## **Second Foreign Legion Paratroop Regiment:**

**Algerian War and the French Army, 1954-62** Martin S. Alexander, Martin Evans, J.F.V. Keiger, 2002-08-21 The Algerian War 1954-62 was one of the most prolonged and violent examples of decolonization. At times horribly savage, it was an undeclared war in the sense that no formal declaration of hostilities was ever made. Bringing to an end one hundred and thirty-two years of French rule, the Algerian struggle caused the fall of six French prime ministers, the collapse of the Fourth Republic, and expulsion of one million French settlers. This volume, bringing together leading experts in the field, focuses on one of the key actors in the drama: the French army. They show that the Algerian War was just as much about conflicts of ideas, beliefs, and loyalties as it was about simple military operations. In this way, the collection goes beyond polemic and recrimination to explore the many and varied nuances of what was one of the historically most important of the grand style colonial wars.

**Inside the French Foreign Legion** N. J. Valldejuli, 2023-12-19 Unique among the world's fighting forces, the Legion remains one of its most mysterious as well. Open to volunteers from around the world, men from some 150 countries fill its ranks; the Legion boasts an illustrious and exciting military history stretching from Europe to Africa and Latin America. From Vietnam and Algeria to Afghanistan, it features a notoriously difficult selection and training process, accepting only 10 percent of applicants and has traditionally required soldiers to enlist under assumed names. Soldiers swear allegiance not to France but to the Legion, which has been romanticized in literature, song, and action movies as a place for men to prove their mettle or start their lives over. In this colorful, highly readable book, a blend of firsthand experience and interviews with former legionnaires, Nick Valldejuli gives an insider's perspective on what it means and what it takes to be a legionnaire. Valldejuli, an English-born American who spent two years in the Legion, lifts the veil on who legionnaires are, what they do, where they serve, why they joined, and why they're willing to die for France, which for most is a foreign country. Stories move from Algeria in the 1960s and the Balkans in the 1990s to more recent French operations in Afghanistan and former colonies in Africa. Drawing on his own experiences as well as those of members from various countries over the past fifty years, including several girlfriends of soldiers, his stories highlight the Legion's intense camaraderie and its members' fierce loyalty to this unique unit, in addition to the extreme mental and physical demands made of them and the sacrifices of their families back home.

**Military History of the Cold War, 1944-1962** Jonathan M. House,2014-04-28 The Cold War did not culminate in World War III as so many in the 1950s and 1960s feared yet it spawned a host of military engagements that affected millions of lives This book is the first comprehensive multinational overview of military affairs during the early Cold War beginning with conflicts during World War II in Warsaw Athens and Saigon and ending with the Cuban Missile Crisis A major theme of this account is the relationship between government policy and military preparedness and strategy Author Jonathan M House tells of generals engaging in policy confrontations with their governments political leaders among them Anthony Eden Nikita Khrushchev and John F Kennedy many of whom made military decisions that hamstrung their own political goals In the pressure cooker atmosphere of atomic preparedness politicians as well as soldiers seemed instinctively to prefer military solutions to political problems And national security policies had military implications that took on a life of their own The invasion of South Korea convinced European policy makers that effective deterrence and containment required building up

and maintaining credible forces Desire to strengthen the North Atlantic alliance militarily accelerated the rearmament of West Germany and the drive for its sovereignty In addition to examining the major confrontations nuclear and conventional between Washington Moscow and Beijing including the crises over Berlin and Formosa House traces often overlooked military operations against the insurgencies of the era such as French efforts in Indochina and Algeria and British struggles in Malaya Kenya Cyprus and Aden Now more than fifty years after the events House describes understanding the origins and trajectory of the Cold War is as important as ever By the late 1950s the United States had sent forces to Vietnam and the Middle East setting the stage for future conflicts in both regions House s account of the complex relationship between diplomacy and military action directly relates to the insurgencies counterinsurgencies and confrontations that now occupy our attention across the globe
