Lovaas, Mercilee M. Jenkins, 2007 Excerpts from foundational work recent journal articles and pieces written for this text about the role of communication in the construction and performance of sexualities in interpersonal contexts and public discourses      The Discourse on Gender Identity in Contemporary Russia Dennis Scheller-Boltz, 2017-08-01 Conchita Wursts Sieg beim Eurovision Song Contest 2014 war ein zentrales diskursives Moment welches das derzeitige Spannungsfeld zwischen Postgenderismus und Traditionalismus in Russland offenlegte und aufzeigte wie sehr Geschlecht und Sexualität nicht zuletzt für das russische Selbstbild und die Konstruktion einer russischen nationalen Identität instrumentalisiert und politisiert werden und wie sehr Identitätskonzepte den russischen Alltag mitbestimmen Die Monografie widmet sich der Diskussion um Geschlecht und Sexualität in Russland nach dem Sieg von Conchita Wurst und untersucht das Verhältnis von Diskurs und Identität Im Vordergrund steht die Funktion von Sprache sowohl für die Identitätskonstruktion als auch für die Schaffung und Abgrenzung von Räumen Dabei lassen sich nicht nur lexikologische und wortbildnerische Besonderheiten beobachten sondern es liegt insgesamt ein auffälliger Sprachgebrauch mit interessanten Argumentationsstrategien vor Ausführungen zu Identität und kritische Anmerkungen zur russischen Gender und Queer Linguistik komplettieren diesen Band Conchita Wursts 2014 victory in the Eurovision Song Contest was a significant discursive moment which revealed the current tensions between postgenderism and traditionalism in contemporary Russia This case also made clear just how far gender and sexuality are instrumentalised and politicised not least in creating Russians self perception and constructing a Russian national identity and how massively notions of identity impact on Russian everyday life The monograph focuses on the discussion of gender and sexuality in Russia following the 2014 event and investigates the relation between discourse and identity Above all it is concerned with the function of language in identity construction and in the creation and demarcation of spaces In this context Dr Scheller Boltz's study not only analyses lexicological and word formation peculiarities but also provides some revealing research findings about specific language use including certain argumentation strategies The

monograph begins with a detailed introduction to notions of identity and concludes with some critical remarks on Russian gender and queer linguistics

**Conversation and Gender** Susan A. Speer, Elizabeth Stokoe, 2011-01-06 Conversation analysts have begun to challenge long cherished assumptions about the relationship between gender and language asking new questions about the interactional study of gender and providing fresh insights into the ways it may be studied empirically Drawing on a lively set of audio and video recorded materials of real life interactions including domestic telephone calls children's play mediation sessions police suspect interviews psychiatric assessments and calls to telephone helplines this volume is the first to showcase the latest thinking and cutting edge research of an international group of scholars working on topics at the intersection of gender and conversation analysis Theoretically it pushes forward the boundaries of our understanding of the relationship between conversation and gender charting new and exciting territory Methodologically it offers readers a clear practical understanding of how to analyse gender using conversation analysis by presenting detailed demonstrations of this method in use

**Femininity, Feminism and Gendered Discourse** Janet Holmes, Meredith Marra, 2010-08-11 The chapters in this book illustrate a range of cutting edge research in language and gender studies with contributions from a number of internationally recognised experts The three themes femininity feminism and gendered discourse are central to research in language and gender and the book thus makes a valuable contribution to a number of current debates Femininity comprises a central aspect of gender performance and the process of gendering individuals is on going and unavoidable For many people the word femininity has associations with frilly pink party dresses with demureness deference and lack of power and influence The first section of this book demonstrates some alternative conceptions of femininity and a range of ways in which femininity is performed in different contexts and cultures The analyses illustrate that we are all continually performing aspects of femininity and masculinity in flexible dynamic ambiguous predictable and unpredictable ways Language and gender research has a long tradition of engagement with the political and specifically with feminism and feminist goals The

chapters in the second section of this book demonstrate the value of identifying gendered patterns in order to challenge their potentially repressive effects in social interaction in a range of spheres. The researchers analyse contemporary international evidence of sexism in language use including material from Japanese spam emails expressing sexual desire and from media reporting on male and female candidates in the 2007 French elections. The final section of this book focuses on the different ways in which we negotiate our gender through discourse. Gender is just one of many facets of our intrinsically hybridized social identities. Nevertheless it is a very significant facet, a salient dimension in everyday life with a pervasive social influence on everything we do and say. Interaction is typically viewed through gendered spectacles much of the time. The chapters in the third section focus in detail on diverse ways in which gender is constructed through discourse, examining the interaction between individual agency and the larger constraining social structures including socio-cultural norms within which that agency is enacted. Finally, the different contributions in this book represent research from a multiplicity of geographic and cultural backgrounds supporting efforts to internationalise language and gender research and to raise awareness of empirical studies undertaken in a wide range of linguistic and cultural contexts.

