifteen years Ireland has transformed from a sleepy and depressed European backwater to the emerald tiger a country with a booming economy based on knowledge and high tech industries Not long ago it was one of the poorest and most traditional countries in Europe yet now it is one of the wealthiest and most cosmopolitan Using a number of case studies of Ireland s transition Tom Inglis explains what this means for traditional Irish culture and society and offers an incisive social portrait of globalizing Ireland Concise descriptive interdisciplinary and theoretically informed this volume is an ideal introduction to Ireland

Reimagining the Nation-State Jim Mac Laughlin, 2001-02-20 This book assesses competing modes of nation building and nationalism through a critical reappraisal of the works of key theorists such as Benedict Anderson and Eric Hobsbawm Exploring the processes of nation building from a variety of ethnic and social class contexts it focuses on the contested terrain within which nationalist ideologies are often rooted Mac Laughlin offers a theoretical and empirical analysis of nation building taking as a case study the historical connections between Ireland and Great Britain in the clash between big nation historic British nationalism on the one hand and minority Irish nationalism on the other Locating the origins of the historic nation in the seventeenth and eighteenth centuries Mac Laughlin emphasises the difficulties and specificity of minority nationalism in the nineteenth century In so doing he calls for a place centred approach which recognises the symbolic and socio economic significance of territory to the different scales of nation building Exploring the evolution of Irish Nationalism Reimagining the Nation State also shows how minority nations can challenge the hegemony of dominant states and threaten the territorial integrity of historic nations

Globalization George Ritzer, Paul Dean, 2014-11-19 Updated to reflect recent global developments the second edition of Globalization A Basic Text presents an up to date introduction to major trends and topics relating to globalization studies Features updates and revisions in its accessible introduction to key theories and major topics in globalization Includes an enhanced emphasis on issues relating to global governance emerging technology global flows of people human trafficking global justice movements and global environmental sustainability Utilizes a unique set of metaphors to introduce and explain the highly complex nature of globalization in an engaging and understandable manner Offers an interdisciplinary approach to

globalization by drawing from fields that include sociology global political economy political science international relations geography and anthropology Written by an internationally recognized and experienced author team li **Postcoloniality and Statehood** Priyanka Chandra,2025-09-12 This book traces the evolution of the postcolonial state and the social contract in Egypt It problematises two of the most ubiquitous and contentious terms democratisation and development within the context of Egypt and the larger Global South It also subverts western centric ideas of global politics to examine why certain aspects of Egypt s history and policies have received more attention than others This volume presents a study of state society relations the shift to Infitah the impact of neoliberalisation from 1970 to 2011 and social responses to it It argues that the Arab Uprisings of 2011 were not isolated events but a result of a longue dur e political economic history Through the prism of postcoloniality it shows how citizenship is constantly renegotiated in view of the ongoing neoliberalisation and the impact of such social transformations on the nature of the postcolonial state It juxtaposes the role of the state and society against global political and economic landscapes to address the larger question what is the nature of the postcolonial state This book will be of interest to a wide array of scholars and researchers from politics and international relations sociology and social anthropology social theory political theory postcolonialism and Global South studies The Domestic Abroad Latha Varadarajan,2010-10-08 In the past few decades and across disparate geographical contexts states have adopted policies and initiatives aimed at institutionalizing relationships with their diasporas These practices which range from creating new ministries to granting dual citizenship are aimed at integrating diasporas as part of a larger global nation that is connected to and has claims on the institutional structures of the home state Although links both formal and informal between diasporas and their presumptive homelands have existed in the past the recent developments constitute a far more widespread and qualitatively different phenomenon In this book Latha Varadarajan theorizes this novel and largely overlooked trend by introducing the concept of the domestic abroad Varadarajan demonstrates that the remapping of the imagined boundaries of the nation the visible surface of the phenomenon is intrinsically connected to the political economic transformation of the state that is typically characterized as neoliberalism The domestic abroad must therefore be understood as the product of two simultaneous on going processes the diasporic re imagining of the nation and the neoliberal restructuring of the state The argument unfolds through a historically nuanced study of the production of the domestic abroad in India The book traces the complex history and explains the political logic of the remarkable transition from the Indian state s guarded indifference toward its diaspora in the period after independence to its current celebrations of the global Indian nation In doing so The Domestic Abroad reveals the manner in which the boundaries of the nation and the extent of the authority of the state in India and elsewhere are dynamically shaped by the development of capitalist social relations on both global and national scales **When Peace Is Not Enough** Atalia Omer,2013-06-03 The state of Israel is often spoken of as a haven for the Jewish people a place rooted in the story of a nation dispersed wandering the earth in search of their homeland Born in

adversity but purportedly nurtured by liberal ideals Israel has never known peace experiencing instead a state of constant war that has divided its population along the stark and seemingly unbreachable lines of dissent around the relationship between unrestricted citizenship and Jewish identity By focusing on the perceptions and histories of Israel's most marginalized stakeholders Palestinian Israelis Arab Jews and non Israeli Jews Atalia Omer cuts to the heart of the Israeli Arab conflict demonstrating how these voices provide urgently needed resources for conflict analysis and peacebuilding Navigating a complex set of arguments about ethnicity boundaries and peace and offering a different approach to the renegotiation and reimagination of national identity and citizenship Omer pushes the conversation beyond the bounds of the single narrative and toward a new and dynamic concept of justice one that offers the prospect of building a lasting peace

