Kenneth J. Sher

Relationship Between Family Structure And Adolescent Substance Use:

The Relationship Between Family Structure and Adolescent Substance Use Robert A. Johnson, 1997-07 This study uses data from approximately 22 000 respondents to the 1991 1992 and 1993 National Household Survey on Drug Abuse Particular topics explored include the particular family types that are most highly associated with adolescent substance use dependence and the need for treatment the interaction between gender race ethnicity and family structure in substance abuse the effects of family structure on type and pattern of substance use and the effect of the gender of the custodial parent on the risk of substance use Tables references and a technical appendix *The Relationship Between Family Structure and Adolescent Substance Use* United States. Substance Abuse and Mental Health Services Administration. Office of Applied Studies, Robert Alan Johnson, John P. Hoffmann, Dean R. Gerstein, 1996 *Substance Use Among Women in the United States* S. Susan Su, Cindy Larison, Rashna Ghadialy, Robert A. Johnson, Fred Rohde, 1997 Representing the first systematic effort to study alcohol cigarette use of drug treatment services characteristics of women who did not receive needed drug treatment involvement in criminal activities by female substance users Charts tables *The Relationship Between Family Structure and Adolescent Substance Use* United States. Substance Abuse and Mental Health Services Administration. Office of Applied Studies, Robert Alan Johnson, John P. Hoffmann, Dean R. Gerstein, 1996 *The Oxford Handbook of Substance Use and Substance Use Disorders* Kenneth J. Sher, 2016-07-13 Substance use and substance use disorders SUDs have been documented in a number of cultures since the beginnings of recorded time and represent major societal concerns in the present day The Oxford Handbook of Substance Use and Substance Use Disorders provides comprehensive reviews of key areas of inquiry into the fundamental nature of substance use and SUDs their features causes consequences course treatment and prevention It is clear that understanding these various aspects of substance use and SUDs requires a multidisciplinary perspective that considers the pharmacology of drugs of abuse genetic variation in these acute and chronic effects and psychological processes in the context of the interpersonal and cultural contexts Comprising two volumes this Handbook also highlights a range of opportunities and challenges facing those interested in the basic understanding of the nature of these phenomena and novel approaches to assess prevent and treat these conditions with the goal of reducing the enormous burden these problems place on our global society Chapters in Volume 1 cover the historical and cultural contexts of substance use and its consequences its epidemiology and course etiological processes from the perspective of neuropharmacology genetics personality development motivation and the interpersonal and larger social environment Chapters in Volume 2 cover major health and social consequences of substance involvement psychiatric comorbidity assessment and interventions Each chapter highlights key issues in the respective topic area and raises unanswered questions for future research All chapters are authored by leading scholars in each topic The level of coverage is sufficiently deep to be of value to both trainees and established scientists and clinicians interested in an evidenced based approach

The Relationship Between Mental Health and Substance Abuse Among Adolescents, 2000-05 Presents an examination of the association between psychological functioning and substance use among adolescents aged 12 to 17 This survey provides estimates of the prevalence of use of a variety of illicit drugs alcohol and tobacco based on a nationally representative sample of the civilian non institutionalized population In 1994 the Youth Self Report YSR Achenbach 1991 was added a comprehensive mental health checklist that generates summary measures of emotional and behavioral problems as well as measures for specific syndromes Dozens of charts and tables

The Oxford Handbook of Adolescent Substance Abuse Robert A. Zucker, Sandra A. Brown, 2019-08-01 Adolescent substance abuse is the nation's 1 public health problem It originates out of a developmental era where experimentation with the world is increasingly taking place and where major changes in physical self and social relationships are taking place These changes cannot be understood by any one discipline nor can they be described by focusing only on the behavioral and social problems of this age period the characteristics of normal development or the pharmacology and addictive potential of specific drugs They require knowledge of the brain's systems of reward and control genetics psychopharmacology personality child development psychopathology family dynamics peer group relationships culture social policy and more Drawing on the expertise of the leading researchers in this field this Handbook provides the most comprehensive summarization of current knowledge about adolescent substance abuse The Handbook is organized into eight sections covering the literature on the developmental context of this life period the epidemiology of adolescent use and abuse similarities and differences in use addictive potential and consequences of use for different drugs etiology and course as characterized at different levels of mechanistic analysis ranging from the genetic and neural to the behavioural and social Two sections cover the clinical ramifications of abuse and prevention and intervention strategies to most effectively deal with these problems The Handbook's last section addresses the role of social policy in framing the problem in addressing it and explores its potential role in alleviating it

