Traditions Wendy Doniger, Wendy Doniger O'Flaherty, 1980-01-01 [Reincarnation & Karma](#) John Van Auken, 2015-04-02 This is a fast reading far reaching look into the strange concept of our soul s life describing how our soul goes through a recurring cycle of incarnations bringing karma that affects us in a way often unseen like a shadow over our personality s life and relationships today Van Auken explains how and why reincarnation occurs where our past life memories are stored and how we may become aware of our soul and its karmic patterns He explains soul mates twin souls soul groups and reveals what our souls are doing when they are not incarnating He revisits passages in the Bible about our origin and true nature a nature that is not affected by the death of the physical body Using sources from the Hindu Akashic Records and the Book of Life or Book of Remembrance as well as Kabbalistic and Gnostic teachings he gives us examples of how our soul sees life rather than our earthly self s view He uses Edgar Cayce s discourses to add to our overall understanding of soul life versus personality life Destiny fate and karma are explored as well Then he has a series of chapters of meditation dreams living by ideals rather than allowing circumstances to direct our lives There s a fascinating chapter telling the lifetimes of one soul s whole series of incarnations and how each of them contributed who she is today and why specific people are in her life today All in all it is an interesting and compelling revelation about a life few of us are aware of but are apparently living at some level of our consciousness **Karma and Reincarnation** Paramhansa Yogananda, 2007-02-28 Many people share theories on reincarnation or karma or what happens at death Paramhansa Yogananda a master of yoga writes from his own true knowledge and experience **Reincarnation and Karma** Louis Stanley Jast, 1944 **Reincarnation and Karma** Rudolf Steiner, 2001-05 5 lectures Berlin and Stuttgart January March 1912 CW 135 Just as an age was once ready to receive the Copernican theory of the universe so is our own age ready for the ideas of reincarnation and karma to be brought into the general consciousness of humanity Rudolf Steiner introduced the West to his detailed scientific knowledge of reincarnation and karma He gave concrete descriptions of the way individuals transform during the course of successive

incarnations and specific examples of how karma works Steiner also provides practical exercises that lead us to experience the reality of reincarnation He believed that by experiencing the reality of successive earth lives we can form a foundation for a spiritual understanding of the relationship between humankind and the cosmos These talks contain some of Steiner's most important teachings on reincarnation and karma His examples and exercises can lead us to direct knowledge of the laws of reincarnation and karma Topics include How to perceive directly the part of our being that passes through many lives on earth How to develop a feeling memory which we need before we are able to experience reincarnation Thought exercises for gaining knowledge of reincarnation and karma Examples of how karma works between incarnations How knowledge of reincarnation and karma affects our moral life This volume is a translation from German of *Wiederverkörperung und Karma und ihre Bedeutung für die Kultur der Gegenwart* **Karma and Rebirth** Calgary Conference on Karma and Rebirth, Post-Classical Developments (1982 : University of Calgary), 1986-01-01 Karma and Rebirth Post Classical Developments explains the religious concepts most central to Asian philosophy religion and society presenting articles representative of contemporary understanding and practice The contributors look not only at the understanding of karma and rebirth in modern India but also in Sri Lanka and Southeast Asia Tibet China Japan and the Western world This broad treatment underscores the fact that karma and rebirth have become part of the religious history and cultural fabric of the Western world The collection is divided into three sections Part I deals with figures and movements of the Hindu renaissance in India in the nineteenth and twentieth centuries Part II on Buddhism deals with Indian Chinese Tibetan and Japanese treatments of karma Part III is devoted to the influence of karma and rebirth in the Western world through theosophy new religious movements and recent developments in psychology **Karma and Rebirth** Gananath Obeyesekere, 2006-01-01 With Karma and Rebirth A Cross Cultural Study on the very first comparison of rebirth concepts across a wide range of cultures Exploring in rich detail the beliefs of small scale indigenous societies of West Africa Melanesia and North America Obeyesekere compares their ideas with those of the ancient and modern Indic civilizations and with the Greek rebirth theories of Pythagoras Empedocles Pindar and Plato His groundbreaking and authoritative discussion decenters the popular notion that India was the origin and locus of ideas of rebirth **Karma and Reincarnation** Elizabeth Clare Prophet, Patricia R. Spadaro, 2001 This insightful book helps readers come to grips with the karmic connections from past lives that have helped create the circumstances of their lives today **Karma, Reincarnation and Rebirth** Diana St. Ruth, 2002 Whether considering the power of past karms or future karma Diana St Ruth offers sound guidance and practical exercises to deepen our understanding **Bad Karma** William Garrett, 2005 Bad Karma Thinking Twice About the Social Consequences of Reincarnation Theory is a cautionary study set in the context of the history of ideas The thesis of the book is that rising popularity of reincarnation theory in American culture poses a significant danger especially in light of the dramatic transitions brought about by the globalization of corporate values in the 21st century America faces an immediate future in

which displacement and social stratification will be a prominent feature of the social life Viewed through the prism of reincarnation theory desperate poverty may come to be seen not as an outrage to justice but as an expression of justice justice on a deeper level Those born into wretched circumstances will be seen as having made choices as to their birth brutal and deprived lives will be seen as people working out their karma The book opens with a philosophical analysis of the doctrines of both reincarnation and karma The history of the doctrines in India will be reviewed and various emergences of reincarnation doctrine in the West will be presented Special attention brought to why none of these emergences took root in Western culture Finally the development of Buddhism in America is assessed with special attention given to whether an American version of Buddhism necessarily entails a belief in reincarnation
