Gillette, 2010-07-09 Head Start Job Corps Foster Grandparents College Work Study VISTA Community Action and the Legal Services Corporation are familiar programs but their tumultuous beginning has been largely forgotten Conceived amid the daring idealism of the 1960s these programs originated as weapons in Lyndon Johnson's War on Poverty an offensive spearheaded by a controversial new government agency Within months the Office of Economic Opportunity created an array of unconventional initiatives that empowered the poor challenged the established order and ultimately transformed the nation's attitudes toward poverty In

Launching the War on Poverty historian Michael L Gillette weaves together oral history interviews with the architects of the Great Society's boldest experiment Forty nine former poverty warriors including Sargent Shriver Adam Yarmolinsky and Lawrence F O'Brien recount this inside story of unprecedented governmental innovation The interviews capture the excitement and heady optimism of Americans in the 1960s along with their conflicts and disillusionment This new edition of Launching the War on Poverty adds the voice of Lyndon Johnson to the story with excerpts from his recently released White House telephone conversations In these colorful and brutally candid conversations LBJ exercises his full arsenal of presidential powers political leverage and legendary persuasiveness to win one of his most difficult legislative battles The second edition also documents how the OEO's offspring survived their volatile origins to become broadly supported features of domestic policy

Pritchett, 2002-02-15 Although bats and dolphins live in very different environments are vastly different in size and hunt different kinds of prey both groups have evolved similar sonar systems known as echolocation to locate food and navigate the skies and seas While much research has been conducted over the past thirty years on echolocation in bats and dolphins this volume is the first to compare what is known about echolocation in each group to point out what information is missing and to identify future areas of research Echolocation in Bats and Dolphins consists of six sections mechanisms of echolocation signal production the anatomy and physiology of signal reception and interpretation performance and cognition ecological and evolutionary aspects of echolocation mammals theoretical and methodological topics and possible echolocation capabilities in other mammals including shrews seals and baleen whales book cover

Negotiators of Change Nancy Shoemaker, 2012-11-12 *Negotiators of Change* covers the history of ten tribal groups including the Cherokee Iroquois and Navajo as well as tribes with less known histories such as the Yakima Ute and Pima Maricopa The book contests the idea that European colonialization led to a loss of Native American women's power and instead presents a more complex picture of the adaption to and subversion of the economic changes introduced by Europeans The essays also discuss the changing meanings of motherhood women's

roles and differing gender ideologies within this context **The "Underclass" Debate** Michael B. Katz, 2018-06-05 Do ominous reports of an emerging underclass reveal an unprecedented crisis in American society Or are social commentators simply rediscovering the tragedy of recurring urban poverty as they seem to do every few decades Although social scientists and members of the public make frequent assumptions about these questions they have little information about the crucial differences between past and present By providing a badly needed historical context these essays reframe today's underclass debate Realizing that labels of social pathology echo fruitless distinctions between the deserving and undeserving poor the contributors focus not on individual and family behavior but on a complex set of processes that have been at work over a long period degrading the inner cities and inevitably the nation as a whole How do individuals among the urban poor manage to survive How have they created a dissident infrapolitics How have social relations within the urban ghettos changed What has been the effect of industrial restructuring on poverty Besides exploring these questions the contributors discuss the influence of African traditions on the family patterns of African Americans the origins of institutions that serve the urban poor the reasons for the crisis in urban education the achievements and limits of the War on Poverty and the role of income transfers earnings and the contributions of family members in overcoming poverty The message of the essays is clear Americans will flourish or fail together Resources in Education ,1983 **Congressional Record** United States. Maris A. Vinovskis, 2005-05-02 One of the most popular and enduring legacies of President Lyndon B Johnson's Great Society programs Project Head Start continues to support young children of low income families close to one million annually by providing a range of developmental and educational services Yet as Head Start reaches its fortieth anniversary debates over the function and scope of this federal program persist Although the program's importance is unquestioned across party lines the direction of its future whether toward a greater focus on school readiness and literacy or the continuation of a holistic approach remains a point of contention Policymakers proposing to reform Head Start often invoke its origins to justify their position but until now no comprehensive political history of the program has existed Maris A Vinovskis here provides an in depth look at the nation's largest and best known yet politically challenged early education program The Birth of Head Start sets the record straight on the program's intended aims documenting key decisions made during its formative years While previous accounts of Head Start have neglected the contributions of important participants such as federal education officials and members of Congress Vinovskis's history is the first to consider the relationship between politics and policymaking and how this interaction has shaped the program This thorough and incisive book will be essential for policymakers and legislators interested in prekindergarten education and will inform future discussions on early intervention services for disadvantaged children
