**Archaeology and Bioarchaeology of Population Movement among the Prehispanic Maya** Andrea Cucina,2014-11-17 Archaeological evidence i e presence of exogenous foreign material objects pottery obsidian and so on is used to make inferences on ancient trade while population movement can only be assessed when the biological component of an ancient community is analyzed i e the human skeletal remains But the exchange of goods or the presence of foreign architectural patterns does not necessarily imply genetic admixture between groups while at the same time humans can migrate for reasons that may not be related only to trading The Prehispanic Maya were a complex highly stratified society During the Classic period city states governed over large regions establishing complex ties of alliance and commerce with the region s minor centers and their allies against other city states within and outside the Maya realm The fall of the political system during the Classic period the Maya collapse led to hypothetical invasions of leading groups from the Gulf of Mexico into the northern Maya lowland at the onset of the Postclassic However it is still unclear whether this collapse was already

underway when this movement of people started The whole picture of population dynamics in Maya Prehispanic times during the Classic and the Postclassic can slowly emerge only when all the pieces of the puzzle are put together in a holistic and multidisciplinary fashion The contributions of this volume bring together contributions from archaeology archaeometry paleodemography and bioarchaeology They provide an initial account of the dynamic qualities behind large scale ancient population dynamics and at the same time represent novel multidisciplinary points of departure towards an integrated reconstruction and understanding of Prehispanic population dynamics in the Maya region     [El Salvador](#) Salvador

Nunez,2021-05-25 Why El Salvador Hidden Truths In writing this book I propose to explore these Salvadoran histories pages hidden in dust which we have been denied by the economic power and its Governments since the time of the Spanish Invasion We have systematically been denied the truth of this history which is part of our being as the original peoples which belongs to us to our identity We have been robbed and badly treated for more than 528 years which has caused trauma and suffering across our lives And so I undertook to look beneath the debris of the past with its enigmas to find the truth in our past history from our ancestors colonization independence the first peoples uprisings genocide and ethnocide against our ancestors As well as crimes against humanity The role of the Catholic Church in the colonisation and imposition of Christianity and its Holy Inquisition I also want you to be prepared because in this book you will encounter many surprises and facts which are going to collide with your beliefs and notions of being human I am not talking about to be Christians because that is much deeper But of the cruelty of the Spanish conquerors with the lies and falsehoods with which the Salvadorans have been educated Honour and Glory brothers and sisters Nahuas Maya Lencas Chortis Pocomames Xincas Kakawiras Chorotegas and Izalcos who offered their blood for us and future generations This Lent without resurrection to which our ancestors were subjected to began with the Spanish Invasion and has continued till this day in 2020 What you will find in the following pages are not sweet nor cheap announcements from the Salvadoran power base in its communication mediums Newspaper Television digital media and many other lying media For the first time there are voices of our ancestors in the presence of our current generations the grandfathers and grandmothers the young and their actual leaders
