Religion And Economics Normative Social Theory:

Religion and Economics: Normative Social Theory J.M. Dean, A. M. C. Waterman, 2012-12-06 Normative Social Theory James M Dean and A M C Waterman University of Manitoba 1 Economics and Religion Once Again This book is a sequel to Economics and Religion Are They Distinct Brennan and Waterman 1994 That volume was motivated by a frustration born of many disappointing encounters between economists and theologians in the 1980s Can bishops synods and other voices of organized religion bring any interesting and disinterested contribution to the public policy debate If so what is the relation of their contribution to that of the purely secular knowledge economists believe they can supply Can economists bring any interesting and disinterested contribution to the public policy debate If so what is the relation of their contribution to the fundamental values that inform social ethics and that are still guarded to a large extent by religious tradition All too often the two sides talked at cross purposes Well intentioned economists coexisted for a few hours or days with well intentioned theologians whose manner of conceiving social reality was radically incompatible with their own There seemed to be no common ground The first requisite of any genuine conversation is an agreed conceptual framework that is able to accommodate the peculiar social vision both of the economist and of theologian and to display the logical relation between the two

Theology and Economic Ethics Sean Doherty, 2014-03-27 In the wake of the economic crisis few questions are more pressing than those around the ethics of finance and economics Theology and Economic Ethics seeks to expand the self critical resources of contemporary theological economic ethics by bringing the method of a pre modern thinker Martin Luther 1483 1546 into interaction with that of a modern contribution to social ethics the Swiss theologian Arthur Rich 1910 92 The work is undertaken through a close engagement with a selected publication of Luther his 1519 20 Gro er Sermon von dem Wucher and of Rich his masterwork Wirtschaftsethik published in two volumes in 1984 and 1990 respectively It is the first substantial treatment in English of Rich s magnum opus Sean Doherty introduces Luther s sermon on usury situates it in its context then provides a commentary on this work discussing how Luther brings key theological motifs to bear on a particular economic question The study proceeds with a sketch of Arthur Rich s life and work and presents Rich s method as set out in Wirtschaftsethik Doherty illuminates Rich s understanding of ethics his approach to Scripture and his adoption of the thought of Max Weber and John Rawls Bringing insights from the study of Luther to bear in an analysis of Rich s method Doherty questions some of Rich s assumptions and notes ways in which a more self critical approach could have made his project more successful Finally the book makes tentative suggestions as to the wider applicability of these findings for a Christian approach to economic ethics

Pluralist Economics Edward Fullbrook, 2013-07-18 This book is an authoritative and accessible guide to the pluralist movement threatening to revolutionise mainstream economics Leading figures in the field explain why pluralism is a required virtue in economics how it came to be blocked and what it means for the way we think about research and teach economics The first part of the book looks at how neoclassical economics gained its

stranglehold particularly in the United States and how the social and intellectual underpinnings of economics have enabled it to maintain this in the face of inconsistent evidence from the real world This is then contrasted with different approaches to pluralism Pluralist Economics then goes on to address the array of arguments for establishing pluralism showing how economics came to function as a concealed ideology and not as a science and how value free economics is an illusion Finally it addresses the practical problems presented by this different way of doing economics

Political Economy and Christian Theology Since the Enlightenment A. Waterman, 2004-11-30 Political economy and Christian theology coexisted happily in the intellectual world of the eighteenth century During the nineteenth century they came to be seen as incompatible even mutually hostile In the twentieth century they went their separate ways and are no longer on speaking terms These fourteen essays by Anthony Waterman serve as snapshots of the history of this estrangement and illustrate the gradual replacement of the discourse of theology by that of economics as the rational framework of political debate Others have recently shown that both political economy and Christian theology are important though somewhat neglected elements in modern intellectual history This book is the first to combine these two lines of inquiry

Sayyid Qutb's Radical Islamism and the Comparative Political Theology Dragos Stoica, 2025-02-15 Sayyid Qutb's Radical Islamism and The Comparative Political Theology argues that Sayyid Qutb's radical critique of secular modernity seen as a product of a great theft of sovereignty that usurps the monopoly of God over the entire world of creation is not idiosyncratic or incoherent but a quintessential expression and an extreme type of a specific tradition of political theology that until now has been exclusively the province of the Western thought Dragos Stoica claims that Sayyid Qutb's political theology of Hakimiyyah God's Sovereignty is better understood by integrating it in a wider context of the antimodern political theology Thus throughout this book he compares Qutb's critique of modernity with the Pakistani Islamist thinker Abu al A la Mawdudi 1903 1979 the Spanish Catholic counter revolutionary political theologian Juan Donoso Cortés 1809 1853 as well as the Protestant political theologians Abraham Kuyper 1837 1920 and Rousas J Rushdoony 1916 2001 This book employs a family resemblance cross cultural comparative method and applies a cross disciplinary analytical model that combines comparative political theology with critical discourse analysis Employing these analytical instruments this book compares Qutb and his counterparts via the category of anti modern political theology more precisely through a set of shared antitheses organized around the master concept of God's Sovereignty The ultimate objective is to augment the understanding of the Qutbian critique of secular modernity as an essential dimension of anti modern political theology Thus by recasting Sayyid Qutb as an essential Muslim political theologian of God's Sovereignty placed within a larger cross cultural paradigm this book contributes as well to the necessary process of decolonization of political theology