The Grimace of Macho Ratón Les W. Field,1999 An ethnographic account of indigenous artisans in Nicaragua and the complex ways they have understood and constructed their own identity from the period of the Sandanistas to the present

Globalizing Intercultural Communication Kathryn Sorrells,Sachi Sekimoto,2015-01-02 Translating Theory into Practice *Globalizing Intercultural Communication* A Reader introduces students to intercultural communication within the global context and equips them with the knowledge and understanding to grapple with the dynamic interconnected and complex nature of intercultural relations in the world today This reader is organized around foundational and contemporary themes of intercultural communication Each of the 14 chapters pairs an original research article explicating key topics theories or concepts with a first person narrative that brings the chapter content alive and invites students to develop and apply their knowledge of intercultural communication Each chapter's pair of readings is framed by an introduction highlighting important issues presented in the readings that are relevant to the study and practice of intercultural communication and end of chapter pedagogical features including key terms and discussion questions In addition to illuminating concepts theories and issues authors editors Kathryn Sorrells and Sachi Sekimoto focus particular attention on grounding theory in everyday experience and translating theory into practice and actions that can be taken to promote social responsibility and social justice

The Cambridge Companion to Human Rights and Literature Crystal Parikh,2019-07-11 Literature has been essential to shaping the notions of human personhood good life moral responsibility and forms of freedom that have been central to human rights law discourse and politics The literary study of human rights has also recently generated innovative and timely perspectives on the history meaning and scope of human rights The Cambridge Companion to Human Rights and Literature introduces this new and exciting field of study in the humanities It explores the historical and institutional contexts theoretical concepts genres and methods that literature and human rights share Equally accessible to beginners in the field and more advanced researches this Companion emphasizes both the literary and interdisciplinary dimensions of human rights and the humanities

Beyond Bollywood Jigna Desai,2004-08-02 Beyond Bollywood is the first comprehensive look at the emergence development and significance of contemporary South Asian diasporic cinema From a

feminist and queer perspective Jigna Desai explores the hybrid cinema of the Brown Atlantic through a close look at films in English from and about South Asian diasporas in the United States Canada and Britain including such popular films as *My Beautiful Laundrette* *Fire Monsoon Wedding* and *Bend it Like Beckham* Soft Borders J. Mostov, 2008-05-26 While sovereignty is increasingly contested within academic circles most recent military conflicts have been over issues of sovereignty in some form Focusing on Yugoslavia in the 1990s this book explores the issues surrounding sovereignty and calls for a radical rethinking of the notion and the institutions and practices that it grounds *Citizenship Education and Global Migration* James A. Banks, 2017-06-23 This groundbreaking book describes theory research and practice that can be used in civic education courses and programs to help students from marginalized and minoritized groups in nations around the world attain a sense of structural integration and political efficacy within their nation states develop civic participation skills and reflective cultural national and global identities *Reflecting 9/11* Heather Pope, Victoria Bryan, 2016-06-22 In over fifteen years the cultural and artistic response to 9 11 has been wide ranging in form and function As the turbulent post 9 11 years have unfolded years that have been shaped and characterized by the War on Terror the Patriot Act the Wars in Afghanistan and Iraq 7 7 Abu Ghraib and Guant namo Bay these texts have been commemorative and heroic have attempted to work through collective and individual traumas and have struggled with trying to represent the terrorist other Many of these earlier domestic heroic and traumatic works have so often been read as limitations in narrative This collection however challenges the language of limitation and provides re readings of earlier work but also traces the emergence of a new paradigm for discussing the artistic responses to 9 11 one that frames these narratives as dialogic self conscious and self reflexive interventions in the responses to the attacks the initial representations of the attacks and the ever shifting social and geopolitical continuities of the 9 11 decade These texts widen the conversation about the lasting impacts of 9 11 and incorporate strands of discussion on American exceptionalism and imperialism torture and otherness whilst still remaining invested in the personal and collective traumas of the attacks The authors included here ask crucial questions about the way 9 11 is being historicized will it for example be read as a moment of rupture or epoch Will it inevitably be attached to the War on Terror or the Wars in Iraq and Afghanistan As they trace the emergent patterns of reflexivity politicization and dissent the contributions here are also implicitly invested in asking how far they extend **Gladstone and Ireland** D. George Boyce, Alan O'Day, 2010-11-24 Explains how William Gladstone responded to the Irish Question and in so doing changed the British and Irish political landscape Religion land self government and nationalism became subjects of intensive political debate raising issues about the constitution and national identity of the whole United Kingdom