**Language, Culture, and Society** James Stanlaw, Nobuko Adachi, Zdenek Salzmänn, 2018-04-24. Why should we study language? How do the ways in which we communicate define our identities? And how is this all changing in the digital world? Since 1993 many have turned to *Language, Culture, and Society* for answers to questions like those above because of its comprehensive coverage of all critical aspects of linguistic anthropology. This seventh edition carries on the legacy while addressing some of the newer pressing and exciting challenges of the 21st century such as issues of language and power, language ideology and linguistic diasporas. Chapters on gender, race and class also examine how language helps create and is created by identity. New to this edition are enhanced and updated pedagogical features such as learning objectives, updated resources for continued learning and the inclusion of a glossary. There is also an expanded discussion of communication online and of social media outlets and how that universe is changing how we interact. The discussion on race and ethnicity has also been expanded to include Latin and Asian American English vernacular.

Talking Gender and Sexuality Paul McIlvenny, 2002-01-01. This edited volume brings together scholars from psychology, linguistics, sociology and communication science to investigate how performative notions of gender and sexuality can be fruitfully explored with the rich set of tools that have been developed by conversation analysis and discursive psychology for analyzing everyday practical language use, agency and identity in talk. Contributors re-examine the foundations of earlier research on gender in spoken interaction, critically appraise this research to see if and how it translates successfully into the study of sexuality in talk and promote innovative alternatives that integrate the insights of recent feminist and queer theory with qualitative studies of talk and conversation. Detailed empirical analyses of naturally occurring talk are used to uncover how gender and sexual identities, agencies and desires are contingently accomplished in conversational practices. Collectively they pose the important question of what a critical theory of talk, gender and sexuality

ought to look like if it is to be sensitive to a politics of conversation analysis      *Gendered Discourse in the Professional Workplace* L. Mullany, 2007-07-12 Despite the inroads made by women in the professions the glass ceiling remains a persistent barrier to their career progression Using a range of interactional sociolinguistic data this publication investigates the crucial role that gendered discourses play in perpetuating workplace gender inequalities      **Language, Culture, and Society** Zdenek Salzmänn, James Stanlaw, Nobuko Adachi, 2014-07-08 Why should we study language How do the ways in which we communicate define our identities And how is this all changing in the digital world Since 1993 many have turned to *Language Culture and Society* for answers to questions like those above because of its comprehensive coverage of all critical aspects of linguistic anthropology This seventh edition carries on the legacy while addressing some of the newer pressing and exciting challenges of the 21st century such as issues of language and power language ideology and linguistic diasporas Chapters on gender race and class also examine how language helps create and is created by identity New to this edition are enhanced and updated pedagogical features such as learning objectives updated resources for continued learning and the inclusion of a glossary There is also an expanded discussion of communication online and of social media outlets and how that universe is changing how we interact The discussion on race and ethnicity has also been expanded to include Latin and Asian American English vernacular      **Racialized Politics of Desire in Personal Ads** Neal A. Lester, Maureen Daly Goggin, 2007-01-01 The essays in *Racialized Politics of Desire in Personal Ads* explore complex intersections among the social categories of race gender and sexuality within personal ads revealing a dynamic tapestry of power relations and hierarchies The ephemeral nature of personal ads their anonymity the space limitations and the linguistic encoding characteristic of the genre make it an interesting and important opportunity to witness the performative nature of identity politics      **Language, Literacy, and Power in Schooling** Teresa L. McCarty, 2006-04-21 This text brings critical ethnographic perspectives to bear on the negotiation of language literacy and power in culturally and linguistically diverse contexts showing how literacy and schooling are negotiated by children and adults and how schooling becomes a key site of struggle over whose knowledge discourses and literacy practices count