Economics and Interdisciplinary Exchange Guido Erreygers, 2001-04-12 Economists have not always been on friendly terms with scientists from other fields More than once economists have been accused of imperialism or criticized for neglecting the insights obtained in other fields The history of economics however yields manifold examples of

interdisciplinary borrowing where economists have adapted concepts and The Economics of Paradise S. Wagner-Tsukamoto,2016-04-30 This book searches for the origins of modern thinking in one of the best known stories of our cultural heritage By applying institutional and constitutional economics to biblical interpretation it uses new approach to reconstruct the Paradise story The author challenges the old conceptual dualism between economics and theology philosophy

Overseas Chinese Christian Entrepreneurs in Modern China Joy Kooi-Chin Tong,2013-10-01 Inspired by Max Weber's thesis on the Protestant ethic Overseas Chinese Christian Entrepreneurs in Modern China sets out to understand the role and influence of Christianity on Overseas Chinese businesspeople working in contemporary China Through its in depth interviews and participant observations involving 60 Overseas Chinese entrepreneurs from Hong Kong Taiwan Southeast Asia and the United States the text discusses how Christianity has come to fulfill an increasingly visible and dynamic function in the country most notably as a new source of business morality

IS-LM and Modern Macroeconomics Warren Young,Ben-Zion Zilberfarb,2012-12-06 IS LM is perhaps the prime example of cognitive dissonance in economics and is problematic to many economists On the one hand the IS LM model is still taught by many academic economists or they use it to derive the AD AS approach On the other hand the same economists realize the limitations of the basic IS LM model and would not now use it for policy analysis as they did in the past The distinction between pedagogical and analytical efficacy is made by all the authors in this volume regarding the IS LM model Indeed even those who would reject using the model for modern policy analysis still see the basic model as useful for teaching purposes Moreover in an augmented form some of the authors in this volume would even see fit to use IS LM for modern policy analysis As will be seen therefore the IS LM model is not yet dead Rather the model's plasticity has enabled it to undergo a metamorphosis into augmented form enabling its continuing utilization in economics accordingly

Morality and Work Tibor R. Machan, editor,2013 Examining some of the special ethical dimensions of work the contributors look at the basic issues of the labor market and offer some controversial alternatives to conventional ways of understanding that market Morality and Work confronts issues with a bold candid approach that is sometimes unsettling but always thought provoking

The Church on Capitalism Eve Poole,2010-10-27 An examination of the views on capitalism of bishops academics and business people in the Church of England Highlighting the richness and distinctiveness of these arguments it also points to flaws and gaps Offering a new framework for public theology Poole urges the Church to take its proper place in re shaping the global economy

Divine Providence in Early Modern Economic Thought Joost Hengstmengel,2019-05-21 In this important volume Joost Hengstmengel examines the doctrine of divine providence and how it served as explanation and justification in economic debates in the sixteenth seventeenth and eighteenth centuries throughout Western Europe The author discusses five different areas in which God was associated with the economy international trade division of labour value and price self interest and poverty and inequality Ultimately it is shown that theological ideas continued to influence economic thought beyond the Medieval period and that the science of

economics as we know it today has theological origins Interdisciplinary in nature this book will be of interest to advanced students and researchers in the history of economic thought the history of theology philosophy and intellectual history

Theories of Justice Stephanie Mar Brettman,2015-04-30 What is justice How do we know justice How is justice cultivated in society These are the three questions that guide this critical dialogue with two representatives of the Catholic and Protestant traditions Karl Barth and Karol Wojtyla John Paul II Though the two thought leaders are shaped within divergent theological traditions and historical contexts they both appeal to Christian anthropology as a starting point for justice Their explorations into the nature of humanity yield robust new theories of justice that remain relevant for our contemporary era The third interlocutor our female author brings her own voice fully into the dialogue in the third part of the book in order to address the shortcomings in their theories and build upon their insights all the while seeking theories of humanity and social justice that result in justice for all persons