The effectiveness of substance abuse education and treatment programs in prevention of crime United States. Congress. House. Committee on Government Reform. Subcommittee on Criminal Justice, Drug Policy, and Human Resources, 2003

Substance Abuse and Mental Health Statistics Sourcebook United States. Substance Abuse and Mental Health Services Administration. Office of Applied Studies, 1998

Handbook of Juvenile Justice Barbara Sims, Pamela Preston, 2006-05-05 Too often professionals in public policy or criminal justice must scramble to find additional reading on juvenile law and justice or on juvenile delinquency topics because most references and textbooks provide inadequate coverage of many issues of importance The Handbook of Juvenile Justice Theory and Practice responds to this need by prov

Adolescent Relationships and Drug Use Michelle A. Miller-Day, Janet Alberts, Michael L. Hecht, Melanie R. Trost, Robert L. Krizek, 2014-04-08 An analysis of relationship influences on adolescent drug use coming from research examining how family and friend relationships affect resistance to drugs For scholars in communication social psych health psych family studies

Adult Involvement in

Improving the Lives of Youth Center for Substance Abuse Prevention (U.S.). Division of Knowledge Development and Evaluation,1999 *Analytic Series* ,1997 *Alcohol, Other Drugs, and Behavior* John Jung,2010 Excellent text for covering alcohol and other drugs of abuse **New Developments in Parent-child Relations** Dorothy M. Devore,2006 In the life of a person there are probably no events outside influences or genetic characteristics even approaching the significance of the broad category of acts and actions called parent child relations These include decisions and actions and lack thereof from the first day of life and sometimes throughout the life span They include learning by example schooling disciplining coping skills behavioural practices eating habits communication skills conflict management and a plethora of other actions This book presents new research in this dynamic field Fragile Families and the Marriage Agenda Lori Kowaleski-Jones,Nicholas Wolfinger,2006-07-04 Many people see government involvement in family policy as a response to popular concerns that the American family is in a state of crisis One of the primary concerns with fragile families one parent usually mother is economic Poverty rates for single mothers are several times that of two parent families Economic deprivation while growing up has been linked to poor physical health reduced intellectual ability and academic achievement Some social sciences contend that marriage is the solution to many of the problems associated with single parent families Other experts believe that government programs designed to raise marriage rates may cause more problems than they solve i e domestic violence divorce etc The proposed volume will explore issues related to fragile families from many different perspectives on the causes and consequences of this issue This book is divided up into sections covering legal and theoretical perspectives causes and consequences of offspring wellbeing and the aspect of father s importance to the fragile families *Encyclopedia of Adolescence* Roger J.R. Levesque,2014-07-08 The Encyclopedia of Adolescence breaks new ground as an important central resource for the study of adolescence Comprehensive in breath and textbook in depth the Encyclopedia of Adolescence with entries presented in easy to access A to Z format serves as a reference repository of knowledge in the field as well as a frequently updated conduit of new knowledge long before such information trickles down from research to standard textbooks By making full use of Springer s print and online flexibility the Encyclopedia is at the forefront of efforts to advance the field by pushing and creating new boundaries and areas of study that further our understanding of adolescents and their place in society Substantively the Encyclopedia draws from four major areas of research relating to adolescence The first broad area includes research relating to Self Identity and Development in Adolescence This area covers research relating to identity from early adolescence through emerging adulthood basic aspects of development e g biological cognitive social and foundational developmental theories In addition this area focuses on various types of identity gender sexual civic moral political racial spiritual religious and so forth The second broad area centers on Adolescents Social and Personal Relationships This area of research examines the nature and influence of a variety of important relationships including family peer friends sexual and romantic as well as significant nonparental adults The third area examines Adolescents in Social

Institutions This area of research centers on the influence and nature of important institutions that serve as the socializing contexts for adolescents These major institutions include schools religious groups justice systems medical fields cultural contexts media legal systems economic structures and youth organizations Adolescent Mental Health constitutes the last major area of research This broad area of research focuses on the wide variety of human thoughts actions and behaviors relating to mental health from psychopathology to thriving Major topic examples include deviance violence crime pathology DSM normalcy risk victimization disabilities flow and positive youth development