Religious Studies: The Key Concepts Carl Olson,2010-09-28 An accessible A Z resource defining and explaining key terms and ideas central to the study of religion Exploring broad and recurring themes which are applicable in both eastern and western religions cross cultural examples are provided for each term to give a comprehensive overview of the subject

Property Rights Terry L. Anderson,Fred S. McChesney,2018-06-26 The institution of property is as old as mankind and property rights are today deemed vital to a prosperous economic system Much has been written in the last decade on the economics of the legal institutions protecting such rights This unprecedented book provides a magnificent introduction to the subject Terry Anderson and Fred McChesney have gathered twelve leading thinkers to explore how property rights arise and how they bolster economic development As the subtitle indicates the book examines as well how controversies over valuable property rights are resolved by agreement by violence or by law The essays begin by surveying the approaches to property taken by early political economists and move to colorful applications of property rights theory concerning the Wild West the Amazon endangered species and the broadcast spectrum These examples illustrate the process of defining and defending property rights and demonstrate what difference property rights make The book then considers a number of topics raised by private property rights analytically complex topics concerning pollution externalities government taking of property and land use management policies such as zoning Overall the book is intended as an introduction to the economics and law of property rights It is divided into six parts with each featuring an introduction by the editors that integrates prior chapters and material in coming chapters In the end the book provides a fresh comprehensive overview of an intriguing subject accessible to anyone with a minimal background in economics With chapters written by noted experts on the subject Property Rights offers the first primer on the subject ever produced In addition to the editors the contributors are Louise De Alessi Yoram Barzel Harold Demsetz Thinn Eggertsson Richard A Epstein William A Fischel David D Haddock Peter J Hill Gary D Libecap Dean Lueck Edwin G West and Bruce Yandle

The Oxford Handbook of Christianity and Economics Paul Oslington,2014-01-31 Many important

contemporary debates cross economics and religion in turn raising questions about the relationship between the two fields This book edited by a leader in the new interdisciplinary field of economics and religion and with contributions by experts on different aspects of the relationship between economics and Christianity maps the current state of scholarship and points to new directions for the field It covers the history of the relationship between economics and Christianity economic thinking in the main Christian traditions and the role of religion in economic development as well as new work on the economics of religious behavior and religious markets and topics of debate between economists and theologians It is essential reading for economists concerned with the foundations of their discipline historians moral philosophers theologians seeking to engage with economics and public policy researchers and practitioners

Alternatives to Economics Clive Beed, Cara

Beed, 2006-12-14 Alternatives to Economics outlines the Christian thought system and its value as an alternative to secular social science in the development of socio economic policies Co authors Clive and Cara Beed demonstrate how the Christian thought system could be applied to issues such as distribution of wealth and the growing unemployment problem The Christian thought system provides an alternative way of describing explaining and formulating policies for socio economic matters from that of secular social science Alternatives to Economics finds the current state of economics severely flawed with no set of value free objective tools that can be used to analyze the economy This book seeks to present these Christian thought system tools to both Christians and non Christians

Islamism, Crisis and Democratization Hussein

Solomon, Arno Tausch, 2019-08-22 This book systematically assesses the value systems of active Muslims around the globe Based on a multivariate analysis of recent World Values Survey data it sheds new light on Muslim opinions and values in countries such as Indonesia Iran Tunisia Egypt and Turkey Due to a lack of democratic traditions sluggish economic growth escalating religiously motivated violence and dissatisfaction with ruling elites in many Muslim countries the authors identify a crisis and return to conservative values in the Muslim world including anti-Semitism religious and sexual intolerance and views on democracy and secularism business and economic matters Based on these observations they offer recommendations for policymakers and civil societies in Muslim countries on how to move towards tolerance greater democratization and more rapid economic growth

Having William Schweiker, Charles T. Mathewes, 2004 In today's market economies people

constitute much of their identity in relation to the things they possess and communities facilitate social intercourse and survival by means of property relations What if anything might the study of the biblical religions contribute to thinking about and responding to the basic reality of having In this book scholars in a variety of fields theology ethics economics and biblical studies address in new and penetrating ways the meaning of having in religious and social life and offer a number of compelling answers to challenging questions about property and possession in our present global age

Global Catholicism,

Tolerance and the Open Society Arno Tausch, Stanislaw Obirek, 2019-09-03 This book systematically assesses the political and social values of the more than 1.3 billion Catholics around the globe by far the largest denomination of Western Christianity

Based on an extensive analysis of data from the World Values Survey and other global opinion surveys the book sheds new light on the value systems and opinions of Roman Catholics The authors highlight core problems and challenges the Church is currently facing in adapting to the modern world including Catholic anti-Semitism religious and sexual tolerance and opinions towards democracy while also offering an anthropological reflection on how well the Church is adapting or failing to adapt to the requirements of an open society
